

Protect yourself and those around you – get your seasonal flu shot.

The flu affects millions of people each year and can lead to serious illness, or even death. The flu can be a contagious illness caused by influenza viruses that infect the lungs, throat and nose. According to the Centers for Disease Control and Prevention (CDC), one of the best ways to prevent the flu is by getting vaccinated each year.¹

Where to get your flu shot

Annual flu shots are covered under most medical plans when you use a contracted network flu shot provider. You have several options of where to go to get this year's flu vaccine.

- ▶ Visit your network doctor or other health care professional.
- ▶ Visit one of the select retail pharmacies contracted to provide flu shots to UnitedHealthcare members.
- ▶ Visit a network Convenience Care Clinic.

To find a network doctor or health care professional, visit myuhc.com[®] or call the member phone number listed on your health plan ID card.

See other side for a list of national pharmacy chains and Convenience Care Clinics that are contracted to provide flu shots to UnitedHealthcare members.

Show your health plan ID card before getting your flu shot.

Most UnitedHealthcare plans cover annual flu shots at 100% when you use a contracted network provider.

Ask your employer or check your plan documents for your plan's specific coverage details.

Short on time? Get your flu shot from one of these contracted network providers.

Retail Pharmacies
