## **JUNE 2018**

### **B.1** BUDGET DEVELOPMENT GUIDANCE

The State of Maryland uses a current services budget (CSB) process. DBM begins with a base of the previous year's budget, then adjusts that base for certain known changes, creating CSB targets for agencies. Agencies must carefully consider their targets and determine what action is needed to submit a budget within the target.

✓ In BARS, we reference "targets" in two ways:

- A <u>CSB target</u>, which is the total General Fund and /or Special Fund target for the agency's entire budget submission. This is what DBM has historically referred to as the agency's budget target. The full budget submission in BARS will validate to ensure the request does not go over the target amount(s).
- Target adjustments and/or locks, which are specific updates that DBM analysts have entered in BARS to ensure that budget mandates and other specific budget items are properly reflected in the submission. For example, DBM may increase a grant program by \$1 million to reflect the funding level specified in statute through a target adjustment. DBM may also "lock" that line item or subprogram to ensure that the funding stays in the mandated location.

Agencies may have to decrease portions of their budget below the previous year's expenditure level. Please contact your assigned DBM analyst if you would like guidance for a specific type of expenditure. Agencies should include documentation with the budget request regarding assumptions made about each category of expenditure (comptroller object or "subobject"). Please refer to Section B.14 for a list of subobjects and guidance on each.

#### **General Considerations**

Agencies should answer the following questions before beginning to build their budget:

- Are any new facilities becoming operational and therefore increasing operating costs?
- Are there required rate changes from the federal government, service providers, or DBM?
- Are there any approved salary adjustments?
- Are there other budget drivers that should be considered?
- If the agency budget is dependent on a caseload forecast, how will that forecast change in the coming fiscal period?
- Are there any new or changed funding mandates that were not reflected in the target?

#### **Strategies**

Averages: When determining the budget for some subobjects, it may make sense to budget the average of the last three completed fiscal years. Averages should be applied to recurring expenditures that are not "controlled subobjects." (See page 2 of this section for a description of controlled subobjects). For example, if the number of inspections an agency conducts stays the same each year, the travel costs related to these inspections may be relatively stable, depending upon fuel costs. Using the average of the last three years may allow for a stable funding level that changes marginally to reflect actual travel costs.

1 | B.1

Most Recent Year Actuals: In some cases, it may be more appropriate to budget the same amount as was spent in the most recently closed fiscal year. Using the most recent actual expenditures is particularly valuable if the agency recently began a new program and does not have enough data or experience to fully predict the potential expenditures. Over time, the agency should be able to better determine which budgeting strategy is appropriate.

<u>Inflationary Factor:</u> In some cases, such as when calculating expenditures that are consumer-based, it makes sense to inflate the previous year's budget. In general, the State uses the Implicit Price Deflator for State and Local Expenditures. Additional information on the implicit price deflator can be found at this link. Next, select Section 1 – Domestic Product and Income and then select Table 1.1.9 Implicit Price Deflators for Gross Domestic Product (A) (Q). Scroll down to Line 26 to find the State and local expenditures.

<u>Specific Commitments:</u> In some cases, there are discrete additional charges that the agency may include for specific commitments. These are often one-time expenditures for new equipment or expenditures related to a new initiative. The agency may budget these within the target, reducing in other areas if necessary. This should include contracts that are multi-year commitments.

#### General Guidance for Working in BARS

While DBM is providing some basic guidance and ideas for how to approach the budget request, we recognize each agency will complete the request in BARS differently. We're just sharing one possible approach. We encourage you to share best practices as you work in the system so we can continue to refine and improve the guidance we provide over time.

- Update the Prior Year (PY) data first, as feasible. If an agency can completely finalize the PY actuals, input Supporting Detail (SD), and then "release" those adjustments, the revised actuals will be visible in the adjustments grid as a reference when updating the CY (Current Year) and BY (Budget Year).
- For the same reason, **next**, **update the CY completely**, input Supporting Detail, and then "release" those adjustments so both PY and CY are updated for reference when deciding what adjustments need to be made in the BY.
- If feasible, input the fund source income and balance information before starting on the BY request. With this information input by the agency, BARS will allow users to view at any given time whether the budget as entered over-expends any specific fund source.
  - This tool can help as you select fund sources each time you are working on the revenue tab of an adjustment.
- Use the Export/Import feature for Supporting Detail in order to use the same information for the CY as the PY, and then the same information for the BY as the CY.
  - This strategy should allow agencies to only have to update the bulk of information once for each SD tab that covers all three years (Contractual Positions, Contracts/Grants, and Real Estate).

- Use the Excel export feature with formulas if you are more comfortable inputting whole numbers while working on the budget request instead of adjusted numbers.
  - o This can also help agencies quickly budget three year actuals or some other calculated budgeting methodology.
  - o For an example, see the exported BARS grid below as well as the formula view of the same spreadsheet.

| $\Delta$ | Α    | В       | С         | D      | E           | F         | G    | Н       | 1       | J       | K       | L        | М          | N               |            |
|----------|------|---------|-----------|--------|-------------|-----------|------|---------|---------|---------|---------|----------|------------|-----------------|------------|

## **Building Blocks of the Budget**

Set Staffing Levels and Salaries for Permanent Positions

- Budget the number of employees the agency will need in order to achieve the goals of the upcoming fiscal period and set the salaries for these employees using the subobject 0101 target set during the Position Reconciliation exercise. New positions must be submitted as over-the-target requests.
- Budget the health and pension benefits and turnover rate that relate to the positions budgeted above.
- The most important subobjects for the agency for this step are 0101, 0112, 0151, 0152, 0154, 0161, 0169, 0174, and 0189.

Set Staffing Levels and Salaries for Contractual Positions

- Budget the number of contractual employees the agency will need in order to achieve the goals and objectives of the upcoming fiscal period and set the salaries for those contractuals. Be diligent about ending contractual positions that are no longer necessary.
- The most important subobjects for the agency for this step are 0220, 0213, 0214, 0217, and 0289.
- The State provides health insurance for certain contractual employees, level fund from FY 2019.
- When budget developers build their salary and fringe budgets, they should include the following considerations:
  - Will the agency be reclassifying individual employees?
  - Will the agency be converting contractual employees to permanent employees?
  - What are the current vacancies and how many of those will be filled in the budget?

Set All Other Controlled Subobject Expenditures what are the earrest vacancies and now many of those win be mice in the badget.

• Controlled subobjects are nondiscretionary. The amounts in the request must be exactly the same, by fund source, as those in the legislative appropriation. While BARS will validate this, the agency should ensure this is correct and contact the assigned DBM budget analyst if there are any questions or concerns. These specific subobjects are 0101, 0152, 0154, 0175, 0217, 0305, 0322, 0697, 0831, 0833, 0839, 0874, 0875, 0876, 0882, 0894 and 0897. Other controlled subobjects that must be budgeted according to guidance in Section B.14 include 0698, 0704, 1302, and 1303.

Set Any Other Mandated Expenditures

- The budget should include any mandated (non-discretionary only) increases or expenditures set forth in statute and carry forward any required contractual expenditures and capital lease financing payments. The staffing considerations for these mandated increases should be considered in the previous steps.
- Agencies should only include mandated increases where the legislature has passed a law that includes language that the "Governor shall" appropriate or include in the budget a specific expenditure amount or budget formula. These are non-discretionary. Agencies should <u>not</u> include funding for new laws that do not specify an amount or provide a formula, unless they are able to include the funding within the target. Alternatively, agencies may request this funding in an over-the-target request.
- CAVEAT: The Legislature will sometimes pass laws that include an intent section with budget language. Intent language in a law is not a legal requirement and agencies should *not* consider these mandates. Agencies should budget these expenditures within existing funds or submit an over-the-target request.

## **B.2** BUDGET PROCESSING AND FORMAT

Any questions concerning submission requirements should be referred to Kurt Stolzenbach, Office of Budget Analysis (410-260-7416 or <a href="mailto:dbm@maryland.gov">dbm@maryland.gov</a>).

As the State of Maryland implements the BARS system as the statewide solution for budget development and analysis, agencies will submit adjustments against the baseline budget provided in BARS in order to create and submit the budget request. The majority of DA-forms that were required in the past are now eliminated as BARS will now capture this supporting detail. For a list of remaining DA-form requirements, see the agency checklist, Section I.3 (see other sections of budget instructions regarding specific changes from DA-forms to BARS).

## **Submission Methodology**

- ✓ Submitting Adjustments in BARS: As indicated in the BARS training, agencies will have a FY 2020 budget target "released" as the "Agency Request" stage in BARS. Agencies can view this baseline and then make adjustments to finalize the request. Agencies will also review and update FY 2018 and FY 2019 data as separate adjustments as needed.
- Margets: Agency General Fund and Special Fund Targets can be viewed in BARS in the Budget Request Module. Specific adjustments will be entered at the line-item level by OBA, while non-specific adjustments will be entered in an "0192" dummy line that agencies will need to redistribute. OBA analysts will help identify where the "0192" line is when agencies are notified they can begin to work on the budget request.
  - One example of a non-specific adjustment for most agencies will be the difference between the salary forecast totals and what the agency had budgeted for salaries and fringes based on salaries in FY 2019.
  - Agencies must redistribute the "0192" dummy line before the budget submission. This
    means that no funding on that line-item MUST equal zero when the budget request is
    submitted to OBA.

An important note regarding Supporting Detail (previously "DA-Forms"): While BARS includes budget, position and fund source baseline information for all three years, the system does not yet have any Supporting Detail (for example, the DA-22 detail that justifies contractual positions in the budget). This means that, for this first year in the system only, agencies will need to submit this detail in separate adjustments for all three years. While this does not save time compared to prior years being outside of the system, THIS IS THE ONLY YEAR THIS WILL BE NECESSARY. After this year, the Supporting Detail information will roll over, just like the budget detail.

- <u>FY 2016 and FY 2017 Actual Expenditures</u> prepopulated by BARS, cannot be adjusted.
- W FY 2018 Actual Expenditures Agencies will have a choice to have this information prepopulated by BARS using a data download from FMIS, OR to use the current FY 2018 budget data as a starting point. DBM emphasizes that FMIS data is to serve as a guide but is unlikely to match final FY 2018 actual

expenditures because of timing as well as mapping issues between PCA codes and subobject level detail. Agencies are asked to correct this data as in previous years by submitting BARS adjustment(s) for FY 2018.

In addition, because the DA-forms are replaced by Supporting Detail (SD) "tabs" in BARS, agencies will need to complete FY 2018 adjustments to enter this supporting information into the system.

• <u>FY 2019 Budget Book Appropriation</u> – prepopulated by BARS from the FY 2019 Legislative Appropriation. Agencies can submit adjustments to restate the FY 2019 appropriation within a program. Realignments within programs are permitted per usual but, no budget amendments should be included in this column. New this year, budget amendments will automatically be added by BARS as they are approved. Agencies with approved reorganizations should contact their OBA analyst for guidance.

In addition, because the DA-forms are replaced by Supporting Detail (SD) "tabs" in BARS, agencies will need to complete FY 2019 adjustments to enter this supporting information into the system.

• <u>M FY 2020 Request</u> – prepopulated by BARS using the FY 2019 Legislative Appropriation, including target adjustments by DBM, updated object 01 data from the Position Reconciliation exercise, as well as "locked" controlled subobjects.

In addition, because the DA-forms are replaced by Supporting Detail (SD) "tabs" in BARS, agencies will need to complete FY 2020 adjustments to enter this supporting information into the system.

#### 

Agencies will be submitting the FY 2020 budget through BARS, similar to prior years with HOBO. Many of the DA Forms (now "Supporting Detail" or "SD") and other supporting information previously required are now to be submitted through BARS. In addition to the budget detail and the SD information, agencies should provide additional supporting budget information and detail. Agencies are strongly encouraged to continue to do whatever work was previously performed outside of the system and shared with DBM prior to FY 2020.

#### **✗** Budget Amendments

Beginning July 1, 2018, agencies will be using BARS to submit budget amendments. Agencies are no longer required to submit a DA-28 form to get prior approval for submitting budget amendments. However, agencies are encouraged to discuss any proposed budget amendment submissions with their budget analyst. The agency should be prepared to answer the following questions:

- 1. Can the funding be provided through a deficiency appropriation request?
- 2. Can the realignment amendment (other than a reorganization) or additional non-general fund increase be processed later in the year when more actual spending trends are available?

Agencies should <u>not</u> input changes related to proposed or approved budget amendments into the FY 2019 agency working appropriation. Rather, agencies will submit budget amendment adjustments in BARS that contains the same sub-program and comptroller/agency object detail as the budget detail. Approved amendments will be added to the FY 2019 Agency Amended Working Appropriation. In addition, BARS allows DBM the option to reflect the amendment in the FY 2019 Budget Book Appropriation if the amendment completes the approval process by January 16, 2019.

Additional guidance will be provided to agencies that outlines the budget amendment adjustment process in BARS.

Note: DBM will process the following FY 2019 budget amendments through BARS:

- 2% Cost of Living Adjustment (COLA) effective 1/1/2019
- State Law Enforcement Officers' Labor Alliance (SLEOLA) increment
- Annual Salary Review (ASR) for respective position classifications

| Type of Adjustment | Include in FY 2020-Budget Book Appropriation? | Submit Line-Item Detail to DBM Through BARS |
|--------------------|---|---|
| Reimbursable Fund  | NO  | YES   |
| Special Fund       | NO  | YES   |
| Federal Fund       | NO  | YES   |
| Reorganization     | NO  | YES   |

Agencies with approved reorganizations should contact the OBA Budget Processing Team (BPT) to confirm how the budget will be realigned for all years in accordance with the planned revision. Additional guidance is provided in <u>Section A-4</u> Reorganizations.

#### ✓ Chart of Accounts Data Changes

Agencies are encouraged to review their agency's units, programs, subprograms, or agency subobjects in BARS through the Agency Administration - COA Maintenance tab. The BARS Chart of Accounts (COA) must be up-to-date in order for an agency to select valid account codes when making adjustments.

Please note that subprograms cannot be deleted in BARS as they may be relevant for historical data. As part of your review, verify whether subprograms are still valid for the budget reporting years. The "disabled" button can be selected in BARS COA to restrict subprograms that are no longer valid.

Agencies should follow the process below to update the agency COA:

1. **Agency Adjustment**- An agency approver can create the subprogram and/or agency subobject adjustments in BARS using the Agency Administration- COA Maintenance tab. When complete, the user should e-mail <u>dlbudgethelp dbm@maryland.gov</u> with the BARS item # so that the adjustment can be approved and released. This process is suggested for fewer and/or immediate updates.

2. **OBA Adjustment** — Agencies can submit requests for COA updates that require more substantial subprogram/agency subobject or unit and program updates. The agency should submit these updates via an Excel spreadsheet by e-mail to <a href="mailto:dlbudgethelp-dbm@maryland.gov">dlbudgethelp-dbm@maryland.gov</a> - BPT will reply by e-mail when updated and approved in BARS.

Modifications to the BARS COA account code structure (adds or edits) are not part of the FMIS and Workday interfaces. Agencies will need to update account codes separately in FMIS and Workday as appropriate, and vice versa.

# B.3 TECHNICAL AND SPECIAL FEES – OBJECT 02 (CONTRACTUAL EMPLOYEE BUDGETING)

Contractual positions (State Personnel and Pensions §13-101) are workers having an employee-employer relationship with the State, but they are hired for a specific project or time period. \*\*A justification for each contractual position is required, using the Contractual Positions Supporting Detail (SD) module within BARS budget adjustments. Adjustments that provide detail in the Contractual SD tab can be completed on a program/subprogram level or on an agencywide or unit-wide level. Note that this year, agencies will need to complete the detail for all three years in separate adjustments to create a baseline of Contractual detail in the system, but in the future this detail will not need to be re-entered.

Agencies should take a "zero-based" approach to budgeting contractual positions. Any position that can be eliminated should not be renewed (reductions can be initiated in FY 2019) and should not be funded in FY 2020.

### Special Payments Payroll (Object 02)

Budget the salary for contractual positions in subobject <u>0220</u>. Note that additional funding will <u>not</u> be provided via target adjustment to allow increases to contractual salaries similar to those provided to regular positions due to collective bargaining agreements. If agencies choose to adjust contractual salaries that is their prerogative, but funding must be found within the budget target.

## ✓ Social Security or FICA (0213)

The Contractual SD tab in BARS will calculate 0213 based on the salaries entered in 0220. The rate and ceiling used for subobject 0213 are different from those used for subobject 0151 because contractual employees do not participate in flexible spending accounts.

<u>Each</u> contractual annual salary (subobject 0220) <u>equal to or less than</u> \$130,223 is multiplied by <u>0.0765.</u> The result is the amount for FICA (0213) for that position.

FICA for <u>each</u> contractual annual salary <u>greater than</u> \$130,223 is calculated in BARS as follows:

- (1) Multiply \$130,223 by 0.0765.
- (2) Multiply the difference between the annual salary and \$130,223 by 0.0145.
- (3) Add result of first two calculations to get the total 0213 amount per position.

### ✓ Unemployment Compensation Insurance (0214)

The Contractual SD tab in BARS will calculate 0214 based on the salaries entered in 0220. BARS will multiply the amount in subobject 0220 by 0.28%.

### Contractual Health Insurance (0217)

Agencies should budget the same level as the FY 2019 appropriation. DBM will work with agencies to determine the final amount by December.

### Turnover (0289)

Contractual turnover should be computed on the sum of subobjects 0220, 0213, and 0214 for each subprogram (or program if subprograms are not used) and entered as a negative amount in a record for comptroller object 0289. In FY 2020, each agency should budget contractual turnover based on

the agency's turnover rate for permanent positions <u>plus</u> an additional 4.21% to account for a "reasonable" vacancy rate for the 11 annual holidays that contractual employees will not receive compensation for in FY 2020. For example, if the vacancy rate for permanent positions in a given program is zero, 4.21% should be the turnover rate, since the employees will not receive compensation for the 11 holidays. If the vacancy rate for permanent positions is 5%, the total turnover will be 9.21%. 

The turnover rate used for a subprogram (or program if subprograms are not used) must be reported using the comment field in BARS.

All agencies, except higher education institutions, should report supporting detail on the Contractual Positions SD module in BARS. Higher education institutions should report supporting full-time equivalent (FTE) and salary detail per employee category in accordance with the assigned DBM budget analyst's instructions.

## ✓ Contractual Employees Supporting Detail (SD)

NEW FOR FY 2020 – This module in BARS is used to report all contractual employment for FY 2018 and FY 2019, and identify contractual positions or contractual conversions requested in FY 2020. It replaces the prior DA-22 form. The totals for the Actual, Appropriation and Request years in the Contractual Positions tab in BARS will set the budgetary amounts for Comptroller Subobject 0220 for each subprogram for both dollars and FTEs for each year. Agencies must fill out all sections of the SD module separately for each year for contractual positions. These SD tabs must reflect the total amount for 0220 in each fiscal year by fund type.

<u>Unit/Program/Sub-Program Columns</u>: Data supporting contractual employment must be completed at the subprogram level of detail in order to validate in the agency budget adjustment.

Comptroller Subobject: Agencies should select subobject 0220.

<u>Fund</u>: This column should record one of the following codes for the fund type supporting the contractual position each year (01 General Funds, 03 Special Funds, 05 Federal Funds, 07 Non-Budgeted Funds, 09 Reimbursable Funds, 40 Current Unrestricted Funds, and 43 Current Restricted Funds). If there are multiple fund types per contractual position, create a second line to indicate the portion (including total FTEs) that belongs to that secondary fund type.

<u>Class Code</u>: Multiple contractual positions with the same classification in each subprogram may be listed together and shown as a full-time equivalent for the year. For example: 4.25 could represent 17 interpreters who each work on average 3 months per year.

Working Title: This column indicates the title of the provided Class Code and will be pre-populated by BARS based on the selected class code.

<u>Job Purpose/Description</u>: Enter a brief description of the need for the contractual position(s), including any additional justification.

Actual, Current Appropriation, and Request Years: Agencies must report contractual data for each of the three fiscal years to support the FY 2020 Budget Submission.

<u>Fiscal Year FTE Adjustment</u>: If the position is full-time, indicate "1.00." Otherwise, indicate the percentage (to the nearest hundredth) of the position used for each year. A total should be provided for this column.

<u>Fiscal Year Dollars Adjustment</u>: Record the total salary for the contractual position, excluding Social Security or other fringe benefits. These amounts will set the 0220 funds for each reported year at the level (i.e., subprogram) where contractual employees are reported.

<u>Comment</u>: Enter any additional detail to report for the position, such as contractual turnover rate.

Unusual contracts involving an employer-employee relationship between a contractor and the contracting State agency may be consolidated into a single line on this form. This single line must contain a total FTE count for the contracts in this category and the dollar amounts entered in the appropriate columns for the appropriate fiscal years. Types of unusual contracts include:

- Policy exemptions such as students, patients, inmates, direct emergency services, School for the Deaf direct student services, college faculty, on-duty physicians, Board of Public Works, Governor's Office, and intermittent unemployment insurance claims;
- Contracts in the Legislative and Judicial branches of government; and
- Exemptions based on State law.

All contractual conversions should be requested as over-the-target (OTT) request adjustments, even if sufficient funding exists to fund the conversions within the target. Do not include contractual conversions in the budget request. A contractual position and funding must be included in the FY 2019 legislative appropriation to be considered a contractual conversion. The OTT request for Object 01 FTEs should not exceed the amount of FTEs reduced in Object 02. See Section A.1 for further guidance on contractual conversions.

## B.4 COMMUNICATION – OBJECT 03

Telephone (0302), Telecommunications (0303), and Misc. Communications Charges (0304) Subobjects 0302, 0303, and 0304 include projected communication costs billed directly by vendors to an agency. Agencies responsible for their own Private Branch Exchange (PBX) or Centrex service bills should budget the actual usage portion of PBX and Centrex service, including local and long distance. All agencies must ensure that they have sufficient funds to cover 12 months of charges.

### DBM Paid Telecommunications (0305)

Telecommunications costs for services centrally managed by the Department of Information Technology (DoIT) are included in subobject 0305. FY 2020 funding will match the FY 2019 legislative appropriation by fund for 0305 in BARS. The amount in 0305 is restricted and cannot be used for another purpose without the approval of DBM. DoIT will develop FY 2020 estimated costs for each service including:

- Contract management and administration,
- Statewide Enterprise Networks (Wireless Network and FMIS),
- Network Maryland,
- PBX, and
- Multi Service Centers (MSC) telecommunications costs.
- Voice over Internet Protocol (VoIP)

Note that subobject 0305 will not include charges for DoIT Enterprise coordination with State agencies — additional guidance on budgeting for DoIT support of State agencies will be provided at a later date.

## Cell Phone Expenditures (0306)

Agencies must allocate costs for all cellular phones, personal data assistants (PDAs) and tablets using subobject 0306.

#### Telecommunications Capital Leases (0322)

An agency's portion of current or anticipated FY 2020 lease payments for PBX and MSC related equipment purchased via the State Treasurer's Office Master Lease-Finance Program should be budgeted in subobject 0322. Similar to 0305, FY 2020 funding will match the FY 2019 legislative appropriation by fund for subobject 0322. The amount in 0322 is restricted and cannot be used in another subobject without the approval of DBM. DBM and DoIT will make a final determination of the agency budget requirements for subobject 0322.

For further guidance or information related to Telecommunications budget projections, contact: Russell Mueller, at the Department of Information Technology, 410-697-9642 or Russell.Mueller@maryland.gov.

## B.5 TRAVEL - OBJECT 04

## In-State Travel: Routine Operations (0401) and Conferences/Seminars/Training (0402)

Agencies should budget in-state travel expenditures in subobject 0401. These costs include tolls, parking fees, and the private mileage reimbursement rate of <u>54.5 cents per mile</u>. (Note that the mileage reimbursement rate is tied to the Federal reimbursement rate and usually changes in January each year and is updated in the State travel regulations. The rate can change mid-year under extraordinary circumstances, and agencies will be notified during those instances.) Meals may be reimbursed in accordance with State travel regulations at the following amounts:

Breakfast: \$10.00 Lunch: \$12.00 <u>Dinner:</u> \$25.00 Maximum per day: \$47.00

Subobject 0402 should be used to budget for conference fees, necessary hotels, and other in-state travel costs not included in 0401. Participation in conferences, seminars, and training should be limited to the direct mission of an agency. Using the comment field in BARS to provide details of each planned trip will aid in budget analysis.

Out-of-State Travel: Routine Operations (0403) and Conferences/Seminars/Training (0404) Subobjects 0403 and 0404 should be budgeted similarly to the "In-State Travel" objects above. Please refer to the State travel regulations for out-of-state reimbursement amounts.

#### Corporate Purchasing Card (0495)

Agencies should not budget planned expenditures under subobject 0495. Agencies should budget expenditures in the appropriate subobject listed above.

Please refer to the State travel regulations on the DBM website for further guidance: <a href="http://www.dbm.maryland.gov/Pages/TravelManagementServices.aspx">http://www.dbm.maryland.gov/Pages/TravelManagementServices.aspx</a>

## B.6 FUEL AND UTILITIES - OBJECT 06

Calculations for fuel and utilities may reflect a historically-based usage projection multiplied by a rate or an FY 2018 actual adjusted by an inflation rate. The methodology used to calculate Fuel and Utilities requests should be explained in a line-item comment in the BARS adjustment. Agencies should include any necessary adjustments related to space utilization in the calculation.

**Inventory of Buildings:** Agencies should use the line-item comment field in BARS to indicate the square footage of each building served by the fuel and utilities included in the FY 2020 budget request. This information should be specified on a line item basis for each of the buildings included under the particular subobject, following an example similar to "Gas heat/Electricity for X square feet for Field Office in Cumberland".

Fuel – Natural Gas/Propane (0606): Agencies that use natural gas procured by the Department of General Services (DGS) should request FY 2020 funding of 2.1% over <u>FY 2018 actual expenditures</u>.

**Utilities – Electricity (0620):** Agencies consuming electricity procured by DGS should request FY 2020 funding of 3.6% over the FY 2018 actual expenditures. No State agency may purchase electricity in the State's competitive electric utility market until DGS and the Maryland Energy Administration ensure that purchase is consistent with the State's strategy.

**MES Charges (0697):** Agencies should use subobject 0697 if the Maryland Environmental Service (MES) provides water, sewage or facility operation services. Agencies should request FY 2020 funding equal to the <u>FY 2019 appropriation</u> by fund for 0697. DBM will update the figures for FY 2020 as needed. Agencies should inform the DBM analyst of any fund split changes in 0697.

Loan Repayment - Energy Conservation Project/State Agency Loan Program (0698): Agencies should request funding in the amount required in their Energy Performance Contract (EPC) or State Agency Loan Program (SALP) contract, as detailed in the following schedule. The schedule lists charges known as of June 2018. If an agency plans to initiate a new EPC and/or SALP loan, the amounts on the schedule should be increased. Agencies should provide an itemization of additions and subtractions in the comment field for the line item in BARS. The itemizations should clearly indicate how the request is derived and why it differs from the schedule. Questions should be directed to James McKitrick at James.McKitrick1@maryland.gov.

# B.7 MOTOR VEHICLE OPERATIONS AND MAINTENANCE – OBJECT 07

The budget process is the most appropriate method for requesting vehicles. Agencies are expected to include complete FY 2020 vehicle needs within the FY 2020 budget request.

Each agency should carefully consider the use of its motor vehicle fleet in terms of annual mileage and consistent use before submitting requests for replacement or additional vehicles. This fleet review should include an effort to downsize the fleet, especially for vehicles assigned to headquarters staff. Fleet analysis must include a review of field staff vehicle usage. From a cost savings standpoint, field staff currently traveling in private vehicles that generate excessively high mileage (10,000 miles annually), and consequently high privately owned vehicle (POV) reimbursements, are strong candidates for State motor vehicle assignments.

#### Replacement Vehicles

An agency should determine whether all the vehicles in its fleet are essential to program operations. A concerted effort to downsize fleets will assist the overall budget process. All replacement vehicles will be budgeted and requisitioned by size and type. A vehicle <u>may</u> be considered for replacement if its mileage will exceed 100,000 miles by March 2020. However, 100,000 miles is only an indicator that the potential exists to replace a vehicle; it is not the benchmark used for approval. DBM will review each vehicle request on a case-by-case basis. Requests to replace vehicles with lower mileage must be justified.

#### **Additional Vehicles**

Additional vehicles should be requested only if:

- No existing vehicle can be reassigned to fill the need.
- The vehicle will be driven at least 10,000 miles per year.
- There is a cost savings (provide written justification).

### **Sport Utility Vehicles (SUVs)** (does not apply to law enforcement agencies)

Agencies are required to include justification for <u>each replacement and additional</u> SUV request, using DBM's Fleet Administration Unit (FAU) criteria:

- Description of the primary purpose or use of the vehicle and the frequency of its use. *Inclement weather is not a valid justification*.
- Detailed explanation why existing agency SUV fleet cannot be realigned to meet the need.
- Detailed explanation proving that purchasing a smaller or alternative type of vehicle with options does not meet the needs of the agency.
- Detailed explanation demonstrating that the vehicle will be operated off-road more than 20% of the year.

#### **Pricing**

The price list for vehicles using regular and alternative fuel is located on page 8 of this section. The price list provides estimated purchase prices to replace different types of vehicles. The prices must be adjusted by the estimated trade-in value of each vehicle, found on page 9 of this section. Justification for any deviation in price and trade-in value from those provided in this table must be detailed using the comment field in BARS.

## M The budget adjustment for new and replacement vehicles should be made using the Vehicles Supporting Detail (SD) tab, which replaces the prior DA-8:

# Column

BARS Comment Each agency should provide justification and/or itemization of requested items.

## **Motor Vehicle** O&M Supporting Detail Tab

Each agency must fill out all sections of the Vehicles SD tab for replacement or additional vehicles for FY 2020, but not for prior year budgeted vehicles. These SD tabs must reflect the total amount for new vehicle purchases (0701 or similar subobject) by subprogram by fund type.

All new and replacement sedans, if approved, will be the Type 1-Standard State Sedan unless adequate justification is provided for a different type of vehicle.

Each agency also should include the following information in the comment field:

- Explanation of why low-mileage replacement vehicles should be considered for approval (damaged beyond economical repair, will incur extraordinary maintenance costs, etc.).
- Reason that vehicles are being replaced with a different vehicle type.

Agencies, such as the Maryland Department of Transportation and the Department of Natural Resources, that apply "add-on" characteristics to vehicles must use the Add-On Value and Comment column in the Vehicles tab to indicate the price and detail for those purchases.

Vehicle requests made during FY 2020 are discouraged, and consideration of such requests will be limited. If an agency determines that an unscheduled vehicle replacement is needed during FY 2020, the agency will be expected to substitute the vehicle replacement with a scheduled FY 2020 replacement. Out-of-schedule vehicle requests due to "new" programs and federal funding must be submitted as a deficiency request for FY 2020.

Any unscheduled vehicle requisitions must be justified in the FMIS Notepad prepared by the agency. Examples of justifications might be:

- why and how the purchase of the vehicle will save the State money,
- an accident damaged the vehicle beyond reasonable cost to repair,
- excessive repairs to a vehicle will be more expensive than purchasing a new vehicle, or
- recent receipt by the agency of new grant funds (Special, Federal, Reimbursable).

## Vehicle Operating Costs (0702 - Gas and Oil and 0703 - Maintenance and Repairs)

The justification for Gas and Oil and Maintenance and Repair should be provided using a brief explanation in the BARS comment field with a rate per mile (see Section B.14 - Standard Rates and Schedules), e.g., "\$X per mile for 10 vehicles with 10,000 miles driven annually" or actual expenditures plus a reasonable inflation assumption.

## Auto Insurance (0704)

A schedule of automobile insurance payments to the State Treasurer's Office (STO) is included on page 11 of this section. Specific questions regarding premiums should be directed to the STO at 410-260-7684.

## Commute Charges (0789)

DBM's FAU has established a commute charge policy based on the actual miles traveled for a one-day round trip commute as opposed to a zone charge. The **FY 2020 Commute Deduction Chart** (pages 9 to 10 of this section) outlines the cost per round trip for sedans and light trucks and vans (LTVs). Agencies should multiply the round trip rate by the number of payrolls for each eligible commuter to calculate the FY 2020 budget request at a subprogram or program total level. *Please note that the actual FY 2020 schedule to be used will be developed near the beginning of FY 2020 and may be different than the chart in these instructions.* 

#### **Additional Information**

If you have any questions pertaining to budgeting for vehicle operations and maintenance, please contact the assigned DBM budget analyst or Joe Consoli, DBM Fleet Administration Unit, at (410) 260-7195 or Joseph.consoli@maryland.gov.

3 | B.7

## B.7.1 GUIDELINES FOR AUTHORIZATION AND USE OF STANDARD STATE VEHICLES BY CLASSIFICATION

#### **SEDANS**

Passenger cars, marked and unmarked cars

#### Type Description

- Standard State Sedan (Gasoline): Normal staff/client transportation for driver and up to four passengers with limited trunk or storage space.
- 1-E **Fully Electric Compact Sedan:** Fully electric vehicle capable of traveling at least 30 miles between charging.
- 1-H **Hybrid State Sedan:** Same as Type 1 except fueled by combining a gasoline engine with a powerful electric motor.
- 1-M **Standard Mid-Size Sedan:** Normal staff/client transportation for driver and up to 4 passengers with full trunk and storage space.
- 1-PH **Plug-In Hybrid Sedan:** Same size as a Type 1 and fueled by combining a gasoline engine with a powerful electric motor.
- 2-C **Flex-Fueled Executive Sedan:** May be fueled solely by ethanol (E-85), unleaded gasoline, or a mixture of the alcohol fuel and gasoline from the same tank.
- 2-H **Hybrid Executive Sedan:** Fueled by combining a gasoline engine with a powerful electric motor.
- 2-PH **Plug-In Hybrid Executive Sedan:** Fueled by combining a gasoline engine with a powerful electric motor.
- 3-1 Standard Maryland State Police (MSP) Police Sedan, Unidentified (Non-Ethanol): For use by MSP, Natural Resources Police, and line public safety functions with statutory arrest powers authorized to carry firearms and make arrests as part of routine duty.
- 4 Standard Law Enforcement Sedan (All-Wheel Drive (AWD)): For use by MSP, Natural Resources Police, and other law enforcement units in line operations that require a vehicle with more capability and interior room than the Type 1 Standard State Sedan.

#### LIGHT TRUCKS AND VANS (LTVs)

Light trucks and vans including pickup trucks, cargo, and carry-all vans with maximum rated payload of 2,500 pounds or less, and passenger vans with 12 passenger capacity (with the driver).

## Type Description

- 5 **Compact Pick-up Truck:** General light hauling where cargo/payload should not exceed 1,000 lbs. Not recommended for snowplow operation.
- 6-C **Flex-Fueled** ½-**Ton Pick-up Truck (Ethanol E-85):** General light hauling where cargo/payload should not exceed 1,500 lbs. Option available for 4 X 4 when necessary for off-road and grounds maintenance. May be fueled solely by ethanol (E-85), unleaded gasoline, or a mixture. Not recommended for snow plowing.

- 6-P **Police Special Service 1/2-Ton Pick-up Truck (Unleaded gasoline):** Not recommended for snow plowing; has a V8 engine.
- <sup>3</sup>/<sub>4</sub>-Ton Pick-up Truck: General light hauling where cargo/payload should not exceed 2,500 lbs. Option available for 4 X 4 when necessary for off-road, grounds maintenance, or snow plow operation.
- 8 **1-Ton Pick-up Truck with Regular Cab:** General light hauling where cargo/payload does not exceed 3,500 lbs. Option for 4 X 4 available when necessary for off road, grounds maintenance, or light snow plowing.
- 9 **Part-time Four Wheel Drive Compact Utility Vehicle with Console:** For off-road transport and as justified based on job function and established criteria.
- 9-P Flex-Fueled Part-time All Wheel Drive Compact Utility Vehicle (Ethanol E-85): May be fueled solely by ethanol (E-85), unleaded gasoline, or a mixture of alcohol fuel and gasoline from the same tank. For off-road transport and as justified based on job function and established criteria.
- 10-1 **Part-time Four Wheel Drive Full Size Utility Vehicle with Extended Cab:** Restricted to those agencies towing 6,000 to 8,000 pounds and carrying payloads of 1,300 to 1,700 pounds. For off-road transport and as justified based on job function/established criteria.
- 10-C Part-time Four Wheel Drive Full Size Utility Vehicle with Console (Ethanol E-85): Restricted to those agencies towing 6,000 to 8,000 pounds and carrying payloads of 1,300 to 1,700 pounds. For off-road transport and as justified based on job function and established criteria; may be fueled solely by ethanol (E-85), unleaded gasoline, or a mixture of the alcohol fuel and gasoline from the same tank.
- 10-M **Part-time Four Wheel Drive Mid-Size Utility Vehicle:** Recommended for towing up to 5,000 pounds and carrying payloads of 12,000. For off-road transport and as justified based on job function and established criteria.
- 10-P **Two Wheel Drive Full-Size Utility Police Pursuit Certified Vehicle**: For use by law enforcement officers in pursuit, possibly off-road. Not recommended for towing.
- 11 **Five Passenger Mini-Wagon/Van:** Passenger/client transport with more cargo space than in the Standard Sedan.
- 11-1 **Mobility Mini-Van:** This vehicle is used as a paratransit vehicle, providing transportation for ambulatory passengers and having the capability to accommodate one or two wheelchair passengers.
- 11-C **Five Passenger Mini-Wagon/Van (Ethanol-85):** Passenger/client transport with more cargo space than in the Standard Sedan; may be fueled solely by ethanol (E-85), unleaded gasoline, or a mixture of the alcohol fuel and gasoline from the same tank.
- 13-C Flex-Fueled Full-Size Eight (8) Passenger Specialty Wagon/Van: Passenger/client transport; may be fueled by ethanol (E-85), unleaded gasoline, or a mixture of alcohol fuel and gasoline from the same tank.

- 14-C Flex-Fueled Full-Size Twelve (12) Passenger Wagon/Van: Passenger/client transport; may be fueled be ethanol (E-85), unleaded gasoline, or a mixture of alcohol fuel and gasoline from the same tank.
- 17-C **Full-Size** 3/4-**Ton Specialty Cargo Van**: May be fueled solely by ethanol (E-85), unleaded gasoline, or a mixture of alcohol fuel and gasoline from the same tank.
- Full Size 1 Ton Cargo Van: General light hauling and utility work where cargo/payload does not exceed 3,600 lbs. Cargo/payload rides in same compartment as driver and passenger. Often used for building maintenance assignments where cargo/payload should not be transported in unprotected open bed pick-up trucks.

#### **HEAVY TRUCKS**

Trucks with a maximum rated capacity of over 2,500.

## Type Description

- 19 **Truck 1 Ton Dump Regular Cab:** General grounds and building maintenance such as hauling hand-loaded dirt, cinders, rock salt, and debris. 4 x 4 option available when necessary for off-road operation and medium-duty snowplowing.
- 19-1 **Truck 1-Ton Crew Cab & Chassis Dump:** Same as Type 19 except equipped with 6-man crew cab. Can be fitted with the following body types:
  - **Type 19-2** Stake Body with Hydraulic Tailgate
  - Type 19-3 Dump Stake Body
  - Type 19-4 Dump Stake Body with Hydraulic Tailgate
  - Type 19-5 12' Van Body with Hydraulic Lift Gate
- Truck Regular Cab and Chassis 16,000 lbs. Gross Vehicle Weight Rating (GVWR): Used for general hauling of materials loaded by hand or power shovel. Can be fitted with the following body types:
  - **Type 20-1** Stake Body
  - Type 20-2 Stake Body with Hydraulic Tailgate
  - Type 20-3 Dump Stake Body
  - Type 20-4 Dump Stake Body with Hydraulic Tailgate
  - Type 20-5 14' Van Body with Hydraulic Lift Gate
- Truck Regular Cab and Crew Cab Dump 36,000 lbs. GVWR: Required for general highway maintenance such as hauling crushed stone, heavy rock, dirt, cinders, rock salt, and debris; heavy-duty snow removal by pushing a 10' snow plow of approximately 1,500 to 2,000 lbs.
  - Type 21-2 Stake Body with Hydraulic Tailgate
  - **Type 21-3** Dump Stake Body
  - Type 21-4 Dump Stake Body with Hydraulic Tailgate
  - **Type 21-5** 14' Van Body with Hydraulic Lift Gate
- 22 **Truck Regular Cab Dump 21,000 lbs. GVWR:** For general hauling of materials loaded by hand or power shovel. Can be used with 9' maximum width snowplow.
- Police Motorcycle: Motorized vehicle for law enforcement agencies with arrest powers. Used for patrolling and other law enforcement activities.

- Aerial Bucket Truck: Used for the installation and maintenance of overhead power lines, parking lot light standards, road signs, tree trimming, or other assignments involving work at heights not normally accessible to workers using ordinary step ladders or other forms of portable scaffolding. The characteristics of the cab and chassis are determined by the boom and bucket requirements.
- Wrecker Truck: Used for the transport or towing of other motor vehicles or other mobile equipment (bulldozers, tractors, disabled vehicles, etc.) The characteristics of the cab and chassis are determined by the size and weight of the vehicle to be transported. Loaded by hand or power shovel. Can be used with 9' maximum width snowplow.
- Client Transport Bus: Used to transport groups of more than 15 people (patients, prisoners, etc.). The characteristics of the particular unit (e.g., seating capacity and arrangements, security screening, etc.) are determined by the mission to be accomplished.
- Sewer Vac Truck: Used by highway maintenance facilities to remove debris from roadside drainage systems. The characteristics of the cab and chassis are determined by the requirements of the vacuuming system.
- Road Sweeper Truck: Used by highway maintenance facilities to remove debris from roads and bridges. The characteristics of the cab and chassis are determined by the requirements of the sweeping system.
- 29 **De-icer Truck:** Used by airports to apply de-icing fluid to aircraft. The characteristics of the cab and chassis are determined by the requirements of the de-icing system.
- 30 **High Speed Multi-Purpose Snow Removal Trucks:** Used to remove snow from airport runways. The characteristics of the cab and chassis are determined by the requirements of the de-icing system.
- Mobile Command Truck: Used by State Law Enforcement units as a mobile command center and enables these units to direct operational activities from the field.
- Armored Personnel Vehicle: Used by State Law Enforcement units to perform critical response and rescue operations in a safe, secure, and highly mobile armored vehicle.

**BUS:** A bus that has a seating capacity of more than 15 passengers, including those with modified capacity to accommodate the mission of the program (e.g., wheelchair lifts).

**AIRCRAFT:** Airplanes and helicopters including those designed to alight on water, and the associated ground support equipment (e.g., tugs, tow bars, auxiliary power units, etc.)

**WATERCRAFT:** All types of boats regardless of power source (sail, inboard, outboard, paddles, oars, etc.), boat trailers or other equipment (except sedans, LTVs, or trucks) used to transport watercraft over land, and all types of outboard motors, including electric.

**RAIL VEHICLE:** Any vehicle designed to operate on the rail system to include engines, subway cars, passenger cars, and all types of railway cargo carriers or rolling stock.

MISCELLANEOUS/OTHER: Any vehicle not covered by one of the other categories, including motorcycles, all-terrain vehicles, snowmobiles, road graders, farm tractors, riding mowers, trailer mounted motor-generator sets and/or air compressors, portable office trailer, motor homes, cargo trailers, equipment haulers, back hoes, trenchers, and other motorized equipment whose primary purpose does not include transport of persons or personal effects.

## **B.7.2 STANDARD PURCHASE PRICES FOR VEHICLES – FY 2020**

| Type<br>No | Description  | Estimated Purchase Price |
|------------|--|--------------------------|
| 1          | Standard State Sedan, Gasoline                                 | \$16,600                 |
| 1-E        | Fully Electric Compact Sedan                                   | 26,300                   |
| 1-H        | Hybrid State Sedan   | 22,900                   |
| 1-M        | Standard Mid-Size Sedan  | 17,600                   |
| 1-PH       | Plug-In Hybrid Sedan   | 23,900                   |

## B.8 CONTRACTUAL SERVICES – OBJECT 08

### **Interagency Agreements**

All interagency agreements of \$25,000 or more must be reported in the Contract/Grant Supporting Detail (SD) module in BARS. Agencies must use <u>subobject 0885</u>, "In-State Services – Other," to budget expenditures related to interagency agreements. This subobject also may be used for agreements with local government entities.

#### Agreements Between a State Agency and a Public Institution of Higher Education

Section 28 of the FY 2019 Budget Bill requires State agencies and public institutions of higher education to report to DBM by August 1, 2018 on any interagency agreements in place in FY 2018 between them in which total expenditures exceeded \$100,000. Section 28 also requires agencies and institutions to receive approval from the Secretary of DBM before entering into any new higher education agreements in FY 2019 in which total expenditures may exceed \$500,000. Please note the General Assembly requests in Section 28 that agencies establish a goal of having five percent of interagency agreement expenditures be awarded to Historically Black Colleges and Universities.

For additional information, please refer to the reporting requirements on the DBM website, <a href="http://dbm.maryland.gov/proc-contracts/Pages/InteragencyAgreementReporting.aspx">http://dbm.maryland.gov/proc-contracts/Pages/InteragencyAgreementReporting.aspx</a>

#### 

Beginning in FY 2020, agencies supported by non-general funds will begin being billed for the operation and maintenance of the BARS budget system. These charges will be made for agencies using the Comptroller Subobject 0897. Funds relating to these charges will not be included in agencies' targets and will be addressed later in the year during the budget cycle.

#### **Contracts**

The Contract/Grant Supporting Detail (SD) tab is required for each program or subprogram with budgeted <u>contracts</u>. Agencies will be responsible for providing complete contract detail for each year for the Contract/Grant SD tab. Where contracts are funded in various subprograms or with multiple fund types, there should be an entry for each funding component for each contract. Agencies are responsible for creating their own convention for reporting purchase orders (POs) in situations where there are overarching multi-year contracts from a vendor/grantee as well as single fiscal year contracts from the same vendor/grantee.

- Each contract greater than \$25,000 must be listed separately.
- Contracts <u>less than</u> \$25,000 must be included on one line (not listed separately) for each subprogram, selecting "Miscellaneous" as the contract name.
- Agencies should provide a subtotal of actual, appropriation, and request amounts at the subobject level of detail for each subprogram.

The components of complex "lump sum" line-item requests should be detailed and justified, preferably using the comment field in BARS, with rates and units of service for all components. Line-item requests for simpler amounts may also be justified using the comment field in BARS.

The justification for each contractual service line-item should explain how the request for each line-item was determined. Examples may include:

- Planned actual cost of the next year of an approved multi-year contract,
- Three-year average of expenditures plus inflation,
- Current contract plus inflation, or
- Projected rate times units of service.

It is strongly recommended that agencies use subobject 0899 only if there is no other appropriate subobject. Be prepared to explain the detail behind any items included in 0899.

## B.9 SUPPLIES AND EQUIPMENT – OBJECTS 09, 10 and 11

## Supplies and Materials (Object 09)

Please refer to the Department of General Services website for statewide contracts for agency supplies at <a href="http://dgs.maryland.gov/Pages/Procurement/BidsAwards.aspx">http://dgs.maryland.gov/Pages/Procurement/BidsAwards.aspx</a>. For food and supplies for food preparation, select the "Food (Related)" category.

The justification for the agency's food requests should be presented using the comment fields in BARS. Generally, the justification reflects the number of people served, multiplied by number of meals per day, multiplied by the number of days. In addition, the cost of the meals should be justified.

## Equipment: Replacement and Additional (Object 10: Replacement; Object 11: Additional)

Requests for replacement and additional equipment should be itemized and justified using the comment field in BARS with a brief explanation. According to State law, agencies shall purchase equipment and furniture from Maryland Correctional Enterprises whenever possible, found at <a href="https://mce.md.gov/Products.aspx.">https://mce.md.gov/Products.aspx.</a>

Another alternative is to use statewide contracts for equipment. Please refer to the Department of General Services website for furniture and equipment. The category of note would be "Office Equipment and Furniture," at <a href="http://dgs.maryland.gov/Pages/Procurement/BidsAwards.aspx">http://dgs.maryland.gov/Pages/Procurement/BidsAwards.aspx</a>.

The Department of Information Technology has master contracts for computer equipment, found at <a href="http://doit.maryland.gov/contracts/Pages/HWMasterContractHomepage.aspx">http://doit.maryland.gov/contracts/Pages/HWMasterContractHomepage.aspx</a>. Also, see <a href="pages-4">pages-4</a> and 5 of this section for more information regarding computer equipment prices as well as information on the technical definitions of various Comptroller Objects.

## **B.9.1 LEASE PURCHASE PROGRAM FOR EQUIPMENT**

Agencies may use the Treasurer's lease financing program for significant equipment purchases, found at <a href="http://www.treasurer.state.md.us/debtmanagement/equipment-lease-purchase-financing.aspx">http://www.treasurer.state.md.us/debtmanagement/equipment-lease-purchase-financing.aspx</a>. For further information, go to <a href="http://www.treasurer.state.md.us/debtmanagement/capital-lease-financing.aspx">http://www.treasurer.state.md.us/debtmanagement/capital-lease-financing.aspx</a>.

The following Schedule of Charges for Equipment Financed through the Master Equipment Lease-Purchase Program lists the charges to agencies by fiscal year for equipment financed <u>as of May 21, 2018</u>. The schedule should be used to derive the amount to be budgeted in Comptroller Objects 1021, 1041, 1121 and 1141 (Capital Lease Payments to Treasurer).

If an agency's total budget request for these charges is different from the amount in the Schedule, please provide an explanation to the agency's OBA analyst, clearly identifying how the request is derived and why it differs from the Schedule.

Adjustments should be made to reflect the following, as needed:

• If an agency plans to finance the purchase of additional equipment, the amounts on the Schedule should be increased. Agencies may request a payment schedule for expected future equipment leases from their budget analyst. Payments can also be estimated as follows:

| If equipment is financed (vendor paid) | First semi-annual payment is on: | Amount of debt service during fiscal year is the administrative fee plus:  FY 2019  FY 2020 |   |  |
|--|----------------------------------|---|---|--|
| October 2018                           | January 1, 2019                  | One interest-<br>only payment   | Two full payments                               |  |
| December 2018 and/or<br>March 2019     | July 1, 2019                     | none  | One interest-only payment plus one full payment |  |
| June 2019 and/or<br>October 2019       | January 1, 2020                  | none  | One interest-only payment                       |  |
| After October 2019                     | July 1, 2020                     | none  | none  |  |

Please note the estimated total equipment cost and expected time of leasing for any additional equipment leases using a brief explanation in the comment field in BARS.

• If there are (or will be) prepayments, deduct amounts for the FY 2019 and/or FY 2020 lease payments that will have been satisfied as a result of the prepayments. Use the amortization schedule you received at the time of financing to calculate the deductions (for assistance in determining the effect of prepayments, contact Christian Lund, State Treasurer's Office, 410-260-7920).

State agencies should discuss potential equipment leases with the Treasurer's Office prior to purchasing equipment from a vendor. State agencies requesting funds in the FY 2020 budget for equipment lease purchases must wait until the General Assembly approves the funding before purchasing the item from the vendor. Questions should be directed to the DBM budget analyst.

# Schedule of Charges to Agencies for Equipment Financed Through the Master Equipment Lease-Purchase Program (includes administrative fee)

## All equipment financed through:

5/21/2018

|                  |   | Fiscal Year | Fiscal Year |
|------------------|---|-------------|-------------|
| Financial Agency |   | 2019        | 2020        |
| C80              | Office of the Public Defender                         | \$180,272   | \$292,204   |
| D38              | State Board of Elections                              | \$1,154,052 | \$1,164,916 |
| E20              | State Treasurer's Office                              | \$95,692    | \$95,589    |
| F50              | Department of Information Technology                  | \$11,786    | \$0         |
| K00              | Department of Natural Resources                       | \$209,031   | \$142,904   |
| M00              | Maryland Department of Health                         | \$562,239   | \$525,302   |
| Q00              | Department of Public Safety and Correctional Services | \$933,276   | \$209,690   |
| R13              | Morgan State University                               | \$145,404   | \$145,119   |
| R14              | St. Mary's College of Maryland                        | \$49,637    | \$70,215    |
| R15              | Maryland Public Television                            | \$645,505   | \$555,906   |
| S00              | Department of Housing and Community Development       | \$77,855    | \$0         |
| U00              | Department of the Environment                         | \$223,267   | \$166,643   |
|                  |   | \$4,288,016 | \$3,368,488 |

### **B.9.2 INFORMATION TECHNOLOGY BUDGETING AND PRICES**

The table below delineates the proper R\*STARS Comptroller Objects to use when budgeting transactions related to information technology.

| Transaction                       | Mainframe    | Computers      | Imaging      | Peripherals |  |
|-----------------------------------|--------------|----------------|--------------|-------------|--|
| Hardware Maintenance              | 0854         |                |              |             |  |
| Software License                  | 0858         |                |              |             |  |
| Application Software Acquisition  | 0841         | 0841 0930 0861 |              |             |  |
| Application Software Maintenance  | 0862         |                |              |             |  |
| System Software Acquisition       | 0841         | 0932           | 0863         |             |  |
| System Software Maintenance       | 0864         |                |              |             |  |
| Software Upgrades                 | 0841         | 0933           | 0862 or 0864 |             |  |
| Hardware Out-Sourcing (non-State) | 0869         |                |              |             |  |
| Hardware Purchase Replacement     | 1031         | 1033           | 1035         | 1036        |  |
| Hardware Purchase Additional      | 1131         | 1133           | 1135         | 1136        |  |
| Capital Lease Replacement         | 1041 or 1042 |                |              |             |  |
| Capital Lease Additional          | 1141 or 1142 |                |              |             |  |

### **Information Technology Definitions**

- **Mainframes** are computers used mainly by large organizations for critical bulk processing of information (financial transaction processing, statistics, etc.)
- Computers (including "mini," "micro," and "workstation") are most often taken to mean a computer with a microprocessor as its central processing unit (CPU). Another general characteristic of these computers is that they occupy small physical spaces. Computers are also personal computers, workstations and laptops.
- **Imaging** is the processing, storage, compression and printing of data. Imaging can refer to pictures or documents.
- Peripherals are devices connected to a host computer, but not part of a computer's
  architecture. They are typically dependent upon the host computer. Examples include
  keyboards, mice, printers, scanners, microphones, speakers, webcams and external storage
  devices.

# **Schedule of Equipment Prices**

Standard Desktop - OptiPlex 3050 Small Form Factor XCTO

Processor - Intel® Core™ i5-6500 (QC/6MB/4T/3.2GHz/65W), 8GB 1x8GB 2400MHz DDR4 Memory, 2.5 inch 128GB SATA Class 20 Solid State Drive, 8x DVD+/-RW 9.5mm Optical Disk Drive, 100/1000 Ethernet, Adapter, 24" Monitor \$851

Standard Laptop/Notebook – Latitude 5580 (will be retired June 30th)

Processor – Intel Core i5-6200U Processor (Dual Core, 2.3 GHz, 3M cache), 8.0 GB, DDR4-2400 MHz SDRAM, 1x8 GB, M.2 128 GB SATA Class 20 Solid State Drive, No Optical Drive, Integrated Wireless, 100/1000 Ethernet Adapter, 15" Screen (1366 x 768 pixels) \$1,389

Standard Laptop/Notebook – Latitude 5590

Processor – Intel® Core i5-8250U (Quad Core, 6M Cache, 1.6GHz), 8.0 GB, DDR4-2400 MHz SDRAM, 1x8 GB, M.2 128 GB SATA Class 20 Solid State Drive, No Optical Drive, Integrated Wireless, 100/1000 Ethernet Adapter, 15" Screen (1366 x 768 pixels) \$1,542

Ink Jet Color Printer for Field Staff (with built-in battery) - Epson WorkForce WF-100 Wireless Mobile Printer

6.7 ISO ppm (B&W) and 3.8 ISO ppm (Color) fade and water resistant prints \$222

Network Laser Color Printer (Multi Function Device) Leased

30 ppm, Print, Scan and Copy, 100/1000 Ethernet Adapter, 120,000 page duty cycle

\$200/mo

Small Office Network Laser Printer (Multi Function Printer) Xerox WorkCentre 6515/DNI 30 ppm, 600 dpi/1200 dpi, Duplex/Tray Ethernet, 100/1000 Ethernet Adapter \$442

# B.10 GRANTS, SUBSIDIES, CONTRIBUTIONS – OBJECT 12

Each agency is required to provide detail on funds granted by the agency to other entities. Each grant of at least \$25,000 must be listed in the Contract/Grant Supporting Detail (SD) section of the BARS budget adjustment. Agencies will be responsible for providing complete detail for each year using the Contract/Grant SD tab.

For each grant, provide the FY 2018 actual award (as reflected in FY 2018 expenditure data), FY 2019 estimated award (as reflected in the FY 2019 appropriation), and any FY 2020 funding requested for the same grantee. If grants will be awarded on a competitive basis and the expected grantee is unknown at this time, please list "TBA" in the column for Name and Location of Grantee or Vendor. If a grantee receives multiple awards for different services or purposes, please list each award separately by subprogram.

# **B.11** FIXED CHARGES – OBJECT 13 (REAL PROPERTY LEASES)

# Non-DGS Rent (1301)

Subobject 1301 must be used for private lease agreements in which rental payments are <u>not</u> paid to the Department of General Services (DGS). Agencies should budget for the entire rental amount in accordance with the terms negotiated by DGS. Agencies are encouraged to schedule a review of private lease agreements with the DGS Lease Management Division prior to submitting the FY 2020 budget proposal to assure that the lease data is still valid. For further information, contact:

Robert Suit
Chief, DGS Division of Lease Management and Procurement
Room 601, 300 W. Preston Street
Baltimore, MD 21201
410-767-1819
robert.suit@maryland.gov

**NOTE:** Garage space rental must appear as subobject <u>0705</u> unless the entire garage or parking lot is being leased or such spaces are included in the building lease.

# **Insurance Premiums**

The following subobjects must be used for budgeting insurance premiums. Specific questions regarding premiums should be directed to the State Treasurer's Office (STO) at 410-260-7684.

# Insurance Coverage Paid to STO (1302)

Insurance payments paid to the STO. See page 10 of this section for a schedule of charges for each agency.

# Insurance (Non-STO Payments) (1309)

Insurance coverage payments <u>not</u> paid to the STO.

# Rent Paid to DGS (1303)

Subobject 1303 is restricted and must be used for rental payments made to DGS. <u>The lease schedules (Sections B.11.1 – B.11.4)</u> should be used to budget for the three components that comprise this subobject as follows:

- Section B.11.1 lists the total DGS rent charges that should be budgeted in subobject 1303 by agency.
- 1. Rental Payments to DGS for State-Owned Property: Agencies funded only with General Funds and occupying space in buildings operated by DGS do not pay rent and should not budget for rent for this purpose. Agencies <u>funded with any portion of Special or Federal Funds</u> that occupy space in buildings operated by DGS are required to pay rent to DGS based on the percentage of space occupied by special or federal fund positions. Agencies paying rent to DGS should budget the entire amount in subobject 1303. Agencies with legislative space will be billed at the full reimbursement rate regardless of whether the agency utilizes general funds or other agency funds. See <u>Section B.11.2</u> State-owned Property Lease Schedule for FY 2020 charges.

Please contact your DBM budget analyst by August 3, 2018 if there are any projected changes to your square footage needs. DBM will make any needed adjustments in the FY 2020 Governor's Allowance.

- 2. <u>Lease Oversight Charges</u>: Charges are based on the number of leases and square footage per agency administered by the DGS Lease Management Division. Agencies should budget for lease oversight charges in accordance with the schedule in <u>Section B.11.3</u>. DBM will make appropriate adjustments in the FY 2020 Governor's Allowance.
- 3. <u>Reimbursable Leases:</u> The reimbursable lease schedule covers debt service and operating costs of buildings owned by local jurisdictions that the State will acquire once bond obligations have been satisfied. Agencies should budget for reimbursable leases in accordance with the lease schedule in <u>Section B.11.4</u>.

# ✓ Schedule of Real Property Leases

A schedule of real estate leases is to be completed using the Real Estate Leases Supporting Detail (SD) module in BARS, which replaces the prior DA-24 form. This detail must be provided with the FY 2020 budget submission for each subprogram in which funding for rent is budgeted. All information must be entered separately for each lease, existing and proposed. Where leases are funded in various subprograms, make an entry for each funding component. The information entered into BARS in the real property lease tab will populate the expenditure tab for subobjects 1301 and/or 1303. Use the comment field in the expenditure tab to describe any pertinent information not captured on the schedule of real property leases in BARS. Consult with the assigned DBM budget analyst if you have questions or need assistance.

# **B.11.1 TOTAL DGS RENT CHARGES (SUBOBJECT 1303)**

| Agency Code | State-Owned     | Lease Oversight                         | Reimburs. Lease Mgmt | Grand Total  |

# B.12 LAND AND STRUCTURES – OBJECT 14 (OPERATING MAINTENANCE)

# **Operating Maintenance**

Operating maintenance expenditures should be budgeted under the appropriate subobjects as follows:

# Object 08 – Contractual Services

Building/ Road Repairs and Maintenance (0812)

# Object 14 – Land and Structures

- Roof Repair/ Replacement (1440)
- Building Interiors (1442)
- Heating (1444)
- Security Alarm Systems (1446)
- Ground Maintenance (1448)
- Easement Acquisitions (1481)

- Building Exteriors (1441)
- Water (1443)
- Power Lines (1445)
- Road Repair Services (1447)
- Sheds, Gas & Oil Storage Tanks (1449)
- Other Land and Structures (1499)

Note: subobject <u>1498</u> is reserved for statewide operating maintenance projects that are administered by the Department of General Services (DGS).

# **Agency Maintenance**

An agency's ongoing, preventive maintenance should be reported and requested in the agency's budget submission under the appropriate subobject code. Higher education institutions should include <u>all</u> facility-related projects in their budget requests since these projects and funds are not administered by DGS.

### **DGS** Administered Maintenance

Operating maintenance projects administered with DGS funding should not be included in an agency's budget request submission. Additionally, the budget submission should exclude any funding for general-funded capital projects.

All agency operating maintenance needs should be coordinated directly with DGS prior to the submission. All new or additional operating maintenance projects to be considered for funding should be sent directly to DGS at the address below. Your assigned DBM budget analyst should be made aware of any submissions. DGS will send packets out to agencies for project justifications in November, at which time agencies are required to review all of their previously submitted projects.

If you have any questions, please contact:

Courtney League Chief, Facilities Engineering Department of General Services 301 W. Preston Street, Room 1405 Baltimore, MD 21201 410-767-5516 Courtney.League@maryland.gov

# **B.13 PAYGO CAPITAL PROJECTS**

PAYGO capital appropriations fund projects that are paid for with General, Special and Federal Funds as part of an agency's operating budget. Make sure that PAYGO operating submissions match your capital budget submission to the DBM Office of Capital Budgeting. Do **NOT** allocate General Obligation Bond funding in the FY 2020 operating budget request. Funding for PAYGO projects should not be budgeted in operating programs. It should be budgeted in the applicable PAYGO (capital) program within your agency.

# **Subprogram Reporting**

When multiple **PAYGO** capital projects are budgeted in the same eight-digit **non-transportation** program, each project is to be budgeted in a separate subprogram, including projects that may be added in the FY 2020 allowance. If a project spans more than one reporting year, the same subprogram should be used across all years for comparison purposes.

Agencies should work with their budget analyst to identify subprograms for **new PAYGO** capital **projects** to be added in FY 2020. One example of a designated PAYGO program having more than one capital project, each budgeted in its own subprogram, is D55P00.04, Department of Veterans Affairs, Cemetery Program/Capital Appropriation. This program was broken down into five separate subprograms, each representing different cemetery projects at separate locations.

The following programs have had more than one project in prior year budgets, and meet the stated reporting protocol:

| <u>Department</u>                               | <u>Programs</u>                               |
|---|---|
| Maryland Energy Administration                  | D13A13.02, D13A13.03                          |
| Department of Planning                          | D40W01.11                                     |
| Military Department                             | D50H01.04                                     |
| Department of Veterans Affairs                  | D55P00.04                                     |
| Department of Natural Resources                 | K00A05.10, K00A14.01                          |
| Department of Agriculture                       | L00A11.11, L00A12.13                          |
| Department of Housing and Community Development | S00A24.02, S00A25.07,<br>S00A25.08, S00A25.09 |
| Department of the Environment                   | U00A01.03, U00A01.05, U00A01.11, U00A01.12    |

If you need additional guidance, contact your DBM analyst or Kurt Stolzenbach at 410-260-7416.

The table that follows contains a list of the R\*STARS Comptroller Objects to be used in the preparation of the FY 2020 budget.

# AGENCIES MUST USE R\*STARS SUBOBJECTS IN ALL COMPUTERIZED AND HARD COPY DETAIL SUBMITTED TO ITEMIZE OR JUSTIFY THE BUDGET UNLESS PERMISSION HAS BEEN OBTAINED TO USE AGENCY OBJECTS.

If agency object codes are used in the budget, agencies should be sure to update the conversion tables that show the corresponding Comptroller Object. Submit these conversion tables to Kim Grandy as soon as possible. An informational copy should also be sent to your assigned DBM budget analyst.
