Welcome to CVS Caremark

CVS Caremark, the Pharmacy Benefit Manager (PBM), manages your prescription drug benefit under a contract with the State of Maryland. CVS Caremark maintains a preferred drug list, manages a network of retail pharmacies and operates Mail Service and Specialty Drug pharmacies. In consultation with the plan, CVS Caremark also provides services to promote the appropriate use of pharmacy benefits, such as review for possible excessive use, recognized and recommended dosage regimens, drug interactions and other safety measures. Employees and dependents covered by the State of Maryland prescription drug benefit can use either retail pharmacies or the CVS Caremark Mail Service Pharmacy.

For additional plan information, please refer to the Evidence of Coverage document located on the DBM Health Benefits Prescription Drug Coverage webpage or visit https://info.caremark.com/stateofmaryland.

Understanding your benefits

Covered medications

Your coverage under CVS Caremark is based on a list of covered medications known as a formulary. Your formulary offers a wide selection of clinically sound, cost-effective generic and brand-name prescription medications. Prescription medications must be necessary and not experimental in order to be covered under the plan. Covered medications will be limited based on medical necessity, quantity and/or age limits established by the plan or utilization management guidelines. For more information or to check drug coverage, please visit https://info.caremark.com/stateofmaryland.

Your cost for prescriptions

The amount you pay for your covered medications—also known as your copayment*—will depend on two factors:

• Whether your prescription is filled as a generic, a brand-name or specialty medication

• Where your prescription is filled (at a participating local pharmacy, at an out-of-network** local pharmacy or through the CVS Caremark Mail Service Pharmacy)
Affordable Care Act

Your health plan offers certain preventive service benefits at no cost to you, which means you don't have to pay a copay. These no-cost benefits are part of the Affordable Care Act (ACA) and include:

- Medicine and supplements to prevent certain health conditions for adults, women and children
- Medicine and products for quitting smoking or chewing tobacco (tobacco cessation)
- Medicine used prior to screenings for certain health conditions in adults
- Contraceptives for women

CVS Caremark® works with your health plan to provide these benefits. For additional details, refer to “ACA Preventive Services List” link on https://info.caremark.com/stateofmaryland.
CVS Specialty lets you stay in control and on track with flexible medication pick-up or delivery service. Flexible medication pick-up or delivery to 9,000 CVS Pharmacy locations nationwide or have it delivered to obtain a new prescription from your doctor for one of the first-line alternatives, or have your doctor request checking that you are taking your medication as prescribed. CVS Specialty provides 24/7 support from an entire CareTeam of specially-trained pharmacists and nurses. 24/7 personalized care. You may also request that CVS Specialty contact your doctor for you, then call you to arrange for delivery of to use of a first-line alternative.

Getting started: To get started, call a CVS Specialty representative at

- COX-2 Inhibitors (Celebrex®)
- Angiotensin Converting Enzyme Inhibitors (ACEIs) lisinopril, lisinopril/HCTZ, enalapril, enalapril/HCTZ
- PPIs omeprazole
- Inhaled Corticosteroids budesonide
- Selective Serotonin Reuptake Inhibitors (SSRIs) fluoxetine, paroxetine, sertraline, citalopram

**State of Maryland Zero Copayment For Generics Program**

Copayments reduced to $0 for the following generic drug classes (local and mail service pharmacies)

<table>
<thead>
<tr>
<th>Drug Class</th>
<th>Generic Drug Examples</th>
</tr>
</thead>
<tbody>
<tr>
<td>HMG CoA Reductase Inhibitors (Statins)</td>
<td>simvastatin, pravastatin</td>
</tr>
<tr>
<td>Angiotensin Converting Enzyme Inhibitors (ACEIs)</td>
<td>lisinopril, lisinopril/HCTZ, enalapril, enalapril/HCTZ</td>
</tr>
<tr>
<td>PPIs</td>
<td>omeprazole</td>
</tr>
<tr>
<td>Inhaled Corticosteroids</td>
<td>budesonide</td>
</tr>
<tr>
<td>Selective Serotonin Reuptake Inhibitors (SSRIs)</td>
<td>fluoxetine, paroxetine, sertraline, citalopram</td>
</tr>
</tbody>
</table>

**Generics preferred program (automatic generic substitution)**

If you want to lower your out-of-pocket costs, ask your doctor whether a generic medication is available and right for you. With a generic medication, you get the same high-quality, effective treatment that you get with its brand-name counterpart—without the high cost. FDA-approved generic equivalent medications contain the same active ingredients and are subject to the same rigid standards established by the FDA for quality, strength and purity, as their brand-name counterparts. To help manage the cost of prescription benefits, the plan includes an automatic generic substitution feature.

How does the “generics preferred program” work? When your doctor prescribes a brand-name medication and a generic substitute is available, you will automatically receive the generic unless:

- Your doctor writes “dispense as written” (DAW) on the prescription; or
- You request the brand-name medication at the time you fill your prescription

If you choose generic medications, you get high-quality, effective medication at the lowest cost. Your copayment for the generic medication will be less than the copayment for the brand-name medication.

If a generic is available, but you or your doctor request the brand-name medication, you will pay the brand copayment PLUS the full difference in cost between the brand-name medication and the generic equivalent.

**For example: 30-day supply of medication**

<p>| | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Brand-name medication cost</strong></td>
<td>$120</td>
</tr>
<tr>
<td><strong>Generic medication cost</strong></td>
<td>$50</td>
</tr>
<tr>
<td><strong>Difference (ancillary fee)</strong></td>
<td>$70</td>
</tr>
<tr>
<td><strong>Copayment</strong></td>
<td>$40</td>
</tr>
<tr>
<td><strong>Total cost</strong></td>
<td>$110</td>
</tr>
</tbody>
</table>

If you chose the generic medication, you would pay $10

Please note: if your doctor requests you take the brand-name medication due to medical necessity, please call CVS Customer Care at 1-844-460-8767 and request the Brand Exception Process.
Specialty Guideline Management

Your plan has guidelines in place to ensure the appropriate use of select classes of specialty medications. Many specialty medications are biotech drugs that are expensive or have limited access, complicated treatment regimens, compliance issues, special storage requirements and/or manufacturer reporting requirements. If your doctor prescribes one of the specialty medications listed on the next page, it will be automatically reviewed for any additional requirements (such as step therapy, prior authorization, and quantity or dosage limits). The medications listed below are examples of those that will be limited to a maximum 30-day supply per prescription fill. This list may change over time as new prescription medications become available.

For those medications limited to a 30-day supply, you will pay one-third of the 90-day copayment up to 30 days’ worth of medication.

### Examples of Medications in Specialty Drug Management

<table>
<thead>
<tr>
<th>Auto-Immune Diseases (eg. Rheumatoid Arthritis, Psoriasis &amp; Inflammatory Bowel Disease)</th>
<th>Cosentyx, Enbrel, Humira, Kevzara, Otezla, Stelara</th>
</tr>
</thead>
<tbody>
<tr>
<td>Osteoarthritis</td>
<td>Gel-One, Gelsyn-3, Supartz FX, Visco-3</td>
</tr>
<tr>
<td>Multiple Sclerosis</td>
<td>Glatiramer, Betaseron, Copaxone, Rebif, Acthar HP, Tysabri, Gilenya, Aubagio, Tecfidera</td>
</tr>
<tr>
<td>Blood Disorder</td>
<td>Arixtra, Fragmin, Innohep, Lovenox, Nplate, Procrit, Leukine, Neulasta, Zarxio, Neumega, Proleukin, anti-hemophilic agents</td>
</tr>
<tr>
<td>Hepatitis C</td>
<td>Epclusa, Harvoni, Vosevi, Alferon N, Ribavirin</td>
</tr>
<tr>
<td>Osteoporosis</td>
<td>Forteo, Reclast</td>
</tr>
<tr>
<td>Growth Hormones</td>
<td>Humatrope, Norditropin</td>
</tr>
<tr>
<td>High Cholesterol</td>
<td>Repatha</td>
</tr>
</tbody>
</table>

*This list is not comprehensive and is subject to change without notice to accommodate new prescription medications and to reflect the most current medical literature*

### Excluded

- Anorectics (any drug used for the purpose of weight loss)
- Pregnancy Termination Drugs (e.g., RU486, Mifeprax)
- Aerochamber, Aerochamber with Mask and Nebulizer Masks and all other medical supplies
- Over-the-counter products with the exception of insulin, diabetic monitoring products and those covered under the Affordable Care Act
- Bulk Compounding Ingredients, kits, high cost bases
- Medications used for cosmetic purposes only such as hair growth stimulants
- Experimental/Investigative Drugs
- Homeopathic Products
- Worker’s Compensation Claims
- Unapproved Products
How to use your plan

Filling your prescriptions

There are several ways to fill your prescriptions depending on your needs:

For medications taken for a short time

For medications you take for a short time, such as antibiotics for strep throat or pain relievers for an injury, filling your prescription at a participating local pharmacy is optimal. Simply present your CVS Caremark member ID card to your pharmacist and pay the copayment as shown in the appropriate charts.

For medications you take regularly

For prescription medications you take regularly to treat ongoing conditions (such as medications used to treat high-blood pressure or diabetes), you may fill a 90-day supply for convenience. See below for how to get started with the CVS Caremark Mail Service Pharmacy. You may also fill your 90-day supply at a participating local pharmacy.

For medications taken for complex conditions (specialty medications)

For specialty medications used to treat complex conditions, such as medications that treat cancer or multiple sclerosis, CVS Specialty can help. While CVS Specialty isn’t a neighborhood pharmacy you can walk into, we can have your specialty medications available for pickup at any local CVS Pharmacy®, including those inside Target stores. Or you can have your medications delivered to your home, office or location of your choice. Visit CVSspecialty.com to get started. You may also get your specialty medications at any in-network pharmacy that carries it (i.e., you are not limited to only CVS Specialty for specialty medications).

Please note: You must use 75% of your medication before requesting a refill (controlled substance refill threshold is 80%).

Using an out-of-network pharmacy

Most pharmacy chains such as Walmart, Walgreen’s and Giant, as well as independent pharmacies are in network. However, if you use a pharmacy that’s not covered in the network, you must pay the entire cost of the medication and then submit a claim for reimbursement. Claim forms are located online at https://info.caremark.com/stateofmaryland and can also be requested by calling CVS Caremark Customer Care at 1-844-460-8767. Claims must be submitted within 365 days of the prescription purchase date. You will be reimbursed for the amount the plan would have paid if you had obtained your medication at a participating local pharmacy, minus the appropriate copayment.
CVS Caremark Mail Service
Filling your prescriptions through the CVS Caremark Mail Service Pharmacy offers the most convenient way to get your medications. Your medications are delivered safely and conveniently to your home.

When you use the CVS Caremark Mail Service Pharmacy, you can count on:
- Up to a 90-day supply of your medications for two copayments
- No-cost standard shipping in a plain, weather-resistant package
- Flexible payment options and, (if you elect), automatic refills
- Refill orders placed at your convenience, by telephone or online
- Access to a registered pharmacist any time, day or night

Getting started with mail service
You can begin using the CVS Caremark Mail Service Pharmacy for home delivery of your medications using one of the following options:

**Online**
Register online at [https://info.caremark.com/stateofmaryland](https://info.caremark.com/stateofmaryland) to begin managing your prescriptions online. You can also download the CVS Caremark app to get started with mail service today.

**By mail**
Ask your doctor to provide you with a written prescription for your medications. Sign in to caremark.com to download and print a mail service form. Mail the prescription(s) along with a completed order form to the address below:

CVS Caremark
P.O. Box 94467
Palatine, IL 60094

*Please note:* to avoid delays in filling your prescription, be sure to include payment with your order. Please do not send correspondence to this address.

**By fax or electronic submission from your doctor**
Your doctor’s office can fax or electronically send the prescription for a 90-day supply, plus the appropriate number of refills (maximum one-year supply). Your doctor’s office will have the appropriate fax number.

Important notes:
- Faxes must be sent from your doctor’s office. Faxes from other locations, such as your home or workplace, cannot be accepted.
- For new prescriptions, please allow approximately one week from the day CVS Caremark Mail Service receives your request.
- You must use 75% of your medication before you can request a refill through mail service (80% of your medication for controlled substances).
CVS Specialty®

CVS Specialty is a full-service pharmacy that provides your choice of home delivery service or delivery to your local CVS Pharmacy for specialty medications. These medications are used to treat a number of complex conditions, such as cancer and multiple sclerosis. CVS Specialty does more than provide your medication, we help you stay on track so you can stay healthy longer. We do this by providing the support you need to ensure you take them safely and effectively.

Getting started
To get started, call a CVS Specialty representative at 1-800-237-2767 or register online at CVSspecialty.com. You may also request that CVS Specialty contact your doctor for you, then call you to arrange for delivery of your medication on a day that is convenient for you. You may refill specialty medications one month at a time (maximum 30-day supply per copayment).

24/7 personalized care
CVS Specialty provides 24/7 support from an entire CareTeam of specially-trained pharmacists and nurses. Your CareTeam can help you manage your condition by: checking dosing and medication schedules; answering your medication questions; helping you manage side effects; helping you set up new medication regimens; and checking that you are taking your medication as prescribed.

Flexible medication pick-up or delivery
CVS Specialty lets you stay in control and on track with flexible medication pick-up or delivery service. You can pick up your medication at any of the 9,900 CVS Pharmacy locations nationwide or have it delivered to your home or work—the choice is yours.+

Convenient online prescription management
Register for a secure, online specialty prescription profile and make managing your medication even easier with these online tools.

- **Fast refill requests**: Most specialty medications and supplies can be filled at the same time with the one-click “Refill All” tool.
- **Up-to-date prescription information**: View your prescription history, remaining refills, your costs, last fill date and more.
- **Medication pick-up or delivery options**: Request your refills be sent directly to the location of your choice or pick them up at your local CVS Pharmacy.
- **Secure prescription information storage**: Keep all your specialty prescription information in one, secure place. Save your favorite CVS Pharmacy location or address for faster ordering and checkout.

+Where allowed by law. Based on the availability of CVS Pharmacy locations and subject to applicable laws and regulations. Services are also available at Long’s Drugs locations. Products are dispensed by CVS Specialty pharmacy and certain services are only accessed by calling CVS Specialty pharmacy directly. Certain specialty medication may not qualify. In compliance with state laws, in-store pick up is currently not available in Oklahoma.
A new approach to diabetes management

Transform Diabetes Care is a health benefit that combines advanced blood glucose testing technology with coaching to support chronic health conditions like diabetes. It is available at no cost to you as part of your CVS Caremark prescription benefit plan.

What’s included at $0 cost to you:
- A connected glucose meter
- As many blood glucose test strips as you need
- Lancing device, lancets, and carrying case
- Personalized insights with each reading
- Access to Certified Diabetes Educators
- Face-to-face clinical counseling for diabetes and meter enrollment at CVS
- Actionable health messaging on prescription bag tags
- Two annual MinuteClinic comprehensive evaluations for each eligible member
- And more

Look for more information about this new program by visiting https://info.caremark.com/stateofmaryland.
*Please note this program is not effective until January 1, 2020.

Utilization management programs

To promote safety along with appropriate and cost-effective use of prescription medications, the plan includes several utilization management programs. For a more comprehensive list of utilization management edits, visit https://info.caremark.com/stateofmaryland

Step therapy

Step therapy is a process for finding the best treatment while ensuring you are receiving the most appropriate medication therapy and reducing prescription costs. Medications are grouped into two categories:

- **First-line medications**: These are the medications recommended for you to take first—usually generics, which have been proven safe and effective. You pay the lowest copayment for these.
- **Second-line medications**: These are brand-name medications. They are recommended for you only if a first-line medication does not work. You may pay more for brand-name medications.

These steps follow the most current and appropriate medication therapy recommendations. CVS Caremark will review your records for step therapy medications when you go to the pharmacy to fill a prescription. If your prescription is for a step therapy medication, the pharmacy will search your prescription records for use of a first-line alternative.

If prior use of a first-line medication is not found, the second-line medication will not be covered. You will need to obtain a new prescription from your doctor for one of the first-line alternatives, or have your doctor request a prior authorization for coverage of the second-line medication. For more information on step therapy, visit https://info.caremark.com/stateofmaryland or call CVS Caremark Customer Care at 1-844-460-8767.
**Prior authorization**

Prescriptions for certain medications require a Prior Authorization—also known as a coverage review—to ensure the medication is cost-effective and clinically appropriate. This review uses formulary, clinical guidelines and other criteria to determine if the plan will pay for certain medications. At the time you fill a prescription, the pharmacist is informed of the Prior Authorization requirement through the pharmacy’s computer system and your doctor will need to contact CVS Caremark’s Prior Authorization department to provide justification for CVS Caremark’s consideration of why you should be on the prescribed medication.

The following are examples that may require prior authorization for your prescription:

- Your doctor prescribes a medication not covered by the formulary
- The medication prescribed is subject to age limits
- The medication is only covered for certain conditions

If the Prior Authorization is denied, written notification is sent to both you and your provider. You have the right to appeal the denial through the appeals process. The written notification of denial you receive provides instructions for filing an appeal. For more information on prior authorization, visit https://info.caremark.com/stateofmaryland or call CVS Caremark Customer Care at 1-844-460-8767.

**Quantity limits**

For some medications, such as medications used to treat sleep disorders, your plan covers a limited quantity within a specific time period. These limits are based on FDA-approved prescribing information, approved medical guidelines and/or the average utilization quantity for the drugs. Some medications with quantity limits have a prior authorization available if a greater quantity is medically necessary. For more information on quantity limits, visit https://info.caremark.com/stateofmaryland or call CVS Caremark Customer Care at 1-844-460-8767.

**Appeals**

If a prior authorization is denied, you or your representative may appeal the decision by proceeding with the Appeal procedure listed on the denial letter.

If you require an urgent review, call CVS Caremark Customer Care at 1-844-460-8767 for instructions. Please note that not all appeal requests are eligible for the urgent review process. Urgent appeals will be decided within 72 hours. If you choose to fill this prescription without prior authorization approval, you will be responsible for the full cost of the medication. You have a right to receive, upon written request and at no charge, information used to review your request. Appeals must be submitted within 180 calendar days after you receive the notice of a denial of a prior authorization.

For more information regarding Appeals, refer to the “Evidence of Coverage” document located on the DBM Health Benefits Prescription Drug Coverage page (https://dbm.maryland.gov/benefits/Pages/CVS-Caremark.aspx).
Claims inquiry
If you believe your claim was incorrectly denied or you have questions about a processed claim, call CVS Caremark Customer Care at 1-844-460-8767.

Vacation overrides
If you are going on vacation and need an additional supply of your medication, contact CVS Caremark Customer Care at 1-844-460-8767 for assistance.

Privacy
Your State of Maryland Benefit Plan meets the provisions of the Health Insurance Portability and Accountability Act of 1996 (HIPAA) to assure your health information is properly protected. CVS Health is committed to meeting both the HIPAA and State of Maryland guidelines related to protecting your privacy.
Where allowed by law. In-store pick up is currently not available in Oklahoma. Puerto Rico requires first-fill prescriptions to be transmitted directly to the dispensing specialty pharmacy. Products are dispensed by CVS Specialty and certain services are only accessed by calling CVS Specialty directly. Certain specialty medication may not qualify. Services are also available at Long’s Drugs locations.

Copayment, copay or coinsurance means the amount a member is required to pay for a prescription in accordance with a Plan, which may be a deductible, a percentage of the prescription price, a fixed amount or other charge, with the balance, if any, paid by a Plan.
