## COMMENTARY

The Department of Budget and Management annually updates this ten-year summary of all State-owned and non-State owned capital improvement projects and programs that are authorized by the General Assembly, except for those of the Department of Transportation.

The capital improvements listed in this document are financed by five principal types of funding:

- 1) Maryland Consolidated Capital Bond Loan, which the Maryland General Assembly enacts to authorize the sale of bonds to finance improvements to a specific facility owned by a local government or nonprofit organization.
- 2) General Funds, which are used to finance projects which are not suited by nature or law to bond funding. When State revenues suffice, General Funds are also used to increase the scope and funding of the Capital Improvement Program. Appropriations of General Funds for capital projects are included in the State Budget Bill.
- 3) Special Funds, which are generated by activities of certain units of State government. Projects funded from this source are identified in appropriation language in the State Budget Bill.
- 4) Federal Funds, which are also appropriated for specific projects in the State Budget Bill.
- 5) Revenue Bonds, which are issued by State higher education institutions and the Maryland Stadium Authority.

Abbreviations used in this document for these fund sources are as follows:

A.F.B.A.	Academic Facilities Bonding Authority (Revenue Bonds of the University System of Maryland)
B.B.	Bond Bills, also known as Legislative Initiatives
F.F.	Federal Funds
G.F.	General Funds
M.C.C.B.L.	Maryland Consolidated Capital Bond Loan
Q.Z.A.B.	Qualified Zone Academy Bonds
R.B.	Revenue Bonds of the Maryland Stadium Authority
S.F.	Special Funds

The years shown in this document are calendar years, not fiscal years.

Chapter numbers for legislation authorizing funds for the capital projects described in this document can be found in the Historical Summary if the legislation was used to fund multiple projects, and following the description of the legislation if it was used to fund a specific project.

Unless otherwise noted, projects printed in italics indicate that appropriations have been cancelled or permitted to lapse. In either situation, the State Funds were not used for the project.

<b>M.C.C.B.L.</b>	<b>2002</b>	Provide funds for projects to remove nutrients at publicly-owned sewage treatment works, provided that \$1,000,000 of this authorization may only be expended as follows: the Maryland Department of the Environment shall conduct three types of wastewater system studies as recommended by the Governor's Task Force on Upgrading Sewerage Systems. First, the Department shall contract with the Maryland Environmental Service to conduct a comprehensive inflow and infiltration data study on every wastewater treatment system with an average wastewater discharge of under 12 million gallons per day. The study shall involve a statewide analysis using readily accessible existing data and shall determine whether there is an inflow and infiltration problem and, if so, determine the magnitude of the problem. Second, the Department shall contract with the Maryland Environmental Service to conduct between three and six comprehensive in-depth inflow and infiltration studies at selected wastewater treatment systems around the State that are representative of the inflow and infiltration problems around the State. Third, the Department shall contract with a qualified third party to conduct a utility rate study for each locality with a wastewater treatment system in Maryland with an average wastewater discharge of under 12 million gallons per day. This study will compare the local jurisdiction's utility rate to that necessary to financially support the jurisdiction's current wastewater treatment program, while ensuring that adequate funding is set aside by the local jurisdiction for a local capital improvement program;	17,832,000
