COMMENTARY

The Department of Budget and Management annually updates this 25 year summary of all State-owned and non-State owned capital improvement projects and programs that are authorized by the General Assembly, except for those of the Department of Transportation.

The capital improvements listed in this document are financed by five principal types of funding:

- 1) Maryland Consolidated Capital Bond Loan, which the Maryland General Assembly enacts to authorize the sale of bonds to finance improvements to a specific facility owned by a local government or nonprofit organization.
- 2) General Funds, which are used to finance projects which are not suited by nature or law to bond funding. When State revenues suffice, General Funds are also used to increase the scope and funding of the Capital Improvement Program. Appropriations of General Funds for capital projects are included in the State Budget Bill.
- 3) Special Funds, which are generated by activities of certain units of State government. Projects funded from this source are identified in appropriation language in the State Budget Bill.
- 4) Federal Funds, which are also appropriated for specific projects in the State Budget Bill.
- 5) Revenue Bonds, which are issued by certain State agencies, such as State higher education institutions, the Maryland Department of the Environment, and the Maryland Stadium Authority.

Abbreviations used in this document for these fund sources are as follows:

GO	General Obligation Bonds
GF	General Funds
SF	Special Funds
FF	Federal Funds
RB	Revenue Bonds

The years shown in this document are calendar years, not fiscal years.

General Obligation Bonds are authorized by legislative bills such as the Maryland Consolidated Capital Bond Loan, Prior Authorizations of State Debt - Alterations, Qualified Zone Academy Bonds, and Bond Bills (also known as Legislative Initiatives). Revenue Bonds are authorized by legislative bills such as the Maryland Budget Bill, Built to Learn Act, and Academic Facilities Bonding Authority (Revenue Bonds of the University System of Maryland).

Chapter numbers for legislation authorizing funds for the capital projects described in this document can be found in the Historical Summary if the legislation was used to fund multiple projects, and following the description of the legislation if it was used to fund a specific project.

Programs marked with an asterisk (*) in Part II: Historical Detail have projects listed out in Part III: Projects by Program Detail. In Part III, within each program, projects are sorted alphabetically first by county and then by project name.

The State makes grants and loans to non-State entities such as local governments and non-profit organizations for capital improvements for the benefit of Maryland residents and visitors. Projects that were allocated grant and/or loan funding as well as programs that are considered Grant and Loan programs are marked with an obelisk (†).

Historical funding amounts and older data may be prone to errors or inconsistencies. Records with blank agencies have been listed under "Agency Unassigned." Miscellaneous Grant Programs projects with blank programs have been listed under "Program Unassigned." The grand total amounts displayed in the reports in Part I: Historical Summary may not match each other or the grant total amounts in the Part II: Historical Detail and Part III: Projects by Program Detail. The sum of authorizations for a list of projects within a program (Part III) may not equal the sum of the authorizations for that program (Part II). Reasons for this include, but are not limited to, programmatic funds not being allocated to projects within the year they are allocated to the program, reserve funding accounts, and utilization of funding for fees and other costs not directly related to any one particular project.

The General Assembly is concerned that the Office for Individuals with Disabilities (OID) continues to experience problems securing the cooperation of the various agencies and departments in their efforts to assure that Access Maryland projects are initiated and completed in a timely manner. OID is requested to develop additional policies and procedures to both streamline the process and set a time limit on the use of awarding funding. A report should be submitted to the budget committees by October 1, 2000 regarding the new policies and procedures as well as the progress made in improving the process.	1,600,000

			GF	Provide funds for projects to remove nutrients at publicly-owned sewage treatment works.	3,750,000
NOTE: \$1,250,000 in funding transferred to the State General Fund in 2002.					
		2002	GO	Provide funds for projects to remove nutrients at publicly-owned sewage treatment works provided that \$1,000,000 of this authorization may only be expended as follows: the Maryland Department of the Environment shall conduct three types of wastewater system studies as recommended by the Governor's Task Force on Upgrading Sewerage Systems. First the Department shall contract with the Maryland Environmental Service to conduct a comprehensive inflow and infiltration data study on every wastewater treatment system with an average wastewater discharge of under 12 million gallons per day. The study shall involve a statewide analysis using readily accessible existing data and shall determine whether there is an inflow and infiltration problem and if so determine the magnitude of the problem. Second the Department shall contract with the Maryland Environmental Service to conduct between three and six comprehensive in-depth inflow and infiltration studies at selected wastewater treatment systems around the State that are representative of the inflow and infiltration problems around the State. Third the Department shall contract with a qualified third party to conduct a utility rate study for each locality with a wastewater treatment system in Maryland with an average wastewater discharge of under 12 million gallons per day. This study will compare the local jurisdiction's utility rate to that necessary to financially support the jurisdiction's current wastewater treatment program while ensuring that adequate funding is set aside by the local jurisdiction for a local capital improvement program;.	17,832,000

		2012	GO	Provide funds to construct public school buildings and public school capital improvements in accordance with Sections 5-301 through 5-303 of the Education Article provided that \$25,000,000 of this appropriation shall be used to fund projects that improve the energy efficiency of schools including improvements to HVAC systems lighting mechanical systems windows and doors and any other type of improvement that is specifically designed to improve the energy efficiency of a school building per standards to be developed by the Interagency Committee (IAC) in collaboration with the Maryland Energy Administration. Priority will be given to projects that maximize leverage such as projects that only fund the incremental cost of energy efficiency improvements as opposed to the full costs of the energy project. The funds may also be used to install renewable energy systems in schools provided that \$25,000,000 of this appropriation is restricted and may not be expended until the IAC submits a report to the budget committees detailing the standards that will be used to allocate funds among projects that improve the energy efficiency of schools. The budget committees shall have 45 days from the receipt of the report to review and comment. Further provided that any school construction funds allocated to an eligible project in a county that are not spent for the project may within two years at the county's option be: (1) applied to another eligible project in the current fiscal year; or (2) reverted to the contingency fund and reserved for eligible projects in the county in the next fiscal year which shall be in addition to new funds allocated for eligible projects in the county in the next fiscal year. Further provided that any school construction funds reserved for a county in the contingency fund that are not encumbered within two years shall become available to be allocated to an eligible project in any county. NOTE: The projects funded by the Public School Construction Program in 2012 are listed individually by county in Part III. 	2010	GO	New Youth Detention Facility. Provide funds to construct a New Youth Detention Facility provided that notwithstanding Section 6 of this Act, work may commence on this project prior to appropriations of all the funds necessary to complete this project. Further provided that no funds may be expended for construction until the Department of Public Safety and Correctional Services submits a report to the budget committees providing the findings of a new population analysis and identifying the number of beds to be provided in the New Youth Detention Facility. The budget committees shall have 45 days from the receipt of the report to review and comment. Further provided that no funds may be expended until the Department submits a report to the Budget Committees that evaluates the option of renovating the currently vacant Baltimore pre-release unit for women in order to accommodate the youth-charged-as-adult population. The report should evaluate the current housing programming medical recreation and education space and identify any necessary changes. The report should also include a preliminary cost estimate and timeline for renovation if it is determined to be a feasible option. The report shall be submitted to the budget committees no later than July 30, 2012 and the budget committees shall have 45 days from the receipt of the report to review and comment. NOTE: The 2010 General Assembly pre-authorized \$38,000,000 in the FY 2012 budget and \$25,600,000 in the FY 2013 budget to construct this facility. The 2011 General Assembly reduced the FY 2012 pre-authorization from \$38,000,000 to \$0 since the project was not ready to proceed. The 2011 General Assembly also increased the FY 2013 pre-authorization from \$25,600,000 to \$41,100,000 and pre-authorized \$21,700,000 in FY 2014. In addition the 2011 General Assembly restricted the use of these funds until a new population analysis has been submitted. The 2012 General Assembly reduced the FY 13 authorization from \$41,100,000 to \$0 since the project was not ready to proceed due to the reevaluation of the project's scope. Further amended by Chapter 444, Acts of 2012 to reduce the authorization from \$17,520,000 to \$597,000 and to restrict the use of funds until a space analysis cost estimate and schedule have been submitted to the General Assembly. Further amended by Chapter 424, Acts of 2013 to reduce the authorization from \$597,000 to 0.	0
