White Book: Historical Capital Funding Authorized by the General Assembly

The White Book provides a history of capital funding authorized by the General Assembly, starting with funds authorized in 1999. Each authorization funds a capital project or a capital program. A definition of each is below:

- **Capital Project:** A capital improvement to a physical asset.
- **Capital Program:** A means for distributing State capital funds among a number of capital projects that share common characteristics, particularly as to function and or purpose.

Authorizations in the White Book are shown by authorization year. This contrasts most budget documents produced by the Department of Budget and Management, which typically use **fiscal year**. The authorization year is the calendar year in which the General Assembly authorizes the funds for use in the subsequent fiscal year. As such, the authorization year is generally one year behind the fiscal year. Example: the capital budget passed in the 2026 legislative session (authorization year 2026) authorizes funds for fiscal year (FY) 2027.

Appropriation Year	Fiscal Year	Appropriation Year	Fiscal Year
1999	FY 2000	2013	FY 2014
2000	FY 2001	2014	FY 2015
2001	FY 2002	2015	FY 2016
2002	FY 2003	2016	FY 2017
2003	FY 2004	2017	FY 2018
2004	FY 2005	2018	FY 2019
2005	FY 2006	2019	FY 2020
2006	FY 2007	2020	FY 2021
2007	FY 2008	2021	FY 2022
2008	FY 2009	2022	FY 2023
2009	FY 2010	2023	FY 2024
2010	FY 2011	2024	FY 2025
2011	FY 2012	2025	FY 2026
2012	FY 2013	2026	FY 2027

State funding is primarily authorized in the following bills:

Bill Name	Type of Funds Authorized
Maryland Consolidated Capital Bond Loan	GO bonds
Budget Bill	General Funds, Special Funds, Federal Funds
Academic Facilities Bonding Authority	Revenue bonds of the University System of Maryland
Built to Learn Act	Revenue bonds
Prior Authorizations of State Debt - Alterations	No new debt issued. This bill modifies the MCCBL appropriations and can realign funding to new projects without impacting total funding authorized.

Common abbreviations used throughout the White Book for State fund sources are shown below:

GO: General Obligation Bonds
GF: General Funds
SF: Special Funds

FF: Federal Funds
RB: Revenue Bonds

Organization of the White Book

The White Book contains 3 sections, which are not mutually exclusive. Below is a brief overview of the content provided in each section. Each section also includes a foreword that provides additional explanation on the contents of the section and how to navigate it.

Part I: Historical Summary

The Part I: Historical Summary section of the White Book consists of subsections that detail Maryland's state debt, authorizations, and project funding over several decades. This section includes:

- **Prior Authorizations - Total by Fund Source:** Total authorizations by fund source and fiscal year.
- **Funds Deauthorized by the General Assembly:** Total reductions to or cancellation of debt that was previously authorized by the General Assembly, by legislative session year in which the funds were deauthorized.
- **Prior Authorizations of State Debt - Alterations Bills:** Bills enacted by the General Assembly to modify prior authorizations outside of the Maryland Consolidated Capital Bond Loan with no net impact to total prior authorizations (listed chronologically by legislative session year).
- **Prior Authorizations Summary by County:** A geographic summary of funding received (organized alphabetically by county).

Part II: Historical Detail Commentary

The Part II: Historical Detail section of the White Book is a comprehensive historical ledger of capital project authorizations organized by governing State agency or department, by project or program, and by authorization year. It includes a total for each individual project/program and a grand total for the entire agency/department.

Part III: Projects by Program Detail Commentary

The Part III: Projects by Program Detail section of the White Book is organized as a detailed project-level ledger that disaggregates program funding shown in the Part II section into individual local projects, where project-level data is available. It is organized by agency/department, then by program, and lastly by project. Because some projects receive funding through multiple agencies and/or programs, authorizations for the same project may be located on various pages throughout the White Book.

Part III: Projects by Program Detail Commentary

The Part III: Projects by Program Detail section of the White Book is organized as a detailed project-level ledger that disaggregates program funding in the Part II into individual local projects, where project-level data is available. Therefore, funding in the Part III is not mutually exclusive from program funding in the Part II. The document is arranged by:

1. **Agency/Department:** The primary classification (e.g., Department of Aging, Department of the Environment).
2. **Program:** The specific program administered by the agency (e.g., Senior Citizen Activities Centers Capital Improvement Grants Program, Bay Restoration Fund Wastewater Program, Maryland Drinking Water Revolving Loan Fund).
3. **Project Name and Location:** Individual projects listed under each program, with the specific county or jurisdiction denoted in parentheses at the end of the project title (e.g., Cumberland Senior Center (Allegany County), Middle Branch Resiliency Initiative Project (Baltimore City)). The projects are sorted alphabetically first by county and then by project name.
4. **Line-Item Authorization:**
 - a. **Auth. Year:** The calendar year in which the funds were authorized. This is the year preceding the fiscal year for which the funds were authorized. For example, FY 2027 funds were authorized in 2026.
 - b. **Fund:** The source of funds: GO (general obligation bonds), GF (general funds), SF (special funds), FF (federal funds), and RB (revenue bonds). GO bond amounts may include bond premium revenue.
 - c. **Description:** Details regarding the scope of work or specific grant conditions.
 - d. **Auth. Amount:** The specific dollar amount authorized for that project.

To navigate the Part III:

If you are seeking funding history for a specific project, the easiest way to navigate the White Book is to conduct a word search (i.e. Ctrl + F) using a search term that is applicable to the project you are searching for. This will enable you to identify all funding for a specific project. Some projects may be funded under multiple agencies and through multiple programs, or through both programs and project allocations.

If you are familiar with the agencies and programs under which a project has received funding:

- **Identify the Agency or Department:** Determine which State agencies or institutions fund the project of interest. In some cases, a project may receive funding through multiple agencies.
- **Identify the Program:** Identify the program under which you will find the specific project name. As a reminder, projects are ordered by county then project name.
- **Track Multi-Year Authorizations:** Check each fiscal year row to see how funding was phased over time. For projects spanning multiple years, the Project Total line represents total funding for the project within the program.

If a project was funded under multiple agencies and/or programs, you must manually add up all authorizations to see total project funding.
