

State Treasurer's Office

MISSION

The State Treasurer is responsible for the management and protection of State funds and property. In this capacity, the Treasurer selects and manages the depository facilities for State funds, issues or authorizes agents to issue payments of State funds, invests excess funds, safelocks all State securities and investments, and provides insurance protection against sudden and unanticipated damage to State property or liability of State employees. The State Treasurer plans, prepares, and advertises State of Maryland General Obligation bond issues, and through the Capital Debt Affordability Committee reviews the size and condition of State tax-supported debt and other debt of State units on a continuing basis. The State Treasurer annually reviews the total amount of State debt that prudently may be authorized for the next fiscal year.

VISION

To make Maryland a state that maximizes its personnel and technology as complementary resources to efficiently and effectively manage cash and investments, minimize potential risks and unexpected losses, and manage debt in order to confidently plan for the future and maintain the State's AAA bond rating.

KEY GOALS, OBJECTIVES, AND PERFORMANCE MEASURES

Goal 1. Accurately reconcile all Treasury State bank accounts.

State Treasurer's Office

E20B01.01 Treasury Management - Treasury Management

Program Description

The Treasury Management Program includes the administrative and operating functions for two principal operating divisions: Treasury Management and Information Technology. The Treasury Management Division oversees all areas related to banking services and investment functions. With respect to banking services, the Division reconciles the State's principal depository and disbursement accounts as well as the income tax and payroll disbursement accounts. The Division resolves errors and claims associated with these accounts. Proper reconciliation assures that all receipt and disbursement transactions are authorized and processed appropriately. The Division also ensures adequate collateralization of State funds on deposit and monitors agencies' working fund accounts to ensure that interest remitted to the State is credited to the General Fund. The Division serves as the banking and financial transaction resource for all banking requirements of State agencies. With respect to investment functions, the Division focuses on the short-term investment of State funds, and oversees securities lending operations. The Division determines the disbursement requirements to be funded on a daily basis, and monitors balance levels at the State's main depository and disbursement banks. The Division ensures that portfolio tracking software and cash flow management techniques are utilized to maintain adequate control of all funds. The Information Technology Division provides the data processing and technology infrastructure needed to operate the State Treasurer's Office. This includes the operation of all internal network and mainframe applications, as well as links to external systems. The Division also provides check printing and electronic payment services for all vendor payments, State Retirement Agency payments to retirees, printing of child support checks, and the processing of all payroll direct deposits.
