### Q00G00.01 General Administration - Police and Correctional Training Commissions

#### Program Description

The Police and Correctional Training Commissions (PCTC) provide staffing and administrative services to two separate and distinct Commissions. The Police Training Commission prescribes minimum police selection and training standards for entrance, in-service, and advanced levels for all police officers serving the state, county, and municipal agencies in Maryland. The Correctional Training Commission prescribes minimum selection and training standards for community supervision, juvenile justice, and correctional personnel serving in state and county agencies. Both commissions train police and correctional officers for the state, county, and municipal agencies. All state, county, and municipal police and correctional officers are certified by PCTC to ensure that they meet the agency's specified standards. PCTC also provides firearms safety, crime prevention, and drug resistance education programs to Maryland businesses, schools, and citizens and has been given a supporting role in the statewide study of race-based traffic stops. PCTC also operates the Public Safety Education and Training Center, provides specialized training resources and curricula to State and local public safety officers.

### R00A01.23 Division of Rehabilitation Services-Disability Determination Services - State Department of Education - Headquarters

#### Program Description

This division is a Federal program administered by the State of Maryland. The Social Security Amendments of 1972 provide cash payments to qualified beneficiaries who are totally and permanently disabled and unable to engage in substantial gainful employment. The amendments also provide for welfare recipients who are blind or permanently and totally disabled to be paid by the Social Security Administration. The initial determination of the existence or non-existence of disability for the Social Security or Supplemental Security Income applicant is done by this division. Recommendations are made to the Social Security Administration which makes the final determination of eligibility for benefits and notifies applicants.

### R00A02.01 State Share of Foundation Program - Aid To Education

#### Program Description

This program is the major State aid program for primary and secondary education, providing a foundation grant that estimates the amount of funding necessary to provide adequate resources to educate the average student. Over time the program has grown to include additional grants for various purposes, including (1) accounting for differences in the costs of providing educational resources among school systems, (2) ensuring that each school system received at least one percent annual increases in State aid in fiscal year 2009 and 2010, (3) changing the calculation of the net taxable income component of wealth in the education aid funding formula, (4) cushioning jurisdictions from formula aid reductions that result from declining enrollment, and (5) grants that account for the impact that tax increment financing districts have upon jurisdictional wealth. Starting in FY 2023, these grant programs have been consolidated under the new Blueprint for Maryland's Future formulas, leaving (1) the foundation program and (2) grants accounting for differences in the costs of providing educational resources among school systems.

### R00A02.05 Formula Programs for Specific Populations - Aid To Education

#### Program Description

This program provides funding for the basic support of specific student populations. The Out-of-County Placements Program supports situations in which students have been placed by a court, State agency, or licensed child care placement agency in school systems other than counties where parents reside. The counties in which the parents reside are required to reimburse the school systems where the students are placed, and the State pays the difference if local cost is greater in the school system providing education. The Schools Near the Boundaries of Two Counties Program provides funding through the same formula for students enrolled in a different county from where they reside because of their closer proximity to a school in another district.

### R00A02.07 Students With Disabilities - Aid To Education

#### Program Description

Maryland law requires the identification, diagnosis, examination, and education of all students with disabilities, ages three through twenty, who are in need of special education services. Education Article Section 5-225 mandates the formula funding level by the State. Section 8-406 requires the State and local educational agencies to fund nonpublic special education programs for students with disabilities for whom neither the State nor local agencies can provide an appropriate program. Section 8-416 establishes funding levels for the Maryland Infants and Toddlers Program, which provides a statewide, community-based interagency system of comprehensive early intervention services to eligible infants and toddlers, from birth until the beginning of the school year following a child's 4th birthday, and their families. The Autism Waiver Program provides services to children with autism spectrum disorder in the most appropriate and least restrictive environment. The Waiver maximizes the use of Medical Assistance funding to cover the cost of providing services to this population. Related federal funding is provided in the budget of the Maryland Department of Health.

### R00A02.63 Education Effort Adjustment - Aid To Education

#### Program Description

Though the Blueprint for Maryland's Future (CH 36 of 2021) maintains the requirement that local governments fund the local share of the foundation program and establishes required local shares for several existing and new funding formula programs, the bill also includes a mechanism for establishing a maximum local share that a county must fund each year. This involves "local education effort," which is determined for each county by dividing the county's local share of major education aid by the county's wealth. An "education effort index," which is the local education effort divided by the "State average education effort" is then determined. A "maximum local share" is calculated for each county, which is the county's local wealth multiplied by the State average education effort. Each county with an education effort above 1.0 for two consecutive years receives relief based upon its "education effort adjustment," which is the amount by which that calculated local share exceeds the maximum local share. This relief (which results in increases to State aid) is provided to counties within one of three tiers, based on whether the education effort is (1) greater than 1.0 but less than 1.15; (2) at least 1.15 but less than 1.27; or (3) at least 1.27. State relief for the first tier is phased up from 10% of the education effort adjustment in fiscal 2022 to 50% by fiscal 2030. State relief for the second tier is phased up from 20% of the education effort adjustment in fiscal 2022 to 100% by fiscal 2030. State relief for the third tier is 100% beginning in fiscal 2022. However, the education adjustment for a county is only allowed to the degree that per pupil MOE is met each year.

### R00A03.01 Maryland School for the Blind - Funding for Educational Organizations

#### Program Description

The Maryland School for the Blind (MSB) educates students whose needs cannot be met in their respective 24 local school systems through community-based outreach and comprehensive on-campus programs on a day or residential basis. The school serves students from birth to age 21 who are blind or visually impaired, including some with multiple disabilities. Each student has a mandated Individualized Education Plan (IEP) tailored to his or her needs. MSB's program includes general education subjects and in addition, special instruction in the disability-specific areas of the Expanded Core Curriculum that includes braille, orientation and mobility, career education and independent living skills. Exit goals for students, depending on their abilities, are to earn either a high school diploma or a certificate of attendance at graduation or, prior to graduation, return to their local school systems with increased skill levels essential for successful reintegration and academic achievement.

### R00A03.02 Blind Industries and Services of Maryland - Funding for Educational Organizations

#### Program Description

Blind Industries and Services of Maryland (BISM) was established in 1908 to provide training and employment opportunities to blind Marylanders. BISM provides training in the skills of blindness via two training programs. The Comprehensive Orientation, Rehabilitation, and Empowerment (CORE) program serves blind or low vision adults who are the age of employability. CORE is a comprehensive program that teaches alternative techniques of blindness, builds confidences, and incorporates a positive philosophy of blindness. It prepares graduates for the next stage of life whether employment, continuing education, and/or achieving independent living goals. The Senior programs serve blind or low vision citizens who are age 55 and over. The programs are less intensive but teach the same skills of Braille, cane travel, independent living, computer technology, and arts and crafts. Seniors gain skills necessary to stay in their own homes, live independently, and continue to be active in family and community.

### S00A22.01 Maryland Housing Fund - Division of Credit Assurance

#### Program Description

The Maryland Housing Fund (MHF) was created in 1971 as a unique mortgage insurance program. MHF maintains existing primary and pool insurance for residential mortgages financed with revenue bond proceeds issued by the Community Development Administration (CDA), as well as primary insurance for certain permanent loans by public and private lenders. In 2002 the Department reopened a limited multi-family program of MHF, insuring mortgage loans known as "SHOP" (Special Housing Opportunity Program). The SHOP loans finance or refinance the acquisition, construction, or rehabilitation of shared living and related facilities for the special needs population, which are owned and sponsored by nonprofit organizations. The Department continues expanding its MHF insurance program to authorize insurance on a case by case basis, financed by bonds, with Credit Enhancement under the U.S. Department of Housing and Urban Development (HUD) Risk Sharing Program. In 2007 the Department opened a limited single-family program for 35 percent loss coverage on 30 year loans, and the newest loans offer "loss of job protection" for the borrower. On January 1, 2011 MHF entered into a limited Reinsurance Program for loans that CDA had originated between 2005 and 2010 which had only 35 percent mortgage insurance coverage.

## T50T01.07 Enterprise Investment Fund - Capital

### Program Description

This program originally reflected disbursements from the Enterprise Investment Fund, also known as the Maryland Venture Fund (MVF). The MVF was developed to make equity investments in early-stage enterprises located in the State or willing to move to the State. MVF activities are provided through the InvestMaryland and Enterprise Investment Fund. Investments may be in the form of equity, convertible debt or limited partnership interests, and venture capital investments. While MVF funds were fully depleted in FY2020, current appropriations reflect deployment of federal State Small Business Credit Initiative (SSBCI) dollars through the American Rescue Plan Act (ARPA) which is expected to be deployed through FY 2030. The grant program provides support for small businesses recovering from the pandemic via funding for capital access support, including venture capital, loan participation, loan guarantee, collateral support, and capital access programs.

### U00A04.01 Water and Science Administration - Water and Science Administration

#### Program Description

The Water and Science Administration (WSA) provides an integrated approach to the State's water programs. The administration staffs the Governor's Chesapeake Bay Cabinet and coordinates State activities under the Chesapeake Bay Total Maximum Daily Load (TMDL) and Chesapeake Bay Watershed Implementation Plan. As the implementing agency for the federal Clean Water Act and Safe Drinking Water Act, the administration sets water quality standards and identifies surface water impairments and high quality waters. WSA ensures that the drinking water systems in Maryland provide safe and adequate supplies of potable water. The administration regulates the following: water supply systems and wastewater treatment facilities and industries; tidal, nontidal and waterway construction activities, including dredge and fill operations; and municipal stormwater systems. The administration oversees local stormwater management programs and reviews and approves sediment/erosion control and stormwater plans for State and federal capital projects. WSA implements the Clean Water Act 401 Water Quality Certification Program, and performs consistency reviews under the Coastal Zone Management Act. The administration coordinates the National Flood Insurance Program and floodplain mapping functions in coordination with the Federal Emergency Management Agency. WSA administers the US FDA shellfish-growing water certifications, including support of Maryland's emerging aquaculture industry; performs algal bloom and fish-kill investigations; administers the Federal BEACH Act program; and issues fish consumption health guidelines. The WSA administers the Well Drillers, Waterworks and Waste Systems Operators, and the Marine Contractors Licensing Boards.

### U00A06.01 Land and Materials Administration - Land and Materials Administration

#### Program Description

The Land and Materials Administration ensures that all hazardous wastes and non-hazardous solid wastes are managed to protect public health and the environment. It issues permits and conducts inspections pertaining to design, construction, and operation of solid waste management systems and facilities; natural wood waste and scrap tire recycling facilities; sewage sludge utilization sites; hazardous waste treatment, storage, and disposal facilities; petroleum storage facilities; installation and operation of above-ground and underground petroleum storage facilities; transportation and delivery of petroleum; and transportation of hazardous wastes. It provides regulatory oversight of mining and reclamation of lands and waters impacted by mining; and permitting and inspection oversight of animal feeding operations to reduce nutrient pollution. The program tracks and identifies generators and transporters of hazardous and special medical waste, encourages waste minimization and pollution prevention, oversees remediation of contamination at federal facilities, and monitors low-level radioactive waste management. It undertakes action when hazardous substances are released, and addresses sites that do not qualify for the Federal Superfund Program and those that pose a significant threat to public health or the environment. It oversees cleanup of commercial and industrial properties under the Voluntary Cleanup/Brownfields initiative and provides oversight of certain remedial activities at sites listed on the National Priorities List. The program manages the State's lead poisoning prevention and lead paint abatement services accreditation programs, investigates lead poisoning cases, maintains lead poisoning registries, tracks the incidence of lead poisoning, conducts paint surveys of residential buildings, and educates healthcare providers and the public. It coordinates lead poisoning prevention efforts of MDH and DHCD, and coordinates enforcement activities with Baltimore City. The program provides technical assistance and guidance to local governments, businesses, industry, and the general public.

### U00A07.01 Air and Radiation Administration - Air and Radiation Administration

#### Program Description

The Air and Radiation Administration ensures that air quality and radiation levels in Maryland sustain public health, safety, and the environment. It operates an air-monitoring network to obtain up-to-the minute data on air quality, develops plans to attain and maintain health-based national ambient air quality standards, and promulgates regulations to implement these plans. The program works with other states to ensure that transport of air pollution is minimized, issues construction and operating permits for air pollution sources to ensure compliance with air quality standards and to control emissions of toxic air pollutants, conducts site inspections to determine compliance with regulatory and permitting requirements, takes enforcement actions as appropriate, and investigates citizens' complaints. In addition, the Administration is implementing significant programmatic initiatives relating to climate change.

### X00A00.01 Redemption and Interest on State Bonds - Redemption and Interest on State Bonds

#### Program Description

Debt service payments on the State's general obligation bonds are paid from the Annuity Bond Fund. The revenue sources for the Fund include the State property tax, premium from bond sales, and repayments from certain State agencies, subdivisions, and private organizations. General funds may be appropriated directly to the Annuity Bond Fund to make up the difference between the debt service payments and funds available from property taxes and other sources. Federal funds from interest subsidies for certain bonds may also be appropriated directly to the Fund. Prior to FY 2004, general funds for the debt service on bonds sold for public school construction were funded in the Maryland State Department of Education and transferred to this program as reimbursable funds.

### Y01A01.01 Revenue Stabilization Account - Revenue Stabilization Account

#### Program Description

The Revenue Stabilization Account, also known as the Rainy Day Fund, was established to retain revenue for future needs and reduce the need for future tax increases by moderating revenue growth. Appropriations are required when the unappropriated general fund surplus of the second preceding fiscal year exceeds \$10 million. Appropriations are also required in years when the account balance is less than 7.5% of general fund revenue as stated in the annual report of the Board of Revenue Estimates submitted to the Governor. If the account balance is at least 3% but less than 7.5% of general fund revenue, an appropriation is required of \$50 million or whatever lesser amount is necessary to bring the balance to 7.5% of estimated general fund revenue. If the account balance is less than 3% of general fund revenue, the required appropriation is \$100 million. To transfer funds from the account requires specific authorization by an Act of the General Assembly or specific authorization in the budget bill if the transfer results in a balance that is a least 5% of projected general fund revenue. To transfer an amount that would reduce the account balance below 5% requires the transfer to be authorized in an Act of the General Assembly other than the budget bill.
