

KEYS COMMUNITY HEALING VILLAGE

Mujahid Muhammad, President & CEO

KEYS Development, thanks the state of Maryland, for the \$1 million support toward our Community Healing Village. This project includes acquisition, planning, construction, demolition and capital equipping. Baltimore City residents are in dire need of mental and emotional health services. To date, KEYS has served over 500 students and families in west Baltimore's, Matthew A. Henson Elementary, ConneXions, and Bard High Schools, and with this support, will serve another 1000 students and families in the first year. The new facility will be adding STEM programs, coding, and community gardens for access to fresh herbs and vegetables. This village will be an inclusive space for all to finally feel a sense of safety.

We See Mental Health Services Differently

KEYS Community Healing Village will feature:

- Nightly family-style dinners | because great food leads to groundbreaking conversations
- Fitness Programs | because movement is medicine
- Job Prep & Training | because finding your passion is everything
- Mental Health Services | because a healthy state of mind matters

The village will also include computer labs, large recreation room, full cafeteria, gym, and playground.

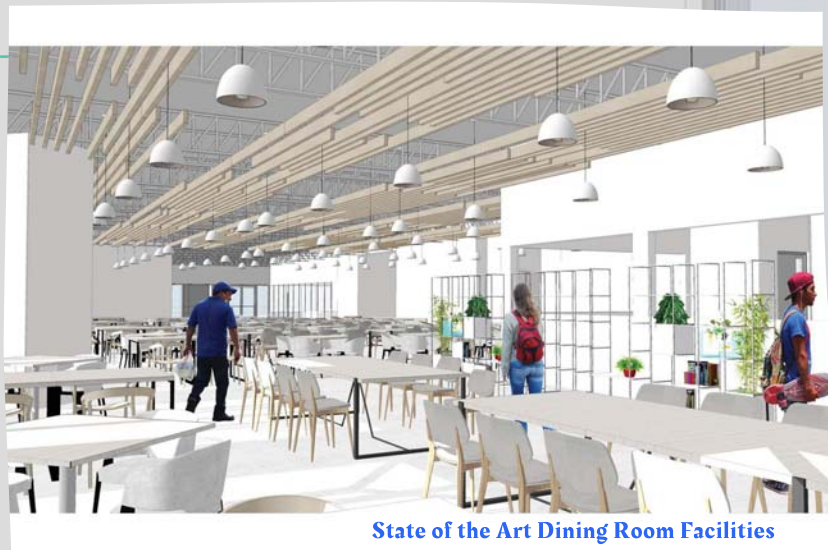

KEYS understands that healthy minds, lead to healthy youth that see themselves as leaders, business owners, and ultimately change agents who will usher in a new age of industry in this city, and state.
