Vendor Advisory: eMaryland Marketplace eProcurement Solution RFP #DGSR8400113

The State of Maryland plans to revise and reissue the associated contract for this solicitation, which is found in its existing form as RFP Attachment M, for the eMaryland Marketplace eProcurement Solution RFP #DGSR8400113. The intent of this effort is to produce a contract that is specifically tailored for software-as-a-service. It will necessarily require extending the current deadline for submission of proposals (see concurrently issued Amendment 6), but the State believes an extension is merited given the potentially long-term contract resulting from this RFP.

Please also note that the Q&A period will be extended upon issuance of the reworked contract and associated amendment to allow vendors sufficient time to review and clarify the changes before submitting proposals. Responses to outstanding questions will be held until that time.
