**2. DEPARTMENT OF AGRICULTURE  
*Maryland Agricultural Cost-Share Program- Additional Funding***

**Recommendation:** That the Board of Public Works approve granting additional general obligation bond proceeds to six grantees under the Maryland Agricultural Cost-Share Program.

**Amount:** \$16,967.86

**Fund Source:** MCCBL 2018: *Provide funds for assistance for the implementation of best management practices that reduce soil and nutrient runoff from Maryland farms.* Item 18274

County	Recipient	Agreement #	Amount
Baltimore	Harry L. Morfoot	RS-2022-2226	\$2,709.92
Frederick	Glenn F. Stunkel, Jr	MP-2022-2193	\$3,220.15
Kent	Dorothy Schnoor Joiner	CH-2020-2591	\$962.00
Kent	Dorothy Schnoor Joiner	CH-2020-2592	\$131.40
Kent	Roy W. Crow	SA-2022-2111	\$4,535.56
Talbot	Preserve at Wye Mills Property	CH-2022-2042-P	\$5,408.83

**Authority:** "Cost-Sharing-Water Pollution Control," §§ 8-701 to 8-705, Agriculture Article, Annotated Code of Maryland; COMAR 15.01.05

**Remarks:** The Maryland Department of Agriculture has determined that each of these projects is eligible for cost-share funds. Each project has received technical certification from the appropriate Soil Conservation District Office. The farmer has signed the cost-share agreement and accepts the grant conditions.

Additional funds are requested for these projects to offset additional costs realized at the completion of the project. These additional costs are a result of design changes required based on site conditions encountered during construction, design changes to improve project effectiveness, or because the level of co-cost share funding originally anticipated was not available when the project was completed.

3. **BOARD OF PUBLIC WORKS**  
*Acquisitions of Real Property With Appraised Value of At Least \$500,000*  
*BPW Advisory 2022-1*

**Recommendation:** That the Board issue BPW Advisory 2022-1 “*Acquisitions of Real Property With Appraised Value of At Least \$500,000*” providing administrative guidance to agencies on complying with certain statutory requirements.

**Authority:** Section 10-305, State Finance and Procurement Article, Annotated Code of Maryland

**Background:** Chapter 23 Acts of Maryland 2021 amended SFP §10-305 to add new subsection (c) regarding certain acquisitions of real property. This amendment became effective March 14, 2021. While various agencies have independent statutory authority to acquire real property, it is often subject to approval by the Board of Public Works. With numerous exceptions, subsection (c) requires certain steps to occur before the Board may approve such acquisitions, including certain notices to the Legislative Policy Committee, the Committee’s ability to request certain additional information, and timeframes for the Committee to respond.

**Proposal:** The proposed advisory establishes a process for acquisitions subject to the requirements of SFP § 10-305(c). The process is broadly similar to that for dispositions under SFP § 10-305(b). Specifically, the Advisory 2022-1 would:

- Direct any agency pursuing a planned acquisition to send a written letter with the agency’s justification for the acquisition directly to the Legislative Policy Committee (and copying certain personnel), as well as to respond directly to any subsequent request by the Committee for additional information;
- Require such agencies to delay submitting an acquisition to the Board for approval until after the statutory waiting periods have elapsed; and
- Require certain information to be included in both a subsequent agenda item seeking the Board’s approval of an acquisition, and in the back-up to that item.

5. **BOARD OF PUBLIC WORKS**  
***Wetlands Licenses***

**Recommendation:** The Board of Public Works Wetlands Administrator recommends that the Board grant licenses for projects involving filling and dredging in the navigable waters of Maryland.

**MDE:** The Maryland Department of the Environment concurs with this recommendation.

**Authority:** Section 16-202, Environment Article, Annotated Code of Maryland: “*The Board shall decide if issuance of the [tidal wetlands] license is in the best interest of the State, taking into account the varying ecological, economic, developmental, recreational, and aesthetic values [the] application presents.*” See also COMAR 23.02.04.

**DORCHESTER COUNTY**

21-1012 *MARYLAND DEPARTMENT OF TRANSPORTATION STATE HIGHWAY ADMINISTRATION (MDOT SHA)* – To improve roadside drainage by authorizing after-the-fact replacement of two adjacent culverts and associated slope stabilization with stone.

*Cambridge, Little Choptank River*

*Special conditions: Requirements for excavated material placement in upland, design and construction of stone revetment. Restrictions on enlarging or changing the length, width, or shape of the existing ditch.*

21-1309 *EDWIN LEWIS* – To reduce shoreline erosion and improve navigable access by constructing a living shoreline and a boat ramp.  
***Wetlands Created: 24,000 square feet***

*Vienna, Nanticoke River*

*Special conditions: Time of year restriction. Requirements for marsh establishment area, acceptance of marsh maintenance plan prior to commencement of work, and annual photograph submission.*

**KENT COUNTY**

21-1251 *THE WHARF AT HANDY’S POINT, INC.* – To reduce shoreline erosion and improve marina facilities by removing two existing piers and associate structures, and constructing floating piers with finger piers, gangways, mooring piles, a new bulkhead with backfill, and replacement bulkhead.

*Worton, Worton Creek*

*Special conditions: Requirements for construction process and sequencing of bulkhead and removal of existing piers and associated structures.*

bill.morgante@maryland.gov

6. **BOARD OF PUBLIC WORKS**  
***Wetlands License #20-0187 – Robb Merritt***

**Recommendation:** The Board of Public Works Wetlands Administrator recommends that the Board **revoke**<sup>1</sup> emergency license #20-0141EX, issued on February 10, 2020, to construct a revetment up to 15 feet channelward of Mean High Water (MHW) protecting an existing dwelling's foundation threatened by shoreline erosion. After the emergency license was issued, the licensee constructed revetment that filled up to 38 feet channelward of MHW, filling 3,435 square feet over what was authorized by the emergency license. The Wetlands Administrator does not believe the 3,435 square feet of additional fill was necessary to abate the emergency.<sup>2</sup>

**MDE:** The Maryland Department of the Environment recommends modifying this license to accept the additional fill and require mitigation to offset the impacts to shallow water habitat from that fill.

- Application received February 20, 2020
- Public comment period ended August 15, 2021
- MDE Report and Recommendation received (revised) March 22, 2022

MDE believes the additional fill beyond what was authorized in emergency license #20-0141EX was necessary to abate the emergency and the Department has proposed mitigation to offset the ecological impacts of the extra fill. The mitigation is additional shoreline stabilization with a living shoreline.

MDE proposes mitigation at three areas on the Merritt property to offset impacts to 3,435 square feet of shallow water habitat from the additional fill. MDE recommends the licensee mitigate at a 2:1 ratio since the impacts to shallow water habitat will be mitigated with the creation of tidal marsh, considered out-of-kind creation (COMAR 26.24.05.01.C.(2)). Licensee agreed to mitigate by creating 7,385 square feet of tidal marsh, exceeding the required mitigation requirement of 6,870 square feet.<sup>3</sup>

<sup>1</sup> COMAR 23.02.04.06(C)(9)(d): Emergency License. After receipt of the Department's written recommendation under §C(9)(c) of this regulation, the Administrator shall submit an Action Agenda item to the Board with the Administrator's recommendation that the Board ratify, modify, suspend, or revoke the emergency license.

<sup>2</sup> As per COMAR 23.02.04.06.C (2): An emergency license issued under §A of this regulation, including its effective period, is limited to only those activities *necessary* to abate or mitigate the emergency.

<sup>3</sup> Opposition to a portion of this mitigation proposal was expressed by an adjacent neighbor.

BOARD OF PUBLIC WORKS  
SECRETARY'S  
ACTION AGENDA  
June 22, 2022

6. **BOARD OF PUBLIC WORKS** (cont'd)  
***Wetlands License #20-0187 – Robb Merritt***

**Authority:** The “Board shall decide if issuance of the [tidal wetlands] license is in the best interest of the State, taking into account the varying ecological, economic, developmental, recreational, and aesthetic values [the] application presents.”  
*Section 16-202, Environment Article, Annotated Code of Maryland; see also COMAR 23.02.04.*

**Mitigation:** If the license were to be modified rather than revoked, the Wetlands Administrator believes the best interest of the State would be served by the Board deferring action on the license to provide time to structure an alternate mitigation plan to that proposed by MDE. MDE’s current proposal includes a large amount of yet more stone fill for groins and a breakwater which would further impact this shallow water habitat.

**ANNE ARUNDEL COUNTY**

20-0187 *ROBB MERRITT*– To revoke Emergency License #20-0141EX issued on February 10, 2020 to protect an existing dwelling from failure and the shoreline from erosion by installing stone revetment.

Approval of this Item will revoke Emergency License #20-0141EX.

*Pasadena, Broad Creek and Snappers Cove*

8. **DEPARTMENT OF HOUSING AND COMMUNITY DEVELOPMENT**  
***Rental Housing Production Program***

**Recommendation:** That the Board of Public Works approve the release of the Department of Housing and Community Development's deed of trust lien on 1210 Mosher Street, Baltimore City, which is owned by Reservoir Hill Limited Partnership XI. The Property is to be acquired as part of the Project C.O.R.E. initiative to redevelop portions of Baltimore City.

**Borrower:** Reservoir Hill Limited Partnership XI, Baltimore, MD

**Property:** 1210 Mosher Street, Baltimore City

**Loan Authority:** Rental Housing Production Program  
Sections 2-501 through 2-510 of Article 83B  
of the Annotated Code of Maryland as amended, and the  
regulations promulgated thereunder (the "Act").

**Fund Source:** Rental Housing Production Program ("RHPP")

**Authority To Release Lien:** State Finance and Procurement Article  
Section 10-305, Maryland Code

**Loan Amount:** Original: \$ 950,000  
Current: \$1,083,872

**Background::** On April 20, 1999, DHCD made the RHPP loan to the Borrower to enable the acquisition and rehab of 29 properties in Baltimore City, one of which was the 1210 Mosher Street. On June 8, 2021, the Mayor and City Council of Baltimore filed a Petition for Condemnation of the leasehold interest in 1210 Mosher Street (with DHCD named as a defendant). After the review of two appraisals of 1210 Mosher Street and discussions between DHCD and the City, it was agreed that the current fair market value of the Property is \$8,567. DHCD will accept this amount to pay down the principal of the RHPP loan, and will relinquish title and claim to 1210 Mosher Street and assent to the City's acquisition by Condemnation. The RHPP loan remains secured by the remaining 25 units in the project. The liens on additional properties, 1222 and 1232 Mosher Street, were previously released (*see* Secretary's Agenda, Item 8, January 5, 2022 BPW and Item 18 Supplemental, April 27, 2022 BPW).

9. **DEPARTMENT OF HOUSING AND COMMUNITY DEVELOPMENT**  
***Shelter and Transitional Housing Facilities Grant Program***

**Recommendation:** That the Board of Public Works approve lending general obligation bond proceeds as described.

**Borrower:** Tuerk House, Inc.

**Project:** Tuerk House Ashburton Facility Renovations a/k/a Tuerk House Phase 3  
730 Ashburton Street, Baltimore 21216  
Baltimore City

**Authority:** Housing and Community Development Article, §2-102(a)(7),  
Annotated Code of Maryland, as amended; Ch. 9, Laws of 2018;  
Ch. 14, Laws of 2019; Ch. 537, Laws of 2020; Ch. 63, Laws of 2021.

*Shelter and Transitional Housing Facilities Grant Program (STHFGP)* shall provide capital grant financing, in the amount of \$1,274,541, for local governments and nonprofit organizations to develop shelter, transitional, and other housing facilities for homeless individuals and families.

Repayment of the capital assistance is not required and is forgiven if the project is used as a shelter, transitional housing, or other housing facility for homeless households for 15 years.

**Amount:** \$1,274,541

**Fund Source:** MCCBL 2019- Shelter and Transitional Facilities Grant Program-  
\$150,000

MCCBL 2020- Shelter and Transitional Facilities Grant Program- \$200,000

MCCBL 2021- Shelter and Transitional Facilities Grant Program- \$924,541

**Collateral:** Deed of Trust

**Description:** The Tuerk House's scope of work consists of the rehabilitation of an existing building located at 730 Ashburton Street in Baltimore City. Interior rehabilitation will include updated bathrooms, HVAC systems, laundry room and an upgraded central kitchen. Exterior improvements include a new addition, a new 20-year roof, new gutters and downspouts, a new weather protected main entrance and masonry work. This capital grant will preserve 92 recovery beds for Tuerk House Recovery Center.

<i>Type of Funds</i>	<i>Source of Funds</i>	<i>Amount</i>
Shelter and Transitional (this Item)	Maryland DHCD	\$1,274,541
FHLB	FHLB-NY	\$875,000
Capital Improvement Grant	Maryland DH	\$1,300,000
Owner's Equity	Tuerk House	\$7,400
<b>Total Sources</b>		<b>\$3,456,941</b>

The Maryland Department of Planning reviewed and approved the project for consistency with the Economic Growth, Resource Protection, and Planning on August 31, 2020.

The following project is proposed for inclusion in the Secretary's portion of the BPW agenda for the meeting. Its scope of work with respect to energy saving, water conservation, and environment are described below.

Pursuant to Maryland's commitment to reducing Greenhouse Gas Emissions, conserving water resources, and enhancing Maryland's environment, the Project includes the following:

1. Mechanical systems will be high efficiency units with programmable thermostats.
2. All appliances will be Energy Star qualified.
3. All windows will be Energy Star qualified
4. All faucets and bath fixtures will use water sense labeled products.

There are no Recognized Environmental Concerns requiring remediation on this project.

10. **MARYLAND DEPARTMENT OF THE ENVIRONMENT**  
***Bay Restoration Fund***

**Recommendation:** That the Board of Public Works approve grant funding as described.

**Authority:** Maryland Water Quality Financing Administration Act  
§§ 9-1601--9-1622, Environment Article, Annotated Code of Maryland.  
§ 2-1212, Environment Article, Annotated Code of Maryland

**Project:** Urban Trees Program

**Recipient:** The Chesapeake Bay Trust  
Annapolis, Maryland

**Amount:** \$10,000,000

**Location:** Statewide

**Project Description:** The Urban Trees Program was created to foster community-based projects to plant trees in underserved areas in furtherance of the goals established under § 2-1212 of the Environment Article. Beginning in Fiscal Year 2023, the Chesapeake Bay Trust shall make grants to qualified organizations for tree-planting projects in underserved areas. Qualified organizations per statute include nonprofit organizations, schools, community associations, service, youth and civic groups, institutions of higher education, county or municipal governments, or forest conservancy district boards.

Eligible program expenses will include personnel costs, supplies, site preparation, and other expenses and materials related to planning, implementing, and maintaining tree-planting projects in underserved areas.

12. **MARYLAND ENVIRONMENTAL SERVICE**  
***Eastern Correctional Institution, Somerset County***

***A/E Contract:*** ECI Propane Fuel Conversion – Design  
MES Project # 1-22-4-69-3

***Description:*** Engineering services for the conversion of existing Eastern Correctional Institution (ECI) equipment to operate on natural gas.

***Procurement:*** A/E Shortlist (1-18-1-06-3)

***Award:*** HDR Engineering, Inc.  
Fulton, Maryland

***Amount:*** \$484,649

***Term:*** 10 months

***MBE Participation:*** 15%

***Remarks:*** MES is installing a natural gas (NG) distribution pipeline and converting the ECI Cogeneration Plant boilers to fire NG under separate contracts. In line with continued facility improvements to promote greater system efficiency, safety, and reliability, the A/E under this contract shall design, prepare bid ready documents, and provide bidding support to convert equipment at the ECI Annex and Maryland Correctional Enterprise (MCE) buildings from firing propane to fire NG and to extend the NG distribution pipeline to the buildings. There are a total of 19 pieces of propane-fired equipment affected; 15 pieces of equipment at the Annex will be replaced and four (4) pieces of equipment at the MCE will either be replaced or converted based on the A/E's cost analysis. The design scope considers mechanical room space constraints, impacts to building systems, equipment performance, permitting through MDE and Somerset County, and determination of all necessary construction inspections.

***Fund Sources:*** MCCBL 2020, *MES Infrastructure Improvement Fund (UB00)*

***Appropriation Codes:*** 332 MCCBL 20 (PCA 12091)

***Resident Business:*** Yes ***Tax Compliance No.:*** 22-3006-1110

**13. MARYLAND ENVIRONMENTAL SERVICE  
*Victor Cullen Youth Detention Center, Frederick County***

**Construction Contract ID:** Victor Cullen Youth Center  
Wastewater Treatment Plant ENR Upgrade  
MES Project # 1-21-2-11-5

**Original Approval:** Secretary's Agenda, Item 12 (6/14/2021)

**Award:** HRI Construction, LLC  
dba M2 Construction LLC in Maryland  
Lancaster, PA

**Contract Description:** Replacement of the obsolete wastewater treatment plant and  
rehabilitation of the sanitary sewer collection system.

**Modification Description:** Contractor needed to repair the access road to the  
WWTP/ENR Upgrade construction site.

**Original Contract Term:** 500 days

**Original Amount:** \$ 7,957,440  
**Previous Modifications:** \$ 16,161.57  
**This Modification:** \$ 79,385.78  
**Revised Amount:** \$ 8,052,987.35

**Amount Percentage Increase:** 10%

**MBE Goal:** 17%  
**MBE Compliance:** 20%

**Remarks:** A severe rain event caused ground water to wash out the access road which is used by MES and Contractor staff to gain access to the wastewater treatment plant. Access is required to allow the MES staff to operate the WWTP and the Contractor to continue working on the upgrade.

**Fund Source:** MCCBL 2021, *MES Infrastructure Improvements Fund, UB00*  
**Appropriation Code:** 542 MCCBL 21 (PCA#12202-\$79,385.78)

14. **MARYLAND ENVIRONMENTAL SERVICE**  
***Woodstock Job Corp Center, Baltimore County***

**Contract ID:** Wastewater Treatment Plant ENR Upgrade  
MES Project # 1-18-2-01-3

**Original Approval:** Secretary's Agenda, Item 16 (8/16/2017)

**Award:** George, Miles and Buhr  
Sparks, Maryland

**Contract Description:** Provide engineering services for a new advanced wastewater treatment system and related structures at the Woodstock Job Corps Center facility in Baltimore County.

**Modification Description:** Compensate Engineer for additional construction administration, design services for relocated BGE transformer and additional Geotech services.

**Original Contract Term:** 4 years  
**Modified Contract Term:** 90 Additional Days

**Original Contract:** \$ 476,375.90  
**Previous Modifications:** \$ 85,856.22  
**This Modification:** \$ 99,529.65  
**Revised Amount:** \$ 661,761.77

**Amount Percentage Increase:** 17%

**MBE Goal:** 14.02%  
**MBE Compliance:** 20%

**Remarks:** The A/E prepared additional drawings and specifications under this task as requested by MES, incorporating changes made to the lab layout and equipment, which was modified from what was shown in the original bid documents. The A/E assisted MES in coordinating with BGE for the installation of the new electrical service to the WWTP, which was not located as shown on the drawings provided by MES. New drawings and several reviews were required for this effort. The A/E also assisted MES in an extensive coordination effort to facilitate the installation of a new broadband Internet service line to the WWTP. Another task not included in the original scope of work for the A/E was to have their geotechnical subconsultant conduct two site visits and provide technical consultations regarding groundwater in the excavation for the new MBR treatment building.

**15. MARYLAND STADIUM AUTHORITY  
*Razing and Replacement of the Department of Legislative Services Building –  
Guaranteed Maximum Price Package #2***

- Contract ID:** CP-003-DLS-002
- Project:** Raze and replace the existing Department of Legislative Services Building located at 90 State Circle in Annapolis.
- Recommendation:** Approve the award of Guaranteed Maximum Price Package #2 to the Whiting-Turner Contracting Company.
- Authority:** § 10-622, Economic Development Article, Annotated Code of MD
- Prior Approvals:** Secretary’s Agenda, Item 19 (7/7/2021 – Pre-construction Services)  
Secretary’s Agenda, Item 14 (3/23/2022 – GMP Package # 1)
- Contractor:** The Whiting-Turner Contracting Company  
Baltimore, MD 21286
- Pre-Construction Amount:** \$ 228,884.10  
**GMP Package #1:** \$ 17,381,530.00  
**GMP Package #2 (this Item):** \$ 52,590,671.00  
**Revised Amount:** \$ 70,201,085.10
- Term:** 3/2022 – 12/2024
- MBE Goal:** 30%  
**Subgoals:** 8% African-American  
11% Women

**Remarks:** Guaranteed Maximum Price Package #2 represents the construction packages for masonry, waterproofing, fireproofing, overhead doors and loading dock equipment, drywall/framing/ceilings, fixed audience seating, fire protection, mechanical/electrical/plumbing (MEP), AV/telecom, public safety DAS, tunnel excavation, and final site utilities. As identified in the prior recommendation for pre-construction services and Guaranteed Maximum Price package #1, MSA indicated its intent to return with phased Guaranteed Maximum Price Packages.

Construction packages were advertised and documents were issued by the CM for trade contractor participation on March 31, 2022 in the following publications: the CM’s website, Building Connected, MWMCA, as well as directly solicited to numerous trade contractors.

BOARD OF PUBLIC WORKS  
SECRETARY'S  
ACTION AGENDA  
June 22, 2022

**REVISED**

**15. MARYLAND STADIUM AUTHORITY (cont'd)**

**Remarks (cont'd):**

MSA and the CM conducted pre-bid and site visit meetings at the project site, and all attendees were provided with summary project information and afforded the opportunity to tour the project site. Additionally, outreach and networking sessions were conducted virtually on March 22, 2022, March 23, 2022, and April 21, 2022. The sessions were attended by numerous trade contractors and other representatives regarding contracting opportunities and MBE participation. The initial bid date for subcontractors was April 27, 2022 but due to numerous requests from MEP subcontractors to extend the bid date, Whiting-Turner extended the bid date to May 6, 2022 for MEP packages. On April 27, 2022 and May 6, 2022, competitive sealed trade contractor bids were received and opened using the CM's online bidding system, Building Connected. The CM received 87 bids for the bid packages advertised. Post-bid scope review meetings were conducted virtually from April 29, 2022 to May 11, 2022. All bid openings and scope reviews were attended by MSA. The work included through GMP Package #1 and GMP Package #2 is within the current project budget.

The overall MBE participation goal for the project was set at 30% with sub-goals of 8% African American-owned and 11% Women-owned. GMP Package #2 achieves 30.96% total MBE with 11.31% African-American and 12.10% Women owned participation. The combined total MBE participation for GMP #1 and GMP #2 achieves 31.14% overall MBE participation with 9.08% African-American and 10.24% Women-owned business participation. The CM remains committed to meeting the MBE participation goals established for the project.

GMP Package #3 is anticipated to be submitted for approval in August/September 2022. This package is estimated to total between \$26 million and \$30 million excluding owner contingency.

MSA is requesting approval for a large portion of the project, which exceeds current available funding. After the 2022 and 2023 MCCBL becomes effective, MSA will return to the Board to authorize funding pursuant to such authorizations. Until then, MSA will only authorize work that does not exceed currently available funds.

16. **DEPARTMENT OF HUMAN SERVICES**  
*General Miscellaneous*

**Recommendation:** The Maryland Department of Human Services, through the Office of the Attorney General, requests approval to pay a settlement of all claims, including attorneys' fees, against the respondents in *In the Matter of the United States Equal Employment Opportunity Commission and Jacqueline Powell v. Department of Human Services and the Baltimore City Department of Social Services*, EEOC, Charge No. 531-2020-02596.

**Authority:** Sections 12-404 and 12-501, State Government Article, Annotated Code of Maryland

**Request Amount:** \$94,000

**Fund Source:** 100% General Funds

**Appropriation Codes:** N00G0003

**Requesting Agency's Remarks:** The Department of Human Services and the Office of the Attorney General recommend paying \$94,000 to settle all claims, including attorneys' fees, as in the best interest of the State.

If this settlement is approved, two separate checks should be issued in the following manner: (1) check payable to "Jacqueline Powell" in the amount of \$67,621.00 and (2) check payable to "Jacqueline Powell and Smithey Law Group," in the amount of \$26,379.00. The checks should be sent to Elise Song Kurlander, Assistant Attorney General, Office of the Attorney General of Maryland, 311 West Saratoga Street, Suite 1015, Baltimore, Maryland 21201, who will deliver it to Ms. Powell's attorney and ensure that all of the necessary documentation and releases are complete.

**A1. DEPARTMENT OF GENERAL SERVICES**  
*On behalf of the Department of Agriculture*

**Contract ID:** Emergency Repair of Collapsed Drainpipe at MDA Headquarters,  
AG-501-221-003

**Contract Type:** Construction

**Description:** Replacement of the collapsed drainpipe at the Maryland Department of Agriculture, Headquarters Building located at 50 Harry S. Truman Parkway in Annapolis.

**Procurement Method:** Emergency

**Award:** Naumann Plumbing, LLC; Crofton, MD (Single Bid Received)

**Amount:** \$95,122.87

**Term:** 30 Calendar Days

**Date Emergency Declared:** 4/26/2022

**Contract Award Date:** 5/2/2022

**Date Emergency Reported:** 5/24/2022

**MBE/VSBE Participation:** N/A / N/A

**Fund Source:** 100% General  
L00 22 48103 1399

**Remarks: Nature of Emergency:** A pipe collapse was discovered during a rain event when water backed up into the building's office and lab areas. A contractor was called to investigate and determined the pipe had collapsed on the exterior of the building. The issue posed a health hazard to the occupants of the building with the possibilities of stagnant water and mold growth. In order to avoid closure of the building DGS utilized the contractor that did the initial investigation of the collapsed pipe. This repair is necessary to correct the issue and remove the health hazard created by this failure.

BOARD OF PUBLIC WORKS  
SECRETARY'S ACTION AGENDA  
APPENDIX  
June 22, 2022

APP 2

---

A1. **DEPARTMENT OF GENERAL SERVICES** (cont'd)  
*On behalf of the Department of Agriculture*

*Basis for Selection:* The facility had already contracted with a utility company to investigate the backed-up pipe. Due to the contractor's knowledge of the issue and familiarity with the facility, DGS contracted with this same vendor in order to expedite repairs and avoid any health hazards to the building's occupants.

*Reason for Lateness:* An administrative oversight failed to acknowledge the revised emergency procurement report submission deadlines and inadvertently delayed the reporting of this emergency procurement. The updated and more expedited requirements have been reviewed with the DGS team to ensure future emergency procurements are submitted timely.

*Resident Business:* Yes

**A2. DEPARTMENT OF INFORMATION TECHNOLOGY (cont'd)**

**Percent +/- (this Item):** 250%

**Total Percent Change:** 250%

**MBE / VSBE Participation:** N/A / N/A

**Fund Source:** 100% Dedicated Purpose Fund for Cybersecurity

**Remarks: Nature of Emergency:** The cybersecurity assessment program is a Governor's Office initiative carried out by the Office of Security Management (OSM) within DoIT. The need to support statewide assessments to determine the State's cyber-health and identify areas where cybersecurity risks and vulnerabilities exist on state systems is immediate and continuing. This initiative is to identify risks due to improperly managed IT systems. Because of several successful cyberattacks, including but not limited to the December 2021 ransomware incident impacting the Maryland Department of Health, identifying these risks and remediating them is critical to the continuous operation of the IT systems upon which the State's operations are so reliant.

The assessments for, at a minimum, all Executive Branch agencies, inclusive of security control effectiveness, penetration testing, and planning for and supporting remediation efforts must continue and this significant progress cannot be delayed for the development, release, and award of an RFP. There remains a significant amount of work to be done within the initiative and it is imperative that DoIT have sufficient assessment personnel in a timely fashion that are properly trained and able to carry out the work effectively and efficiently to make progress.

RSM commenced performing cybersecurity assessments under a December 8, 2021 Emergency Contract award reported to the BPW on January 26, 2022. This modification expands the scope to include several additional assessments, penetration testing, and development of a statewide remediation strategy. The Emergency Services to Perform ad-hoc Security Assessments Contract is modified to add additional scope to support the following core initiatives:

- NIST Cyber Security Framework Continuation – Provide continued support for ad-hoc discovery activities using the NIST Cyber Security Framework (CSF) as described within the original emergency contract.
- Security Control Effectiveness Discovery – Perform a security control effectiveness assessment to determine the effectiveness of existing technology controls within the State. RSM will conduct the discovery activities using technical testing tactics, techniques, and procedures to identify tactical issues such as missing patches, misconfigurations, and other high-risk vulnerabilities could lead to a compromise of assets or data. Testing will be performed using a combination of manual testing efforts, automated tools, and open source / proprietary tools.

BOARD OF PUBLIC WORKS  
SECRETARY'S ACTION AGENDA  
APPENDIX  
June 22, 2022

APP 5

---

**A2. DEPARTMENT OF INFORMATION TECHNOLOGY (cont'd)**

**Remarks (cont'd):**

- Strategic Roadmap Development – Develop a strategic remediation roadmap based on the results of the NIST CSF and security control effectiveness discovery activities. This roadmap will include actionable recommendations and focus on areas such as strategic business alignment, current technology, resources, and budget.
- Remediation Assistance – Support the State with activities related to strengthening the overall security posture of the State resulting from discovery activities underway at the State agencies.
- Penetration Testing – Test for exploitable vulnerabilities in computer systems, networks, websites, and applications

This remains an emergency due to ongoing cybersecurity risk as mentioned above. Hardening the State's information technology assets against vulnerability to attack is of the highest priority. HB1205, emergency legislation signed into law on May 12, 2022 (Ch. 243), recognizes the importance of the conduct of cybersecurity assessments by mandating that the Department periodically conduct such assessments. DoIT is working on drafting a RFP to obtain the required third-party assessment services via a non-emergency procurement. However, the length of time it will take to draft an appropriate solicitation and conduct the procurement would put the Department in serious jeopardy of missing timelines established in the law and potentially leave the State open to attack from threat actors.

APP 7

**A3. DEPARTMENT OF JUVENILE SERVICES (cont'd)**

**Remarks: Nature of Emergency:** The software system that is used to operate the door locking control system at the Baltimore City Juvenile Justice Center (BCJJC) failed due to a hard drive failure on April 25, 2022. This software system (GE Cimplicity) interfaces with the gate and door "programmable logic controllers" (PLC's) to operate the opening and closing of all detention doors and gates. DJS installed new computers but was unable to reload the original software due to a compatibility issue (old software is not compatible with new operating system on the computer).

DJS contacted Jail Craft, Crest Lock, Cornerstone Detention Products and Johnson Controls for pricing to replace and configure the GE Cimplicity software for the doors and gates. Jail Craft and Crest lock responded that they do not work with GE Cimplicity software. Cornerstone Detention Products responded and does work on GE Cimplicity software but they did not have a technician available for at least four (4) weeks. Johnson Controls responded, provide pricing for new software and installation and had a technician available to begin work immediately. Johnson Controls is also the Contractor that originally installed the GE Cimplicity system at BCJJC and has provided maintenance on the system several times in the past 10 years.

This contract was originally believed to be less than \$50,000. When installing the software and testing to make sure all doors and gates were operational, it was discovered that there were some unknown system failures in the communications between the floor control computer and the master control computer, a fiber cable issue and a separate controller issue as well as static on the intercom in multiple locations. These issues required additional labor to troubleshoot and make the needed repairs. The additional labor hours have caused the original contract to exceed \$50,000.

Consequences if not handled as an emergency: The youth and staff may not be able to respond to emergencies due to restricted movements through the doors and responders through vehicle gates; staff may not be able to protect, treat, and separate youth; youth may escape or injure other youth or staff; and staff would be exposed to potential injury while manually operating the doors and gates.

**Basis for Selection:** Johnson Control was the only company that provided pricing and could begin work immediately.

**Resident Business:** Yes      **MD Tax Clearance:** 22-2690-1101

APP 9

---

**A4. DEPARTMENT OF PUBLIC SAFETY AND CORRECTIONAL SERVICES**  
*(cont'd)*

**Remarks: Nature of Emergency:** Emergency services to repair underground steam line leaks which are flooding the Jessup Correctional Institution laundry plant basement and other leaks causing excessive amounts of water usage for the JCI boiler plant. In addition, areas near sidewalks at the facility are also flooding. The JCI boiler plant, which supplies steam to produce hot water and heat for JCI and MCIJ, is currently using 26,000 gallons of water a day in makeup water to make needed steam. The JCI boiler plant supplies steam to produce hot water and heat for JCI and MCIJ. The Department took the extra time from the end of February to troubleshoot the leaks in an effort to isolate where all of the issues were. There were 6 sites originally suspected. Additional work was performed in the intervening weeks to narrow down those locations. These efforts were unsuccessful and JCI continues to lose water at a rate of approximately 30,000 gallons per day. DPSCS will start the excavation with the original scope of work and see where it leads. It is vital that DPSCS moves forward with all speed under the emergency declaration to address the loss of water.

**Basis for Selection:** This work is time sensitive in that a lack of hot water represents a health and sanitation hazard. Additionally, not addressing the matter could leave the Department and State open to litigation from inmates. To be competitive, calls for quotes were made to at least two vendors that were known to respond as soon as possible and were familiar with facilities and security protocols. These repairs are vital to maintain a safe and healthy environment for the inmate population.

**Resident Business:** Yes

1-E. MARYLAND AVIATION ADMINISTRATION  
*Equipment Contract*

**Contract ID:** Front Mount Broom for Martin State (MTN) Airport; MAP6204600  
ADPICS No.: MAP6204600

**Contract Description:** This contract provides for the purchase and delivery of one Front Mount Broom for MTN Airport.

**Award:** M-B Companies, Inc.  
Chilton, WI

**Contract Term:** 07/07/2022\* - 07/06/2023 (\*or earlier upon BPW Approval)

**Amount:** \$660,708

**Procurement Method:** Intergovernmental Cooperative Purchase

**MBE/VSBE Participation:** 0% / 0%

**Performance Security:** None

**Requesting Agency Remarks:** The Maryland Department of Transportation Maryland Aviation Administration (MDOT MAA) is requesting to replace a 28-year-old 1993 Schmidt Front Mounted Runway Broom (Broom) with a new Front Mount Broom. The current broom has surpassed its serviceable life. The unit has multiple charging and hydraulic issues and has been and will continue to malfunction year after year. In order to provide uninterrupted emergency services, the Broom must be maintained in superior operating condition and should be promptly replaced when adequate performance levels can no longer be assured.

One of the most important capital assets of MTN Maintenance is a fleet of reliable snow equipment. MTN Maintenance depends heavily on the performance capabilities of the equipment when clearing runways and taxiways during emergency snow events and it is essential for the Summer Airfield Cleaning Program. Failure to clear the airfield and taxiways during emergency snow operations could have a severe impact on aircraft safety and operations. The replacement of the Broom will continue to provide MTN with a safe, efficient operation, and improved fleet maintenance efficiency and operational equipment availability. Failure to replace this essential equipment may cause severe safety issues and inefficiencies in assigning and performing work by the Office of Maintenance Staff at MTN.

DEPARTMENT OF TRANSPORTATION  
ACTION AGENDA  
June 22, 2022

1-E. MARLAND AVIATION ADMINISTRATION (cont'd)

*Requesting Agency Remarks(cont'd):*

Contract No. 212548 between the State of Minnesota and M-B Companies, Inc. is effective May 1, 2022, through November 30, 2022. M-B Companies has confirmed the pricing will be held even though the State of Minnesota contract will expire by the time the truck is delivered. The contract provides the M-B Companies, Inc., MB3 Front Mount Airport Broom at a base price of \$677,679.84, including the wafers replacement kit option of \$3,358.00 and a three percent (3%) price discount of \$20,330.40, for a total configured price of \$660,707.44. The lead time of this equipment is 365 days after receipt of order.

Through market research MDOT MAA found an invitation for bids from the City of Santa Fe New Mexico Public Works Department Aviation Division awarded to M-B Companies, Inc. for a similar MB3 piece of equipment and options in the amount of \$701,877.00. The total configured price of \$701,877.00 from the Minnesota contract is more expensive when compared to the total configured price of \$660,707.44 from the intergovernmental contract that MDOT MAA is requesting to utilize. Therefore, the Procurement Officer considers the State of Minnesota intergovernmental price fair and reasonable.

The contract with M-B Companies, Inc., has been negotiated per COMAR 21.05.09, Intergovernmental Cooperative Purchasing. Utilizing this procurement method will allow MDOT MAA to realize savings in time and money in obtaining the MB3 Front Mount Airport Broom.

2-E. MARYLAND AVIAITION ADMINISTRATION  
*Equipment Contract*

**Contract ID:** MB5 Mid Mount Broom and Plow Compact Multi-Tasking Snow Removal Equipment for Baltimore/Washington International Thurgood Marshall (BWI Thurgood Marshall) Airport; MAP6205026

ADPICS No.: MAP6205026

**Contract Description:** This contract provides for the purchase and delivery of one (1) MB5 Mid Mount Broom and Plow Compact Multi-Tasking Snow Removal Equipment for BWI Thurgood Marshall Airport.

**Award:** M-B Companies, Inc.  
Chilton, WI

**Contract Term:** 07/07/2022\* - 07/06/2023 (\*or earlier upon BPW Approval)

**Amount:** \$825,482

**Procurement Method:** Intergovernmental Cooperative Purchase

**MBE/VSBE Participation:** 0% / 0%

**Performance Security:** None

**Requesting Agency Remarks:** The Maryland Department of Transportation Maryland Aviation Administration (MDOT MAA) is requesting to replace a 22-year-old Oshkosh P-Series Plow (Plow) with a MB5 Mid-Mount Broom and Plow Compact Multi-Tasking Snow Removal Equipment. The Plow is at the age where parts are not available and need to be modified to stay in service. Additionally, the Plow has charging and hydraulic issues which cause the unit to be unreliable. The current piece of equipment doesn't give MDOT MAA the ability to clean any surface down to dry pavement without a Runway Broom and Air Blast attachment which increases the amount of time the runway will be closed. The new Multi-Function Unit has a plow, broom, and air blast for clearing runways and taxiways, which will allow BWI Thurgood Marshall to decrease the time it takes to meet FAA snow clearance time guidelines.

The Plow is a major part of BWI Thurgood Marshall Airport Snow Removal Plan and responds to airport/aircraft emergencies during inclement weather. The Plow is subject to above normal wear because of the requirement to operate in unimproved terrain and the Airport Operations Area (AOA) which needs to continually have the engine running in order to operate the beacon and radios that are required to maintain contact with the FAA Control Tower. This Plow is also used to assist in the airport's FAA Part 139 inspection to correct discrepancies.

DEPARTMENT OF TRANSPORTATION  
ACTION AGENDA  
June 22, 2022

2-E. MARLAND AVIATION ADMINISTRATION (cont'd)

*Requesting Agency Remarks (cont'd):*

The replacement of this Plow is essential to the safe and efficient operations of BWI Thurgood Marshall Airport. Failure to replace this essential equipment may cause severe inefficiencies in assigning and performing work by the Office of Grounds Maintenance Staff at BWI Thurgood Marshall Airport.

Contract No. 212548 between State of Minnesota and M-B Companies, Inc, is effective May 01, 2022, through November 30, 2022. M-B Companies, Inc. has confirmed the pricing will be held even though the State of Minnesota contract will expire by the time the truck is delivered. The contract provides the M-B Companies, Inc, MB5 Mid-Mount Broom and Plow Compact Multi-Tasking Snow Removal Equipment at a base price of \$765,832.00, plus options in the amount of \$71,735.00, freight at a cost of \$13,445.32 and a 3% discount of \$25,530.37 for a total configured price of \$825,481.95. The lead time of this equipment is 365 days after receipt of order.

Through market research MDOT MAA found a September 2021 award from Grand Forks Regional Airport Authority for a similar piece of equipment in the amount of \$817,695. The price does not include freight and only some of the options that MDOT MAA require. The price from the Grand Forks contract is more expensive when compared to the intergovernmental contract that MDOT MAA is requesting to utilize. Therefore, the Procurement Officer considers the State of Minnesota intergovernmental price fair and reasonable.

The contract with M-B Companies, Inc., has been negotiated per COMAR 21.05.09, Intergovernmental Cooperative Purchasing. Utilizing this procurement method will allow MDOT MAA to realize savings in time and money in obtaining the MB5 Mid Mount Broom and Plow Compact Multi-Tasking Snow Removal Equipment.

**3-M. MARYLAND AVIATION ADMINISTRATION**  
***Maintenance Contract***

**Contract ID:** Airport Parking Access and Revenue Control System Maintenance and Repair at Baltimore/Washington International Thurgood Marshall (BWI Thurgood Marshall) Airport; *MAA-MC-22-011*

ADPICS NO.: MAAMC22011

**Contract Description:** This sole-source contract provides all labor, supervision, equipment, materials, and expertise to perform maintenance and repair services to the Airport Parking Access and Revenue Control System (PARCS) at BWI Thurgood Marshall Airport.

**Award:** HUB Parking Technology USA, Inc.  
Warrendale, PA

**Contract Term:** 08/08/2022 - 08/07/2027

**Amount:** \$5,733,421

**Procurement Method:** Sole Source

**Living Wage Eligible:** Yes

**MBE/VSBE Participation:** 0% / 0%

**Incumbent:** HUB Parking Technology USA, Inc.  
Warrendale, PA

**Performance Security:** None

**Hiring Agreement Eligible:** No

**Requesting Agency Remarks:** The primary task for the service provider is to ensure the proper maintenance and repair of the Airport PARCS. The Airport PARC system consists of proprietary hardware and software developed and maintained by HUB Parking Technology USA, Inc. (HUB). The system includes Automated Payment Stations for Pay-on-Foot technology, intercom system, and entry and exit lane equipment for BWI Thurgood Marshall's parking facilities. All maintenance and or adaptation of the software requires access to HUB's proprietary source code and as such these activities can only be performed by HUB. In accordance with COMAR 21.05.05.02A(1), a sole source procurement is appropriate when only one source exists that meets the requirements.

DEPARTMENT OF TRANSPORTATION  
ACTION AGENDA  
June 22, 2022

---

3-M. MARYLAND AVIATION ADMINISTRATION (cont'd)

*Requesting Agency Remarks (cont'd):*

The contract also includes an allowance for a systems upgrade. During the period of performance, one system upgrade will be performed to upgrade the hardware and software to move from magstripe technology to bar code technology allowing the traveling public to interact with the system using existing cell phone technology to pay for parking fees.

The original construction contract with the associated maintenance was bid in 2013. The cost of the annual maintenance will increase by 50% over the next five years in comparison to the prices originally proposed in 2013. However, the prices proposed 10 years ago for annual maintenance were in conjunction with a warranty period on a brand-new installed system. Additionally, the cost proposed in 2013 was without consideration of any hardware upgrades. These maintenance contract requirements include hardware and upgrades to the latest public released versions of all products, services provided, and procured for the PARCS systems. Accordingly, the Maryland Department of Transportation Maryland Aviation Administration considers the price offered by HUB Parking Technology USA, Inc. fair and reasonable.

***Modification: Construction Contract***

**Contract ID:** Reconstruction of Berths 1-6, Phase 3 – Berth 3 at Dundalk Marine Terminal;  
518008  
ADPICS No.: CO397387

**Contract Approved:** DOT Agenda 12/16/2020, Item 7-C;

**Contractor:** Cianbro Corporation  
Baltimore, MD

**Contract Description:** This contract provides the reconstruction of Berth 3 at Dundalk Marine Terminal.

**Modification Description:** Modification No. 1 adds \$591,073 to the contract value to pay the contractor additional compensation for unanticipated increases in the prices of materials between the date of contract award and the date materials were purchased and released to the Contractor.

**Original Contract Term:** 01/08/2021 – 07/07/2023

**Modification Term:** 07/07/2022\* – 07/07/2023 (\*or earlier upon BPW approval)

**Original Contract Amount:** \$33,981,184

**Modification Amount:** \$ 591,073

**Prior Mods/Options:** None

**Revised Contract Amount:** \$34,572,257

**Percent +/- Change:** 1.7%

**Overall Percent +/-:** 1.7%

**Original Procurement Method:** Competitive Sealed Proposals

**MBE/VSBE Participation:** 26% / 2%

**MBE/VSBE Compliance:** 30.78% / .2%

**Requesting Agency Remarks:** The Request for Proposals for this procurement was advertised on or about October 31, 2019, with proposals due December 20, 2019. At that time MDOT MPA hoped that award might be made as early as February of 2020. After proposals were received,

---

**4-C-MOD. MARYLAND PORT ADMINISTRATION (cont'd)**

***Requesting Agency Remarks (cont'd):***

MDOT MPA requested best and final offers, due March 30, 2020. The contractor submitted its best and final price of \$33,981,184. Due to budget constraints, MDOT MPA's requested and received an extension of the period for accepting the proposal to September 4, 2020. Due to continuing budget constraints, MDOT MPA requested and received a second such extension, to February 6, 2021. Following approval from MDOT on or about November 5, 2020, to proceed with the award, MDOT MPA obtained Board of Public Works approval for the award to Cianbro Corporation on December 16, 2020. Following Board approval MDOT MPA issued notice to proceed with a construction start date of February 1, 2021.

On or about September 10, 2021, Cianbro Corporation notified MDOT MPA that some subcontractors and suppliers had informed Cianbro Corporation that they could not hold their prices for some materials due to unanticipated and unforeseeable price increases due to supply-chain disruptions and other issues resulting from the global COVID-19 situation and that they would not perform their contract obligations to Cianbro unless they were granted price increases to compensate them for losses they would otherwise incur. On behalf of itself and those subcontractors and suppliers, Cianbro requested additional compensation totaling \$1,031,509 for eleven categories of materials: 30-inch concrete piles, 24-inch concrete pile, 10-inch deck slabs, PVC conduit, copper grounding wire and copper wire, marine bollards, rail crossover, fiberglass channel, switchgear, steel rebar, and 115 steel rails. To avoid potential delays and disruptions of the work and ultimately greater cost to the State, MDOT MPA began negotiating an equitable adjustment with Cianbro and now proposes an equitable adjustment of \$591,073. This modification was approved by the Maryland Port Commission on June 7, 2022.

After a detailed review of Cianbro's request, and various supply and market indices, MPA believes there are unique and extraordinary circumstances that support an equitable adjustment to the contract. First, the nearly one-year delay between Cianbro's pricing of its proposal (just prior to the pandemic shutdown in the U.S.) and the start of construction, during which there were unprecedented price increases, resulted from the State's budget constraints and MPA's request that Cianbro hold its prices firm during this period. Additionally, any delays in the completion of Berth 3 caused by subcontractor or supplier non-performance would extend the period of unavailability of Berth 3 and the disruption of terminal operations at Dundalk Marine Terminal, including the loss of use of the adjacent Berth 2, which before the pandemic averaged 86 vessel calls per year, and of two acres of formerly useable cargo storage adjacent to Berth 3. Delays also risk the MPA's loss of market share in the highly competitive market for automobiles and roll on-roll off cargo (such as farm and construction equipment), for which Baltimore is currently the top port in the nation, as the unavailability of Berths 3 and the adjacent Berth 2 to handle such cargo would be extended.

**Incumbents:** Wallace, Montgomery & Associates, LLP/Rummel, Klepper & Kahl, LLP (JV); AECOM Technical Services, Inc./EBA Engineering, Inc./Stantec Consulting Services, Inc. (JV); JPA-A (JV)

**Requesting Agency Remarks:** This solicitation was published on eMaryland Marketplace (eMMA) on July 13, 2020. A total of 175 firms were notified via eMMA of which 80 were certified DBEs. A total of six (6) engineering consultant firms submitted technical proposals in response to the solicitation.

The consultant shall provide project On-Call Construction Management Inspection Services for Statewide Construction Projects for MDOT MTA's Office of Construction Management Division, on an "as-needed" work order basis. These services will provide construction inspection, survey, and design support personnel for a variety of projects related to MDOT MTA Transit Facilities (Bus, Metro Heavy Rail, MARC, Commuter, Freight Rail and Light Rail Capital Improvements.)

These contracts may provide for the following services:

- provide competent engineering and inspection personnel for management of capital construction projects;
- assign senior inspector responsible for consultant personnel;
- submit a roster of qualifications for personnel assigned to the project;
- conduct inspections, as assigned;
- complete inspector's daily reports;
- complete records and forms;
- participate in field reviews;
- assist in preparation of as-built plans;
- reviewing and preparing construction contract change requests and change notices;
- assist with the review of claims;
- available for any corrections, additions, or revision of final sketch book review;
- provide the services of a survey party; and
- provide personnel for ancillary construction management.

The DBE goal established for this contract is 25%. The prospective awardees have committed to the DBE goal.

This contract includes a provision authorizing an extension for a total period no longer than one-third of the base term to spend funds remaining on the contract as provided in Board Advisory 1995-1.

**Contract ID:** Metro System-wide Door Repair; T-1498-0240  
EPICS No.: T-1498-0240

**Contract Description:** This contract provides for the rehabilitation, repair, or replacement of approximately 500 door openings in 14 Metro SubwayLink Stations for the Maryland Department of Transportation Maryland Transit Administration (MDOT MTA.)

**Award:** Overhead Door Company of Baltimore, Inc.  
Baltimore, MD

**Contract Term:** 730 Calendar Days from NTP

**Amount:** \$2,177,441 NTE

**Procurement Method:** Competitive Sealed Bidding

<b>Bids:</b>	Overhead Door Company of Baltimore, Inc. Baltimore, MD	\$2,177,441
	Warwick Supply and Equipment Co., Inc. Hunt Valley, MD	\$3,712,600
	Baldwin Industries, LLC Baldwin, MD	\$3,840,350

**MBE/VSBE Participation:** 10% / 0%

**Performance Security:** Performance & Payment Bonds at 100% of the Contract Amount

**Requesting Agency Remarks:** This solicitation was advertised via eMaryland Marketplace Advantage on November 5, 2021, notifying 120 vendors, and three (3) companies were directly solicited. The bid opening was conducted on January 11, 2022, and three (3) bids were received. In accordance with COMAR 21.06.02.03.B(1), one bid was deemed not responsible and rejected due to concerns that the bidder did not have a full understanding of the scope of work for the project. The rejected bidder then sent over documentation supporting their bid. The Procurement Officer determined that it was in the best interest of the State to reverse the decision to reject the bidder. MDOT MTA has confirmed Overhead Door Company of Baltimore, Inc.'s (Overhead Door) bid price for the full scope of work required under this contract.

---

6-C. MARYLAND TRANSIT ADMINISTRATION

*Requesting Agency Remarks: (cont'd)*

This contract is for the repair or replacement of station door frames, doors, and associated hardware at the 14 Metro SubwayLink stations. The scope of work entails updating 500 door openings with all repairable frames and doors receiving, at minimum, fresh paint and new adhesive film signage or graphics. End-of-life doors, frame, and associated hardware will be demolished and replaced.

The MBE goal established for this project is 10% MBE, and Overhead Door has committed to the goal.

**7-GM. MARYLAND TRANSIT ADMINISTRATION**  
*General/Miscellaneous Contract*

**Contract ID:** MARC IV Railcar Overhaul and Truck Life Extension Study; *MRC-21-062-SR*  
ADPICS No.: MRC21062SR

**Contract Description:** This contract provides for a Life Extension study and overhaul to be performed on four (4) MARC IV truck assemblies owned by the Maryland Department of Transportation Maryland Transit Administration (MDOT MTA) MARC Train Service.

**Award:** Alstom Transportation, Inc.  
Naperville, IL

**Contract Term:** 07/07/2022\* – 01/06/2024 (\*or earlier upon BPW approval)

**Amount:** \$488,420 NTE

**Procurement Method:** Sole Source (Proprietary)

**MBE/VSBE Participation:** 0% / 0%

**Requesting Agency Remarks:** MDOT MTA MARC Train Division (MARC) owns and operates 54 MARC IV multi-level railcars, manufactured by Alstom Transportation, Inc. (Alstom.) In compliance with federal regulations and the Original Equipment Manufacturer's (OEM) warranty, truck assembly maintenance is performed at intervals prescribed by the OEM.

Recently, New Jersey Transit completed a truck life extension study on similar railcar truck assemblies in conjunction with the OEM and was able to safely extend maintenance intervals from the current six (6) years to ten (10) years.

This contract provides for MARC and Alstom to conduct overhaul and study on four (4) vehicles to determine if extending the maintenance intervals could result in performing at least one less maintenance cycle on the truck assemblies over the service life of the railcars. Preliminary cost savings estimates for the maintenance interval extension of the truck assemblies indicate that MARC would save at least \$15,000,000 over the service life of the 54 MARC IV railcars.

Alstom is the OEM of the MARC IV railcars. As the OEM, they designed the railcars, including the truck assemblies, tested and validated the railcars in accordance with federal regulations, for normal operating speeds up to 125 mph. Additionally, Alstom owns and controls the intellectual property associated with the railcar design and service life calculations for components on the railcars. The OEM specifies the maintenance intervals for components on the railcars, and MARC follows the OEM maintenance requirements in accordance with federal regulations. The OEM is responsible for design and certification of the railcar design, and to maintain safety certification of railcar completed by MTA Safety and MARC. Any maintenance interval changes for safety-critical systems such as truck assemblies must be analyzed and certified by

DEPARTMENT OF TRANSPORTATION  
ACTION AGENDA

*Requesting Agency Remarks (cont'd):*

the OEM. Therefore, Alstom as the OEM is the sole party able to perform a life extension study on the MARC IV railcar truck assemblies and provide updated maintenance intervals to MARC.

MDOT MTA has determined that the price offered is fair and reasonable for the services to be provided based on the pre-bid estimate.

**Contractor:** Alstom Transportation, Inc.  
Naperville, IL

**Contract Description:** This contract provides for the overhaul of 53 Light RailLink Vehicles (LRVs), which includes the first fleet of 35 LRVs and the second fleet of 18 LRVs

**Nature of Request:** Request to approve a settlement agreement between the Maryland Department of Transportation Maryland Transit Administration (MDOT MTA) and Alstom Transportation, Inc. (Alstom).

**Settlement Term and Amount:** \$0 (see Requesting Agency Remarks)

**Modification Description:** Modification No. 8 extends the period of performance to complete the overhaul of the LRVs, removes LRV No. 5022, revises the delivery deadlines for the remaining LRVs and adds a one-year option to renew.

**Original Contract Term:** 09/01/2013 - 08/31/2018

**Modification Term(s):** 08/01/2022 – 07/31/2024 (with one 1-year option)

**Original Contract Amount:** \$156,500,000

**Modification Amount:** \$ 0

**Prior Mods/Options:** See Attachment I

**Revised Total Contract Amount:** \$156,500,000

**Percent Change +/-:** 0% (Modification No. 1 – No. 7)  
0% (Modification No. 8; *this agenda item*)

**Overall Percent +/-:** 0%

**Original Procurement Method:** Competitive Sealed Proposals

**PURPOSE OF MEMORANDUM**

The purpose of this memo is to advise you of a clerical error that requires a change to a Maryland Department of Transportation action agenda item previously approved by the Board of Public Works.

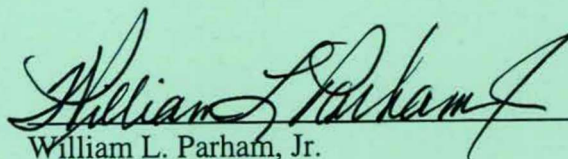

**MDOT AGENDA 06/22/2022, ITEM 8-GM-MOD.**

The correct change order number is CO396869.

The published and approved BPW agenda item incorrectly states that the change order number is CO376791.

**DBE/VSBE Participation:** 13.05% / 0%  
**DBE/VSBE Compliance:** 16.25% / 0%

**Requesting Agency Remarks:** This contract provides MDOT MTA with the necessary mid-life overhaul of its fleet of light rail vehicles (LRVs). The contractor is performing all work including furnishing all materials, tools, equipment, supervision, necessary services, and incidentals to pick up, deliver, overhaul, and test the LRVs in accordance with contract requirements. This contract includes but is not limited to performing a complete overhaul of specified systems, subsystems, and components including engineering interfaces with new equipment and replacement of obsolete components. These tasks are required to address parts obsolescence, improve vehicle reliability, and enhance the ridership experience.

This contract was originally awarded by the Board of Public Works (BPW) on August 13, 2013. Upon award of the contract, Alstom experienced numerous challenges that began to impact the ability to deliver overhauled vehicles per the production schedule. These delays have resulted in previous no-cost extensions approved by the BPW.

The most recent no-cost contract modification was approved by BPW in April 2020 and required that all LRVs be overhauled and delivered no later than July 31, 2022. As of May 2022, 32 LRVs have been completed and conditionally accepted. Shortly after the prior MDOT MTA-Alstom agreement was reached in March 2020, the project experienced unforeseen challenges. The COVID-19 global pandemic forced the closure of businesses throughout the U.S. and around the globe. The Alstom plant in New York was completely shut down in March 2020 due to statewide restrictions. After the plant was re-opened, additional safety protocols were put into place, including social distancing and sterilization procedures that created a less productive work environment. The complete shutdown and initiation of safety protocols has taken a toll on the schedule agreed upon in March 2020. The ripple effects of the pandemic and its impact on the global supply chain continue to impact the project.

Another impact to the schedule was a decision by the Contractor to terminate a relationship with a subcontractor because of repeated quality concerns. The contractor was able to identify a suitable sub-contractor replacement, but as a result, the schedule was impacted.

MDOT MTA and Alstom have made significant progress in recovering from these schedule delays. This includes additional staffing by Alstom to match required engineering and production levels, continuity in project management, engineering, and safety and quality teams, a rededication to limit protracted reviews, and the completion of design reviews.

MDOT MTA also made the decision to descope one (1) of the LRVs. LRV No. 5022 was involved in a very serious accident that resulted in the complete crushing of the LRV's cab structure and injury to the LRV operator. The settlement agreement (Agreement) for which approval is sought includes a credit of \$1,460,328.17 for the elimination of that LRV from the project. The de-scoping ensures that large vehicle system components such as trucks, traction blower units, and like will be salvaged and returned to MDOT MTA for reuse.

**REVISED**

**8-GM-MOD. MARYLAND TRANSIT ADMINISTRATION (cont'd)**

**Requesting Agency Remarks (cont'd):**

This proposed agreement extends the contract delivery day by two years, which will allow Alstom the necessary time to complete the overhaul of the fleet and deliver the Light Rail Vehicles to MDOT MTA. . **A one-year option period to extend the contract at MDOT MTA's sole discretion has been added.**

In this Agreement, Alstom would provide the following:

- One (1) additional operator training and one (1) additional training on Wireless Data Link and one (1) additional training on maintenance of each LRV system, including Doors, Communications, HVAC, Propulsion, Auxiliary Power, and Brakes
- Eighty new LRV axles, with Alstom giving MDOT MTA a credit upon presentation by MDOT MTA to Alstom of evidence of the purchase of 80 axles by MDOT MTA. Credit will be at the price quoted for each axle at the time of purchase of that axle.
- New schedule MPR101, to deliver on average one (1) LRV every 35 days for conditional acceptance with the last LRV (52) being delivered no later than April 17, 2024.
- Requirements from previous agreement for additional detail (labor resources) and more frequent (bi-weekly) schedule submittals from Alstom remain in place - allowing MDOT MTA to have greater oversight of the schedule

**MDOT MTA** and Alstom have agreed to resolve Alstom's requests for an equitable adjustment relating to the contractor's delay in the delivery of LRVs under the contract. MDOT MTA was able to secure additional operator and maintenance training and additional parts to compensate for these delays, and to **waive** liquidated damages associated with such delays. MDOT MTA recommends the approval of the settlement agreement.

**MBE/VSBE Compliance:** 30.84% / 2.03%

**Performance Security:** Performance & Payment Bonds at 100% of the Contract Amount

**Incumbent:** N/A

**Requesting Agency Remarks:** Requesting retroactive approval for miscellaneous materials and work performed under the contract by the vendor from 06/25/2021 to 12/31/2021. The MDOT MVA Glen Burnie Site Renovations contract provided improvements and upgrades to curbs, sidewalks and drainage outlets, asphalt drilling and replacement, full depth pavement, installing detectable warning surfaces and manholes, remarking parking lines, reconfigured driver test courses, replacing light poles and installing power gated entrances to employee parking lot. Additionally, it includes the removal and replacement of transformers and electrical switchgear and upgrades in the main building electrical room. Additionally, included was water distribution piping and related components outside the building for water service and other miscellaneous repairs.

DEPARTMENT OF TRANSPORTATION  
ACTION AGENDA  
June 22, 2022

**REVISED**

**11-C-MOD. MOTOR VEHICLE ADMINISTRATION (cont'd)**

***Requesting Agency Remarks (cont'd):***

The Contract was approved by the Board of Public Work (BPW) on September 2, 2020, as an award to Greenbridge Construction, a Small Business Reserve (SBR), Minority Business Enterprise (MBE), and Veteran-Owned Small Business Enterprise (VSBE).

The MDOT MVA understands that retroactive contracts are not favored by the BPW. MDOT MVA's Division of Procurement (Procurement) executed a one (1) time-only contract modification extending the contract term 12/31/2021 on 08/25/2021 after notification from the Department of Facilities Management & Engineering (FME) that they approved a change order to extend the contract's term.

On September 23, 2021, FME submitted a contract modification/change order for \$1,300,000 for work performed between June 2021 through September 2021 to Procurement for processing. The change order included the provision of stormwater management, demolition, reconstruction of existing inlet and related work, construction of new inlet and related work, installation of conduit and handhole box for data and related work, barrier walls, fencing and speed bumps, parking lot handicap and one-way signage, concrete work, repair and relocation of waterline, cameras, relocation of cameras, and related work for the employee parking lot, painting, and landscaping. Procurement was not aware of these changes until after the work was completed. The work was under the supervision of FME.

After several conversation, meetings, and discussion with the MDOT MVA's Attorney General Office, and its Administration, including several meetings with the contractor to review past and present invoices and documentations, the change order was lowered to \$889,000 (a reduction of \$411,000).

**RETROACTIVE** approval requested pursuant to § 11-204(c) State Finance & Procurement Article. DGS OSP has determined that this contract should be treated as voidable rather than void because: (1) all parties have acted in good faith; (2) ratification for the procurement contract would not undermine the purposes of the Procurement Law; and (3) the violation, or series of violations, was insignificant or otherwise did not prevent substantial compliance with the Procurement Law. MDOT MVA is requesting that the BPW ratify the modification that did not receive necessary approvals beforehand.

**12-M. MOTOR VEHICLE ADMINISTRATION**  
***Maintenance Contract***

**Contract ID:** Uninterruptable Power Supply (UPS) and Battery Maintenance; *V-HQ-22076-M*  
ADPICS No.: VHQ22076M

**Contract Description:** Provide all-inclusive, on-call maintenance and service for the Uninterruptible Power Supply (UPS) systems at the Maryland Department of Transportation Motor Vehicle Administration’s (MDOT MVA) Headquarters Complex and Cumberland Branch Office.

**Awards:** Ward-Boland Associates, Inc.  
Owings Mills, MD

**Contract Term:** 10/01/2022 – 09/30/2027

**Amount:** \$418,428

**Procurement Method:** Sole Source

**MBE/VSBE Participation:** 0% / 0%

**Performance Security:** None

**Incumbent:** Ward-Boland Associates, Inc.  
Owings Mills, MD

**Requesting Agency Remarks:** This sole source contract provides for the continuity of on-call maintenance and support services for the Uninterruptible Power Supply (UPS), Power Distribution Systems (PDU) systems, batteries, and emergency static switches in MDOT MVA’s Headquarter Complex located in Glen Burnie and its Cumberland Branch Office. The UPS is critical to maintaining the availability of system servers in the event of a total loss of electrical power. The UPS provides clean back-up power to the enterprise network equipment within the MDOT MVA and MDOT’s data center computer room equipment and components and servers storing data such as financial, driving records and personal identifiable information, etc.

Vertiv Corporation (Vertiv), formerly Emerson Network Power Liebert Services, is the only certified factory authorized service provider for Liebert UPS, PDU, and site monitoring products for the Eastern and Western Maryland regions. Vertiv has been operating for more than 30 years and is dedicated to its customers providing quality service necessary to maintain the equipment per the manufacturer/factory specifications. Vertiv supports its customers with a significant investment in parts for Liebert products accessible through its automated tracking system that Parts Coordinators can access to quickly locate parts from various local, regional, and national stocking locations for guaranteed response times. In addition, Vertiv employs a team of experts either phone or on-site customer assistance 24 x 7 x 365.

DEPARTMENT OF TRANSPORTATION  
ACTION AGENDA  
June 22, 2022

**12-M. MOTOR VEHICLE ADMINISTRATION (cont'd)**

***Requesting Agency Remarks (cont'd):***

The patented Liebert UPS system is highly specialized equipment. Vertiv is the sole manufacturer/service provider and do not support third parties with technical back-up or guaranteed parts availability. Additionally, Vertiv does not provide field modifications in the form of Factory Change Notices (FCN) to third parties due to the proprietary nature of the equipment and services. While Vertiv manufactures the equipment, they cannot stop third parties from offering service. However, if a contract is held with a third party and a critical situation arises where Liebert Services is called to the site, the work performed would be billed back to the end user and not the third party.

Ward-Boland Associate (Ward-Boland) is the only service contract provider for the Maryland Eastern and Western regions. Ward-Boland is the original installer of the Liebert UPS systems at MDOT MVA's Glen Burnie and Cumberland Branch Office locations and have been servicing and maintaining the Liebert UPS systems and factory warranties for 25 years. Additionally, they are privy to the proprietary information, such as equipment schematics, guarantees an on-site two-hour response time, and are authorized to purchase and install OEM parts as needed. Therefore, it is critical for Ward-Boland to continue providing the preventive maintenance and services to ensure quality performance, compatibility of all equipment, parts, and continuity of the systems without jeopardizing the overall integrity of the already installed UPS systems to minimize disruptions to normal operations supporting MDOT MVA's commitment to providing exemplary customer service to its employees and the citizens of Maryland.

Minority Business Enterprise (MBE) goal and Veteran-Owned Small Business Enterprise (VSBE) goal was not established on this contract due to the proprietary nature of the equipment, maintenance, and services.

The total cost for these services has been determined fair and reasonable, based on a cost analysis of historical prices and the application of an annual consumer price index increase of approximately three percent considering the current supply chain issue.

DEPARTMENT OF TRANSPORTATION  
ACTION AGENDA  
June 22, 2022

---

14-C. STATE HIGHWAY ADMINISTRATION (cont'd)

**MBE/VSBE Participation:** 28% / N/A

**Performance Security:** Annual-Renewable Payment & Performance Bonds for 100% of the award amount exist for this contract.

**Hiring Agreement Eligible:** Yes

**Incumbent:** Conduent State & Local Solutions, Inc.  
Washington, DC

**Requesting Agency Remarks:** This Solicitation was advertised on eMaryland Marketplace Advantage on July 16, 2021, with a Pre-Proposal Conference held on July 22, 2021. Six (6) firms attended the conference, two of which self-identified as Minority Business Enterprise (MBE)/Small Business Reserve (SBR). Three (3) proposals were received.

The Maryland Department of Transportation State Highway Administration (MDOT SHA), in coordination with the Maryland State Police (MSP) and the Maryland Transportation Authority (MdTA) Police, are procuring their second five (5) year contract for services to provide vehicle speed monitoring and imaging equipment to perform Automated Speed Enforcement (ASE), data collection services, citation processing, and payment processing, for work zones located on limited access highways throughout Maryland. This contract, which supports the Maryland SafeZones program, has increased the safety of the traveling public and construction personnel in work zones by lowering speeds in work zones and raising public awareness. When the program began, seven percent of drivers in SafeZones enforced work zones exceeded the speed limit by 12 miles per hour (mph) or more. Today, only about one (1) driver out of 100 exceeds the speed limit by 12 mph or more, showing a near 90 percent reduction in the number of vehicles traveling 12 mph or more above the work zone speed limit. This five (5) year contract allows for two (2) one (1) year renewals.

On February 15, 2022, MDOT SHA found a third bidder not responsible and their proposal not reasonably susceptible of being selected for award. In response, the bidder submitted a formal protest on February 22, 2022. Subsequently, the consultant withdrew its formal protest.

Based on the combination of Technical Ranking and price, MDOT SHA has determined that the proposal submitted by Conduent State & Local Solutions, Inc. is both fair, reasonable, and the most advantageous to the State of Maryland.

**DEPARTMENT OF GENERAL SERVICES  
OFFICE OF STATE PROCUREMENT  
ACTION AGENDA  
June 22, 2022**

**REVISED**

**11-S. SERVICES CONTRACT (cont'd)**

**Requesting Agency Remarks:** The contracts to provide the administrative services to Maryland Energy Assistance Program (MEAP) and Energy Assistance Program and Electric Universal Service Program (EUSP) have historically been through a Request for Proposals (RFP), DHS has received limited competition when the solicitations have been issued. During the last solicitation cycle in 2015, the Department received only a single Proposal to provide these services in these jurisdictions. In the solicitation prior to the last RFP in 2010, a single Proposal was received for each of fourteen jurisdictions, and all ten offerors were incumbents. Office of Home Energy Programs (OHEP) has worked with these same Local Administering Agencies (LAAs) for over forty years, DHS has determined it is in the best interest of the State to enter into sole source contracts for each of these jurisdictions.

OHEP has been providing energy assistance benefits and services since 1979 to eligible low-income customers. LAAs provide local administrative services for MEAP and EUSP and the recording of applications for the Utility Service Protection Plan (USPP). In order to provide these administrative services, the LAAs are responsible for outreach activities, application intake, certification for benefits, payments processing, notification of eligibility determinations and appeals of benefit amounts or benefit denial.

MBE and VSBE goals were not established for these contracts as there have historically been no subcontracting opportunities.

**13-S. SERVICES CONTRACT  
*State Retirement Agency, Internal Audit Division***

**Contract ID:** Internal Audit Services; SRA 22-02  
ADPICS No.: G20B2600007

**Contract Description:** Internal audit services to evaluate and improve the effectiveness of the organization's risk management, control, and governance process. This includes providing expertise in critical areas through guidance and augmenting existing Internal Audit staff, and fully conducting audits.

**Award:** UHY Advisors Mid-Atlantic, Inc.; Columbia, MD

**Contract Term:** 07/01/2022 - 06/31/2027 (w/two 1-year renewal options)

**Amount:** \$3,400,000 NTE (Base, 5-years)  
\$ 710,000 NTE (Renewal Option #1, 1-year)  
\$ 720,000 NTE (Renewal Option #2, 1-year)  
\$4,830,000 NTE Total

**Procurement Method:** Competitive Sealed Proposals

**Proposals:**

<i>Offerors</i>	<i>Technical Rankings</i>	<i>Financial Offers (Rankings)</i>	<i>Overall Ranking</i>
UHY Advisors Mid-Atlantic; Columbia, MD	1	\$4,830,000 (2)	1
Schneider Downs & Co., Inc.; Pittsburgh, PA	2	\$5,370,000 (3)	2

**DEPARTMENT OF GENERAL SERVICES  
OFFICE OF STATE PROCUREMENT  
ACTION AGENDA  
June 22, 2022**

**13-S. SERVICES CONTRACT (cont'd)**

**Requesting Agency Remarks:** A notice of availability of a Request for Proposals (RFP) was posted on *eMaryland Marketplace Advantage (eMMA)* on October 1, 2021 and eight firms received direct solicitation. Two proposals were received on November 1, 2021.

The State Retirement Agency has determined that the proposal from UHY Advisors Mid-Atlantic, Inc. is most advantageous to the State. Their technical proposal clearly demonstrated an understanding of the requirements for the internal audit engagements outlined in the RFP. They are a global provider, boasting exceptional service, and are part of one of the largest accounting, tax, and consulting networks in the world. UHY Advisors Mid-Atlantic, Inc.'s technical ranking was far superior to the vendor with the lowest financial bid, and their financial bid was second lowest.

This contract is the first attempt by the agency to combine most of its auditing requirements under one multi-year contract umbrella. This approach will ensure that access to these critical services is timely, and it will relieve the burden of having to procure each of these services separately for the next several years.

**14-S. SERVICES CONTRACT  
*RETROACTIVE - Department of Education***

**Contract ID:** Hosted Online Courses for Juvenile Services Education System;  
R00P1602006/R00P2602989  
ADPICS No.: R00P1602006/R00P2602989

**Contract Description:** *RETROACTIVE* approval to provide a blended learning model of courses and associated live teaching support to include credit recovery and original credit for students in grades 6 -12 residing in Juvenile Services residential facilities.

**Award:** Apex Learning, Inc.; Seattle, WA

**Contract Term:** 08/15/2021 - 06/22/2022 (**Retroactive**)  
06/23/2022 - 08/14/2023 (Proactive)

**Amount:** \$ 66,000 (**Retroactive**)  
\$ 64,600 (Proactive)  
\$130,600 Total

**Procurement Method:** Sole Source

**MBE/VSBE Participation:** N/A / N/A

**Performance Security:** N/A

**Incumbent:** Same

**Requesting Agency Remarks:** The Juvenile Services Education System (JSES) provides students residing in Department of Juvenile Services (DJS) residential facilities located across Maryland with daily instructional programming and services. Students enrolled in JSES are provided instruction in all core content areas as well as access to designated career technology educational courses comparable to those offered in the other 24 local school systems within Maryland. JSES functions as the local school system for these students and services to ensure optimal educational access. Opportunities are tailored for each student in order to promote their effective and positive transition to home community and school from DJS facilities.

This contract supports credit recovery and original credit for students in grades 6 -12 residing in DJS facilities. Students in JSES are under-credited and many are over-aged; providing students with credit recovery options allows them an opportunity to make progress toward graduation.

**DEPARTMENT OF GENERAL SERVICES  
OFFICE OF STATE PROCUREMENT  
ACTION AGENDA  
June 22, 2022**

**14-S. SERVICES CONTRACT (cont'd)**

***Agency Remarks (cont'd):***

MSDE JSES is satisfied with Apex Learning's performance. Not having this contract in place is detrimental to the education of the JSES students and could potentially cause a disruption to the curriculum.

MSDE has taken steps to ensure this does not happen in the future by reorganizing the entire procurement staff, putting contract management tools in place to prevent any lapses in contracts. In addition, strengthening relationships with MSDE programs will ensure they begin the procurement process early enough and allow time for any approvals required.

MSDE compared the pricing to the previous contract, and it was historically consistent with the current pricing. MSDE determined that this price analysis based on historical price meets the criteria for fair and reasonable pricing. The Department of Juvenile Services will be taking over MSDE's JSES division at the beginning of fiscal year 2023 and this sole source contract will help the division to transfer contracts to DJS.

***DGS OSP Remarks: RETROACTIVE*** approval requested pursuant to § 11-204(c) State Finance & Procurement Article. DGS OSP has determined that this contract should be treated as voidable rather than void because: (1) all parties have acted in good faith; (2) ratification for the procurement contract would not undermine the purposes of the Procurement Law; and (3) the violation, or series of violations, was insignificant or otherwise did not prevent substantial compliance with the Procurement Law.

**15-S-OPT. SERVICES OPTION (cont'd)**

**MBE/VSBE Compliance:** N/A / N/A

**Performance Security:** N/A

**Requesting Agency Remarks:** There are approximately 4,300 children in foster care in Maryland. Almost half of these children, approximately 1,800 are in Baltimore City and on average, 70 new children enter foster care each month in Baltimore City. The Baltimore City Department of Social Services (BCDSS) uses One-on-One Support Services when a child requires a higher level of supervision and other services are not available.

In addition to providing supplemental supervision, One-On-One Services may include crisis de-escalation and/or engaging youth in safe, purposeful, and age-appropriate educational, artistic, athletic, recreational or vocational activities when a youth's emotional or behavioral needs prevent them from doing so alone.

It is in the best interest of the State to exercise the sole renewal option to this contract to provide continuity of care to foster children. A new solicitation that currently has been drafted.

**16-S-MOD. SERVICES MODIFICATION**

***Department of Budget and Management, Fleet Management Office***

**Contract ID:** Maintenance, Repair and Accident Management Program for State-Owned Vehicles; 050B6400003  
ADPICS No.: COJ58452

**Contract Approved:** DBM 4-S, 09/07/2016

**Contract Description:** Statewide vehicle maintenance and repair services via a network of local vendors for State-owned cars, light trucks, vans, and medium and heavy-duty trucks not covered by in-house maintenance and repair facilities. The contract also provides an accident management program to manage reporting and repair of all vehicle accidents and vandalism claims by participating State agencies.

**Modification Description:** Add additional funds and extend the contract and allow time to conduct a new procurement.

**Award:** Element Fleet Corporation; Sparks, MD  
(Formerly Element Vehicle Management Services, LLC)

**Original Contract Term:** 10/01/2016 - 09/30/2021

**Modification Term:** 07/07/2022\* - 03/30/2023 (\*Or earlier upon BPW approval)

**Original Amount:** \$77,500,000

**Modification Amount:** \$22,000,000

**Prior Options/Mods:** \$0 (Mod #1, Clarified scope of work, Delegated Authority -DBM, 09/12/2017)  
\$0 (Mod #2, Contract assignment and novation, Delegated Authority - DBM 06/07/2018)  
\$15,000,000 (Mod #3, Extension 10/01/2021 - 09/30/2022 DGS 40-S, 09/01/2021)

**Total Contract Amount:** \$114,500,000

**16-S-MOD. SERVICES MODIFICATION (cont'd)**

**Original Procurement Method:** Competitive Sealed Proposals

**MBE/VSBE Participation:** N/A / N/A

**MBE/VSBE Compliance:** N/A / N/A

**Performance Security:** N/A

**Requesting Agency Remarks:** Vehicle maintenance and repair services are common, the vehicle maintenance and accident repair management services required through this contract are unique and highly specialized to provide the State with a management contractor to oversee all conventional maintenance, repairs, glass replacement through a standardized pricing agreement with a national glass replacement vendor, preventative maintenance through a monitoring system for all original equipment manufacturer recalls, provide maintenance experts through a centralized technical support center to review, and approve maintenance and repair services 24/7/365 (including a toll free number). Additionally, this contract provides emergency road services 24/7/365 for vehicle towing and transportation for State personnel from the accident or breakdown site to a safe and appropriate location. These centralized services ensure the States fleet is safe and operational and costs for maintenance and repair services are reasonable and appropriate. Therefore, continuation of these services while the State conducts a new procurement and awards a contract are essential.

This procurement was delayed, in large part, due to the pandemic and the ability to fully engage with vendors. The new solicitation has been created and is currently advertised.

**MBE/VSBE Participation:** N/A / N/A

**DEPARTMENT OF GENERAL SERVICES  
OFFICE OF STATE PROCUREMENT  
ACTION AGENDA  
June 22, 2022**

**17-S-MOD. SERVICES MODIFICATION (cont'd)**

**Requesting Agency Remarks:** The extension is necessary due to the ongoing need for the contractor's subject matter expertise to fully implement the Statewide Fuel Delivery and Maintenance Services Contract. The original contract was needed to provide guidance and recommendations for the transition to Maryland's new fuel contractor. DGS is pleased with the services provided by the contractor and has determined that based on the current progress of the transition, consulting service that additional time will be needed to complete the successful implementation of the contract.

DGS is extending this contract rather than doing a new competitive procurement because some of the transition activities that the consultant was intended to provide guidance on have taken longer than expected, such as the full implementation of the customer portal and the fuel site inspections. It is a continuation of the services that have been provided over the initial five-month term, so a new contractor could not be expected to come and be expected to be fully up-to-speed. The consultant was also involved in the RFP development process and have unique knowledge about the State fuel program and its needs.

**MBE/VSBE Participation:** 19% / N/A

**MBE/VSBE Compliance:** 19% / N/A

**Performance Security:** N/A

**Requesting Agency Remarks:** On March 20, 2019, DHCD awarded a three-year contract to Karen H. Belinko Appraisals, LLC, following a competitive procurement. On October 29, 2020, DHCD executed a modification to increase the total allowable compensation of the contract by \$75,000. On November 2, 2021, DHCD executed another modification to increase the total allowable compensation of the contract by another \$60,000. These increases were necessary to respond to HUD guidance that increased DHCD's required use of a Certified General Appraiser to review rent comparability studies in connection with the Department's Performance-Based Contract.

To comply with HUD guidance, DHCD had to re-evaluate and certify several appraisals previously reviewed by DHCD staff, resulting in a substantial increase in required appraisal services beyond the original expectations of the contract. Neither of these modifications altered the scope of the services to be provided under the contract [...]. On February 4, 2022, DHCD executed a third modification to extend the contract's expiration to January 28, 2023 to allow additional time to complete a new procurement. Due to a procedural oversight, DHCD neglected to seek BPW approval for the first and second modifications, each exceeding the \$50,000 modification threshold outlined in BPW Advisory 1995-1.

**DEPARTMENT OF GENERAL SERVICES  
OFFICE OF STATE PROCUREMENT  
ACTION AGENDA  
June 22, 2022**

**REVISED**

**2<sup>nd</sup> Revision**

**18-S-MOD. SERVICES - MODIFICATION (cont'd)**

***Agency Remarks (cont'd):***

DHCD now seeks approval of another modification to increase the total allowable compensation on the contract by a further \$200,000 to cover the contract period extending to January 28, 2023, while a new procurement is conducted.

***DGS OSP Remarks: RETROACTIVE*** approval requested pursuant to § 11-204( c) State Finance & Procurement Article. DGS OSP has determined that this contract should be treated as voidable rather than void because: (1) all parties have acted in good faith; (2) ratification for the procurement contract would not undermine the purposes of the Procurement Law; and (3) the violation, or series of violations, was insignificant or otherwise did not prevent substantial compliance with the Procurement Law.

**19-S-MOD. SERVICES MODIFICATION (cont'd)**

**Performance Security:** N/A

**Requesting Agency Remarks:** This modification will allow the Department time to complete the competitive solicitation process and is necessary to continue to maintain services which specialize in providing post adoptive services to “transracial” families operating from a “non-disruption-focused” model utilizing staff with personal experience.

The Department requires service targeted to strengthen families where children are a different race than their parents. These transracial families, particularly the children, face another layer of challenge as they navigate daily life within their family culture while also living in a broader society with racial bias.

The Contractor is fulfilling the requirements to this Contract which include monthly transracial adoption support groups, crisis intervention services to families and clinical case management to families.

**DEPARTMENT OF GENERAL SERVICES  
OFFICE OF STATE PROCUREMENT  
ACTION AGENDA  
June 22, 2022**

**20-S-MOD. SERVICES MODIFICATION (cont'd)**

**Requesting Agency Remarks:** This modification will allow the Department time to complete the competitive solicitation process. In 15 years, none of the 350 families who received services experienced an adoption dissolution during their time in treatment. Prior to the Center for Adoption Support and Education (C.A.S.E.) contract, the Department was struggling with high rates of dissolution and children re-entering the system. They have successfully delivered telehealth services through the pandemic. C.A.S.E.'s current office locations in Baltimore, Montgomery and Prince George's counties are well positioned to serve more than 63.3% of the target population. They plan to open two additional office locations to better serve Frederick and Carroll counties and Baltimore City, increasing ease of access for face-to-face therapy to approximately 71.8% of the target population.

The contractor provides post-adoption services to the Department which includes intake assessments, individual and family psychotherapy, and caregiver support groups. The Contractor is meeting all performance measures related to the Contract.

**21-S-MOD. SERVICES MODIFICATION (cont'd)**

**Performance Security:** N/A

**Requesting Agency Remarks:** This one-time contract involves services for the move, storage, and return of the Patterson Collection of furnishings, artwork, and memorabilia, which is normally housed at the historic Patterson House at Jefferson Patterson Park & Museum in St Leonard, MD. The Patterson House is currently the subject of a State-funded capital project to rehabilitate the interior and exterior for continued use as a museum. The Patterson Collection was removed in 2019 in anticipation of the start of construction. The revised construction schedule shows the start of construction in June 2022 and completion in July 2024. An extension is necessary for the storage of the collection through the duration of construction and return of the collection.

If this modification is not approved the agency would need to procure vendor services to pack the Patterson Collection and move it out of the current vendor's storage facility at a considerable additional cost. It was intended that the collection remain at one storage facility until it could be returned to the completed Patterson House. The collection cannot be returned to JPPM until the Patterson House capital project is completed because there is no appropriate or available location on-site to store it. Also, it is desirable to avoid moving the collection more times than necessary, or to repeatedly change their storage conditions, since many objects are fragile and valuable.

Digitally signed by John T. Gontrum  
Date: 2022.09.16 14:36:55 -04'00'

John Gontrum, Esq.  
Secretary to the Board of Public Works  
Louis L. Goldstein Treasury Building, Room 117  
Annapolis, Maryland 21401-1991

SUBJECT: Record Correction – June 22, 2022 Board of Public Works Action Agenda, Item 22-S-MOD

Dear Mr. Gontrum:

This is to advise you of the following change to the Board of Public Works Action Agenda Item previously approved by the Board of Public Works:

**BPW – June 22, 2022 DGS 22-S-MOD**

Pharmacy Benefits Plan Management Services and Purchasing Pool Management

FROM: ADPICS No. COJ 58417  
TO: ADPICS Nos. F10B3600003 / F10B3600004 / F10B3600005

Reason: Clerical Error. Three (3) BPO's are necessary for this action due to (a) ADPICS' 9 digit/character limitation [e.g. \$999,999,999 is the limit] and (b) the contract requires the contractor to return all rebate funds to DBM. In turn DBM adds the rebate amounts back to the respective BPO. The modification amount is for \$178,544,114. Although the amount does not exceed the 9-character limit and could have been entered on ADPICS No. COJ 58417, it was determined that additional BPOs were needed to account for future rebate amounts which would be added back to the contract/BPO. Accordingly, F10B3600003, F10B3600004, and F10B3600005 have been created in order to split the \$178,544,114 modification amount AND allow enough room for the addition of any future rebate amounts to the contract/BPO upon receipt.

Sincerely,

A digital signature for Yasin Mohammed, written in a cursive black font on a white background.

Yasin Mohammed

OFFICE OF STATE PROCUREMENT  
ACTION AGENDA  
June 22, 2022**

**22-S-MOD. SERVICES MODIFICATION (cont'd)**

**Prior Mods/Options:**

- \$ 0 (Mod #1: Administrative update for payment processing; Delegated Authority - DBM approval, 02/13/2018)
- \$ 0 (Mod #2: Revised reporting requirement response time and added MBE subcontractor: Delegated Authority - DBM approval, 06/25/2018)
- \$204,619,773 (Mod #3: Added one year to Functional Area 2, the Employer Group Waiver Plan: BPW approval DBM 9-S-MOD, 09/04/2019)
- \$ 4,185,000 (Mod #4: Added diabetes care program; DG 29-S-MOD, 01/08/2020)
- \$ 971,000 (Mod #5: Reduce pricing in response to annual market check contract provision: BPW approval DGS 29-S-MOD 01/02/2020)
- \$506,705,991 (Renewal #1: Exercise first 2-year renewal option: DGS 13-S-OPT, 06/03/2020)
- \$ 0 (Mod #6: Added the Vaccine Program: Delegated Authority - DBM approval, 09/28/2020)
- \$0 (Mod #7: Revised end date of Functional Area 2: DGS 28-S-MOD 11/18/2020)
- \$314,385,812 (Mod #8: Addition of Funds to Functional Area 1: DGS 28-S-MOD, 11/18/2020)

**Original Procurement Method:** Competitive Sealed Proposals

**MBE/VSBE Participation:** 5% / 1%

**MBE/VSBE Compliance:** 3.05% / .02%

**Requesting Agency Remarks:** The annual market check is performed to ensure the contractor's pricing as provided in the contract remains current considering market pricing fluctuations.

In addition, request to modify the contract to add additional funding to Functional Area 1, Commercial and State of Maryland Rx Purchasing Pool to include extending Transform Diabetes Care due to increased spend of over 7.5% due to inflation, utilization, and drug mix. Add one additional year to Functional Area 2, the Employer Group Waiver Plan (EGWP) for State retirees who would otherwise need to enroll in Medicare Part D. The EGWP portion, or Functional Area 2, of the Pharmacy Benefits Plan Management Services and Purchasing Pool Management Contract was scheduled to end on December 31, 2021, after a one-year extension of Option 1 was previously approved. This modification will add a fifth contract year to EGWP extending the plan through December 31, 2022, as required by recent legislative changes.

**DEPARTMENT OF GENERAL SERVICES  
OFFICE OF STATE PROCUREMENT  
ACTION AGENDA  
June 22, 2022**

**22-S-MOD. SERVICES MODIFICATION (cont'd)**

***Agency Remarks (cont'd):***

The statutory change to eliminate prescription drug benefits for retirees resulted in litigation filed in September 2018. Additional statutory changes to the retirees' benefits design under Senate Bill 946, enacted on May 25, 2019, is on hold. To date, there is no final disposition for said litigation. As such, the Department believes it is in the best interest of the State to add one additional year from 1/1/2022 – 12/31/2022 for Functional Area 2, the EGWP.

The Contractor is performing both Functional Area 1 and Functional Area 2 services to the Department's satisfaction.

The retroactivity is due to the Department's in waiting for the final disposition in the litigation and the completion of a comprehensive review to determine the additional funding needed. The overarching financial analysis led to a focused review of subsidies; the need to clarify the interpretation of the language for processing subsidies, further delaying the submission. The review concluded that all subsidies were not fully accounted for in the calculation of the "net value" of this contract.

***DGS OSP Remarks: RETROACTIVE*** approval requested pursuant to § 11-204( c) State Finance & Procurement Article. DGS OSP has determined that this contract should be treated as voidable rather than void because: (1) all parties have acted in good faith; (2) ratification for the procurement contract would not undermine the purposes of the Procurement Law; and (3) the violation, or series of violations, was insignificant or otherwise did not prevent substantial compliance with the Procurement Law.

**Requesting Agency Remarks:** In 2010 MIEMSS purchased a non-exclusive, royalty-free, irrevocable and perpetual license to use the vendor's EMS Data Collection and Reporting System, known Maryland as eMEDS<sup>®</sup>, a federally registered service mark owned by the State.

The license permits Maryland EMS services to use eMEDS<sup>®</sup> at no cost. All Maryland jurisdictional EMS operational programs (EMSOPs) including the Maryland State Police Medevacs, and most licensed commercial ambulance services submit patient care reports directly into eMEDS<sup>®</sup>.

**DEPARTMENT OF GENERAL SERVICES  
OFFICE OF STATE PROCUREMENT  
ACTION AGENDA  
June 22, 2022**

**24-IT      INFORMATION TECHNOLOGY (cont'd)**

***Agency Remarks (cont'd):***

In May of 2012, MIEMSS purchased ImageTrend's License Management System known as eLicensure. This replaced the agency's antiquated, paper-based system that was used to track all Maryland EMS Clinician's certifications, training records, and affiliations. The eLicensure system provides an electronic records management system supporting the license and certification of all Maryland's EMS Clinicians and enhances the ability to communicate electronically to clinicians across all EMSOPs.

MIEMSS has determined the price to be fair and reasonable based on comparisons to amounts paid by other nearby jurisdictions. Until April 2015, the Montgomery County Fire and Rescue Service in Maryland used a third-party commercial solution for their electronic patient care reporting system. Montgomery County paid an annual fee of \$192,280 for software support, maintenance, upgrades and hosting. Over eight years, not including inflationary or vendor cost increases, the cost to Montgomery County alone would be \$1,538,240. Based on their FY21 submission of approximately 77,000 patient care reports (PCRs), the county would be paying, up to, approximately \$2.50 per PCR. Maryland has four counties submitting more PCRs than Montgomery County.

ImageTrend, Inc is the sole developer and owner of the proprietary software application and the sole provider of the software maintenance, support, upgrades and hosting reliability needed for this statewide electronic patient care reporting system. Last year there were over one million emergency patient care records generated.

ACTION AGENDA  
June 22, 2022**

**25-IT      INFORMATION TECHNOLOGY (cont'd)**

**Requesting Agency Remarks:** Interagency Commission on School Construction (IAC) currently uses email and an outdated version of Microsoft Sharepoint to manage the workflows and documents associated with approximately 200 school construction projects and funding requests annually and administering State capital funds that in FY 2023 will total about \$1.2 billion. The proposed Business-Management System (BMS) will be the heart of the Integrated Master Facilities Asset Library (IMFAL) and will enable tracking, provide dashboards, and reports that greatly increase accountability.

BMS will connect the IAC with local education agencies (LEAs), other State agencies, and an unlimited number of LEA and State vendors participating in school construction projects, including design firms, builders, and MBE enterprises. The selected solution is designed for managing complex facilities portfolios and construction projects and is used with success for this purpose by a number of public institutions in Maryland, including the University of Maryland, Anne Arundel County, and the Washington Suburban Sanitary Commission.

The work of the IAC has grown from grant management to supporting local education agencies (LEAs) in their conception-to-disposal management of school facilities, which requires fully-electronic submissions from LEAs, vendors, and other agencies, real-time accountability, and project and process reporting.

**Procurement Method:** Sole Source

**Living Wage Eligible:** Yes

**MBE/VSBE Participation:** N/A / N/A

**Performance Security:** N/A

**Incumbents:** Same

**Requesting Agency Remarks:** The Debt Manager system was established in 2018 and is critical software used by the Central Collection Unit (CCU) to manage debt collection operations for the State. Debt Manager is a commercially available software system that has been customized to meet the specific requirements of the CCU. Jonas Collections and Recovery Inc. is the sole proprietorship to sell the software and services.

The pricing has been determined to be fair and reasonable; it has a cost escalation of 3% per year. This is consistent with other software purchases such as CCU's cashiering system, Professional Consultancy International Revenue Collection System. Based on research a 3% annual increase is consistent with current market trends for software.

**Performance Security:** Yes

**Requesting Agency Remarks:** COMPASS is used for issuing park passes, recreational hunting and fishing licenses, commercial fishing licenses, and vessel registrations and titles. It is a complex customer service application that allows for credit card payments, titling and licensing, and customer fulfillment. The estimated revenue generated for the State is approximately \$50 million annually. COMPASS is required to serve the citizens of Maryland with a convenient online ordering system for State-provided outdoor recreational opportunities. DNR and DoIT have begun planning discussions for future years' application options.

DGS 46-IT-MOD, 05/19/2021)

***Total Contract Amount:*** \$272,921,940

***Percent +/- (This Item):*** 3.03%

***Total Percent -/- Change:*** 117.69%

***Original Procurement Method:*** Competitive Sealed Proposals

***MBE/VSBE Participation:*** 26% / N/A

***MBE/VSBE Compliance:*** 28% / N/A

***Performance Security:*** Yes

***Hiring Agreement Eligible:*** Yes

***Requesting Agency Remarks:*** The extension is necessary to maintain the legacy Child Support Enforcement System (CSES) and linked-Client Information System (CIS) data systems while development and deployment of the new Child Support Management System (CSMS), the modern replacement for CSES, is completed. Statewide deployment of CSMS will allow DHS to complete the decommissioning of all legacy applications and the termination of these services.

When DHS sought the prior extension in the Spring of 2021, it was anticipated that development and deployment of the new Child Support Management System (CSMS) would be completed in the first quarter of calendar year 2022, which would then allow for the orderly decommissioning of the legacy applications and the termination of these contracts. However, during the pilot phase of CSMS, issues with system functionality were identified that required resolution before CSMS could be deployed statewide. Due to the complexity of the application and the potential negative impact on customers from any system issues, a more gradual and conservative deployment schedule has been adopted. These issues have now been resolved, the rollout has resumed, and the system is anticipated to be deployed statewide by early Fall 2022. All other new MD THINK applications for DHS have been fully deployed statewide.

**DEPARTMENT OF GENERAL SERVICES  
OFFICE OF STATE PROCUREMENT  
ACTION AGENDA  
June 22, 2022**

**28-IT-MOD. INFORMATION TECHNOLOGY MODIFICATION (cont'd)**

***Agency Remarks (cont'd):***

Until the CSMS deployment is complete, it is necessary to maintain the legacy application hosting and support, as the legacy application (Child Support Enforcement System, or "CSES") continues to support the Child Support Administration programs in those counties that have not yet migrated to CSMS. All decommissioning work that is not contingent on the migration to CSMS is on target for completion by the end of June 2022.

**2.1    *Contract ID:***                    Maryland Historical Trust Jefferson Patterson Park and Museum  
Patterson Center Renovations; *HT-021-090-001 (cont'd)*

***Agency Remarks:***        The archaeologist has been conducting excavations in areas where ground disturbance is scheduled to take place during the Patterson Center capital project. The archaeologist will also need to be present on-site during all construction activities in the yard at the Patterson Center (geothermal heating field, burial of other utility lines, and changes to roads and parking areas around the Center), to monitor for and mitigate any unexpected historical remains uncovered during that work. The archaeologist will also clean, label, and catalog all artifacts recovered during the project, and write a report on the findings.

The Department of Planning is requesting approval for the entire project, which exceeds currently available funding. After the 2022 MCCBL become effective, The Department will return to the Board to authorize funding pursuant to such authorizations. Until then, the Department will only authorize work that does not exceed currently available funds.

**33-RP.            REAL PROPERTY**

***Department of Agriculture, Maryland Agricultural Land Preservation Foundation (MALPF) and Agricultural Land Preservation Easements (Various Properties)***

**Reference:**            Approval is requested for the Maryland Agricultural Land Preservation Foundation, Department of Agriculture, to accept option contracts for the purchase of agricultural preservation easements on the following properties. All purchases outlined below have been reviewed and approved by the MALPF Board

**Special Conditions:** Grantor relinquishes all rights to develop or subdivide the land for industrial, commercial, or residential use. Land shall be preserved solely for agricultural use in accordance with provisions of the Agricultural Article. No commercial signs or bill boards are permitted, and there shall be no dumping on land except as is necessary to normal farming operations. Grantor shall manage the property in accordance with sound agricultural practices. Grantee shall have the right to enter land for inspection. No public rights are granted. The term of these easements shall be in perpetuity pursuant to Agriculture Article Section 2-514.1.

A)        As to items 1 through 13, pursuant and subject to the provisions of Agriculture Article Section 2-513, Grantor has elected to reserve the right to apply for release of a lot to convey to himself or his children for the purpose of constructing a dwelling for personal use as follows: one lot of one acre or less if the subject property is at least 20 acres, but less than 70 acres, two lots of one acre or less if the subject property is at least 70 acres, but less than 120 acres, or three lots of one acre or less if the subject property is 120 acres or more.

B)        As to items 14 through 22, pursuant and subject to the provisions of Agriculture Article Section 2-513, Grantor has elected to reserve to himself, and his assigns, the right to apply for release of one unrestricted lot, that may be conveyed to himself or others. Note that as to Items 15, 18 and 19, the unrestricted lot will be a building envelope that will not be subdivided from the farm.

C)        As to items 23 through 33, the Grantor is waiving the right to request any additional lots.

<i>TA Less Unpaid Acres and Dwellings:</i>	<b>3,509.1193</b>
<i>Average Price per Paid Acre:</i>	<b>\$5,137.25</b>

**Remarks:**

1. The Department of Agriculture recommends acceptance of these contracts.
2. The Department of General Services has reviewed the appraisals and has recommended that each appraisal "a." listed above be the fair market value of the land on which the easement is to be acquired.
3. Pursuant to Agriculture Article 2-511(e), the purchase price of each easement may not exceed 75% of the fair market value, or the owner’s asking price, whichever is less.
4. Items 13 and 31, marked with a “^” are “insufficient funds offers”. The Option Contracts for the insufficient offers specify that if additional funds become available during the due diligence period, the offer will increase to 75% of the fair market value, or the asking price, whichever is less. Any increase in purchase price will be subject to Board of Public Works approval.

**34-RP.        REAL PROPERTY**  
***Department of Agriculture***  
 File # 15-80-02  
 Montgomery County

***Recommendation:***    Approve a release of ±10.0736 acres of land from the operation and effect of the existing agricultural preservation easement in exchange for ±10.0736 acres of contiguous land to be added to the existing agricultural preservation easement area by amending the Easement.

***Releasor:***                The State of Maryland, to the use of the Maryland Agricultural Land Preservation Foundation of the Department of Agriculture

***Releasee:***                Eric C. Des. Spates

***Property:***                ±10.0736 acres

***Grantor:***                 Eric C. Des. Spates

***Grantee:***                 The State of Maryland, to the use of the Department of Agriculture on behalf of the Maryland Agricultural Land Preservation Foundation

***Property:***                ±10.0736 acres

***Consideration:***        No Monetary Consideration

***Remarks:*** Approval was given to the Maryland Agricultural Land Preservation Foundation (hereinafter, "MALPF") to acquire an agricultural preservation easement on ±298.46 acres of land for \$293,490.26. Purchase of the easement was completed on October 6, 1982.

Board of Public Works Approval is requested to grant a release wherein the State of Maryland, to the use of MALPF, will release a ±10.0736-acre area of land currently owned by Mr. Spates, from the operation and effect of the Easement in exchange for the addition of a ±10.0736-acre parcel from the neighboring property that is currently owned by Steven Kent Slaysman and Anna F. Slaysman which will be transferred to Mr. Spates. The land being added to the Easement is contiguous land of equal soils to the agricultural preservation area by amending the Easement. The current configuration of the two properties present challenges for the owners of both farms in terms of forest management and deer hunting allowances, thus, both landowners have agreed to the reconfiguration which will result in both farms being easier to manage.

**DEPARTMENT OF GENERAL SERVICES  
OFFICE OF STATE PROCUREMENT  
ACTION AGENDA  
June 22, 2022**

**34-RP.      REAL PROPERTY (cont'd)**

*Agency Remarks (cont'd):*

The Maryland Agricultural Land Preservation Foundation's Board of Trustees has approved the transaction. A survey depicting the exchange of land is attached hereto. The appraisal unit of the Department of General Services has found that the exchange will have a net neutral effect on the value of the existing easement. Costs associated with this exchange will be paid by Mr. Spates.

**35-RP.      REAL PROPERTY**  
***Department of General Services***  
***(File # 00-8630)***

***Recommendation:*** Transfer of property known as the William Donald Schaefer House, located on Druid Park Lake Drive

***Prior Board Action:*** DGS 26-RP-26, 12/02/2020

***Property:*** 907 Druid Park Lake Drive, Baltimore City, MD 21217 16,785 +/- sf. improved with 8,803 +/- sf. residential dwelling

909 Druid Park Lake Drive, Baltimore City, MD 21217 8,512 +/- sf. improved with 4,481 +/- sf. residential dwelling

***Grantor:*** The State of Maryland, to the use of the Maryland Department of Health (Juvenile Services)

***Grantee:*** 907 - 909 Druid Hill, LLC

***Background:*** The State acquired the properties in June 1973. The properties were used as a special residential treatment facility which addressed the needs of adolescent males who were adjudicated delinquents and had a history of chemical dependency and substance abuse. The property at 907 Druid Park Lake Drive, the main building was constructed in 1932, and was completely renovated, along with 909 Druid Park Drive, in March 1992. The property was declared surplus to the state per BPW Agenda 12/2/2020 as item number 26-RP. . **In June 2021, a Request for Bids was issued for the property via eMMA and advertised in The Daily Record. Two bids were received and after best and final offers, the bid amounts were \$703,000 (David Bramble) and \$734,000 (907-909 Druid Hill, LLC). The high bid of \$734,000 was accepted. This transfer is not subject to a Maryland Historical Trust (MHT) easement, as MHT has advised the properties are significant only as contributing resources to the historic district within which they are located. which will be recorded immediately after the deed of transfer.** Legislative notice was made for this disposal on 10/29/2021, in accordance with State Finance & Procurement 10-305.

***Bids Received:*** \$703,000 (Bramble)  
 \$734,000 (908-909 Druid Hill, LLC) (selected)

***Consideration:*** 907 Druid Park Lake Drive - \$489,333.33  
 909 Druid Park Lake Drive - \$244,666.67

**Remarks:**    On May 5, 2021, the Board of Public Works approved an emergency report for a short-term Warehouse Service's Agreement for storage space. The leased space continues to be needed for the storage of palletized personal protective equipment and medical equipment. There is a shortage of warehouse space in the Baltimore Metropolitan area. The amendment provides for an extension of the existing lease term under the same terms and conditions in the original warehouse services agreement.

**DEPARTMENT OF GENERAL SERVICES  
OFFICE OF STATE PROCUREMENT  
ACTION AGENDA  
June 22, 2022**

**REVISED**

**41-LT.      TENANT LEASE (cont'd)**

***Agency Remarks (cont'd):***

This space is offered at below market rates. In addition to use of the warehouse space, this agreement provides for reimbursement to Under Armour for warehouse labor services on a per hour basis as indicated.

This procurement qualified for the sole source procurement method for the following reasons: there is a very limited supply of warehouse space on the market with landlord's willing to lease to the State of Maryland for one year or less; the charges outlined for this space are below market rates; this is the only source available to house MDH's existing inventory for the term needed; and this procurement is in the best interest of the State of Maryland. It has been determined that this sole source procurement is in compliance with COMAR 21.05.05.02(A)(1).
