EXECUTIVE SUMMARY

The Annual Statewide Equal Employment Opportunity (EEO) report offers an informative overview of the State of Maryland's EEO program within the Executive Branch of the State government. The Annotated Code of Maryland State Personnel and Pensions Article, Title 5, Subtitle 2, charges the Office of the Statewide EEO Coordinator (OSEEOC), which is under the authority of the Secretary of Budget and Management (DBM), with administering and enforcing the State's EEO Program; ensuring compliance with the requirements of State and federal laws governing equal employment opportunity; promoting a work environment free of any unlawful discrimination, harassment and retaliation; and fostering a well-diversified workforce of Maryland State government employees and applicants.

This report was prepared by the OSEEOC and provides an analysis of statistical and demographic data for FY 2025 (July 1, 2024 – June 30, 2025). It also reflects the achievements and measures the progress toward equal opportunity in Maryland State government.

State Government Workforce Composition¹

In FY 2025, the Executive Branch of the State workforce was 55,631 full-time and part-time employees that totaled 44% male, and 56% female, with an additional 27 employees who identified as non-binary. The racial composition of the workforce consisted of 42.17% White, 45.40% African American, 3.02% Asian, 0.10% Native Hawaiian & Pacific Islander, 0.27% American Indian/Alaska Native, 2.23% Hispanic/Latino, 1.29% Multi-racial, and 5.52% who did not identify their race.

Employees ages 50-59 made up the largest share of the workforce at 25.87%. The next largest share of the workforce were employees ages 40-49, which made up 25.03%.

Women and minorities were well represented in State government, however disparities remained between genders and races with respect to their employment responsibilities and salaries. Maryland State government is designated into eight job categories. Women were underrepresented in specific job categories and were less likely than men to serve as Technicians (65% male vs. 35% female), Protective Service Workers: Sworn (89% male vs. 11% female), Protective Service Workers: Non-Sworn (61% male vs. 39% female), Skilled Craft Workers (95% male vs. 5% female), and Service Maintenance (64% male vs. 34% female). Women were more likely than men to serve as Officials and Administrators (55% female vs. 45% male), Professionals (68% female vs. 32% male) and Administrative Support (85% female vs. 15% male).

White employees held 56% of positions classified as Officials and Administrators, 44% classified as Professionals, 59% classified as Technicians, 67% classified as Protective Service Workers-Sworn and 58% classified as Skilled Craft Workers. African Americans, in contrast, held 64% of the Protective Service Workers-Non-Sworn, 55% Administrative Support and 74% Service Maintenance positions.

Participation data specifically from FY 2020 through FY 2025 reflects that there were fewer White males, White females and Minority males in State government than the Maryland Civilian Labor Force (CLF). Comparatively, in the same years, from FY 2020 through FY 2025 there were a greater number of Minority females in State government than the CLF.

Statewide Workforce Average Salaries by Race and Gender

The disparities in job categories contributed to the differences in salaries paid to men and women and whites and minorities. Male employees were paid an average of \$8,198 more than female employees in FY 2025, while Whites were paid an average of \$16,419 more than African Americans. In comparison, in FY 2020, male employees were paid an average of \$6,537 more than female employees, while Whites were paid an average of \$11,247 more than African Americans.

Statewide Personnel Transactions

Women received promotions at a rate close to their representation in the overall workforce and were reclassified at a higher rate than their representation in the workforce. Women represented 56% of the workforce, 57% of the promotions, and 61% of the reclassifications. In comparison, Minorities represented 52.31% of the workforce and accounted for 52% of the promotions and 52% of the reclassifications.

African Americans were overrepresented with respect to the rate of disciplinary terminations, 59% in FY 2025, an increase from 48% in FY 2020. The number of suspensions for African Americans has also increased from 51% in FY 2020 to 65% in FY 2025. The percentage of disciplinary demotions for African Americans has also increased from 45% in FY 2020 to 51% in FY 2025.

external complaints. The most common bases for the internal complaints were race, sex, disability and retaliation, compared to race and sex/gender in FY 2020.

Sexual harassment complaints decreased from 41 in FY 2020 to 27 in FY 2024. In FY 2025, they increased to 50.

Maryland Whistleblower Law Complaints

Maryland Whistleblower Law complaints increased in FY 2025 in comparison to FY 2020. In FY 2025, 14 whistleblower complaints were filed. This is an increase from FY 2020 when there were 12 whistleblower complaints filed.

FY 2025 OSEEOC Highlights

The Office of the Statewide EEO Coordinator persistently upheld its EEO commitment to our State government in FY 2025. With that said, during FY 2025, the OSEEOC engaged State agencies and the State's EEO professionals in several EEO program activities and helped agencies advance its efforts to ensure that their agency's EEO programs were compliant. The Office continued to prioritize compliance, as well as education and outreach.

To ensure compliance with State and federal EEO laws, policies and practices, the OSEEOC continued to conduct ongoing compliance audits to review and monitor the EEO programs in each State agency. The OSEEOC initiated four agency compliance audits in FY 2025 and concluded two, which included issuing closeout letters acknowledging the agencies full compliance, as well as recommendations for improving their EEO programs.

Furthermore, the OSEEOC provided ongoing guidance on EEO matters to agency EEO personnel and conducted appeal reviews of agency decisions.

The OSEEOC coordinated training and outreach activities to enhance the knowledge and skills of the State's EEO professionals. Specific activities included:

- Providing guidance, technical assistance and strategic planning resources to agency Fair Practices Officers, EEO Officers, Americans with Disabilities Act (ADA) Coordinators and other agency officials and employees.
- Quarterly training on topics specific to EEO laws, policies, procedures and best practices for Fair Practices Officers and EEO Officers.
- Ongoing guidance and training to ADA Coordinators.
- Continuation of the EEO Connection Newsletter, which is a quarterly publication that includes EEO law updates, legislative updates, noteworthy court rulings, a diversity corner, community awareness information and frequently asked questions and answers.
- Collaboration with the Maryland Commission on Civil Rights (MCCR) to ensure representatives from State agencies receive the required sexual harassment prevention training to qualify to facilitate and implement the training. All state employees are required to complete sexual harassment training within 6 months of their employment and every 2 years thereafter.

State government agencies have continued to demonstrate a commitment to equal employment opportunity for job applicants and state government employees. During the 2025 fiscal year, the OSEEOC observed this commitment through actions by leadership, management, and EEO professionals. They ensured compliance with applicable federal laws, as well as state civil rights laws and state government policies and procedures.

INTRODUCTION

Maryland State Government has an Equal Employment Opportunity Program, which is under the authority of the Secretary of the Department of Budget and Management (herein "Secretary"). The Secretary administers the Equal Employment Opportunity Program in compliance with applicable State and federal laws; adopts regulations, policies, and directives to implement the program; evaluates the equal employment efforts in each unit of the program; takes any action necessary and permitted by law to enforce the program requirements; and annually reports on the program to the Governor. Copies of the Annual Statewide EEO report must be provided to each department and unit, the General Assembly, and the Maryland Commission on Civil Rights (MCCR).

The Office of the Statewide EEO Coordinator (OSEEOC) is a unit within the Department of Budget and Management led by the Statewide EEO Coordinator, under the authority of the Secretary. The Statewide EEO Coordinator is also responsible for enforcing the statewide EEO program.

The purpose of the EEO program is to ensure a system that provides equal employment opportunity for all based on merit and fitness. Eligibility for the program is extended to employees and job applicants for positions in the Executive Branch of the State government, including a unit with an independent personnel system. Eligibility extends to those employees in skilled service, professional service, and management services positions of the State Personnel Management System or a comparable position in an independent personnel system in the Executive Branch of State government.

It is the policy of Maryland State Government to prohibit discrimination in any personnel action concerning any

employee or job applicant for employment based on age, ancestry, color, creed, genetic information, gender identity and expression, marital status, military status, mental or physical disability, national origin, race, religious affiliation, belief or opinion, sex, or sexual orientation. The Maryland State Government is committed to providing a work environment free from discrimination, harassment and retaliation.

The Annual Statewide EEO report includes information specific to the Maryland State government Executive branch workforce, specifically statistics and rankings that compare minority group State employees to all State employees in the various job categories by race, sex, and age. It also includes a summary of the appointments, promotions, demotions, suspensions, involuntary disciplinary terminations, and rejections on probation by race, sex and age, as well as the number of EEO complaints and Maryland Whistleblower Law complaints filed. This report also provides trend analyses of key EEO indicators and helps statewide EEO professionals, leadership, management and stakeholders with monitoring state governmentwide EEO activity and provides benchmarks for accurately assessing agencies' performance. This report can be used as a tool to work proactively to anticipate challenges and implement appropriate corrections.

Lastly, this report aims to educate readers on Maryland State government's Equal Employment Opportunity program and promote awareness of the accomplishments, challenges, and work that is done to enforce compliance, ensure accountability, and continue to prioritize recruiting and retaining a diverse workforce that is inclusive and equitable.

STATE GOVERNMENT WORKFORCE COMPOSITION

Equal opportunity to participate and advance in the State government workforce is critical to achieving the Maryland State government's priority of becoming a model employer. This section of the report details workforce composition rates in the Executive Branch of the State government, including units with independent personnel systems by gender, race, age, and EEO job category. In addition, there are comparisons of overall participation rates in the eight-state government EEO job categories to their availability in the civilian labor force, which provides the opportunity to further evaluate progress toward equal opportunity. While some EEO job categories show improvement with an increase in participation of minorities and females, there is work that must continue to be done to improve the diversity of the workforce overall in comparison to the availability of the civilian labor force.

Participation in the Maryland State government workforce by Gender, Race and Age:

In FY 2025, the Executive Branch of the State workforce was comprised 55,631 full-time and part-time employees that totaled 44% male, and 56% female. There was also a total of 27 employees that identified as non-binary. The workforce composition data from FY 2020 through FY 2025 show that female employment rates maintained the trend of being higher than males and non-binary individuals.

Summary Highlights

- The total number of internal and external EEO complaints statewide for FY 2025 was 726. Of these, 560 were internal complaints and 166 external complaints.

- The number of internal EEO complaints filed with the principal unit's EEO Offices has increased to 560 (77%) for FY 2025, compared to 255 (64%) for FY 2020. This is a positive indication of an employee's willingness to participate in the internal EEO process to resolve matters at the lowest level.
- The number of external EEO complaints filed with agencies such as the Maryland Commission on Civil Rights and U.S. Equal Employment Opportunity Commission has increased slightly from 144 in FY 2020 to 166 in FY 2025.

MARYLAND WHISTLEBLOWER LAW COMPLAINTS

This section summarizes Maryland Whistleblower Law complaints filed statewide for FY 2025. This data was compiled from the Office of the Statewide EEO Coordinator (OSEEOC).

The Maryland Whistleblower Law, as stated in the State Personnel and Pensions, Article Title 5-301 – 5-314, applies to all employees and job applicants for positions in the Executive Branch of State government, including a unit with an independent personnel system. This law requires that a supervisor, appointing authority, or the head of a principal unit not take or refuse to take any personnel action as a reprisal against an employee who discloses information that they reasonably believe evidence: an abuse of authority, gross mismanagement, or gross waste of money; a substantial and specific danger to public health or safety; or a violation of the law.

An employee and job applicant eligible to file a Maryland Whistleblower Law complaint must do so within 6 months after they first knew of or reasonably should have known of the violation. The OSEEOC is responsible for enforcing this law. The OSEEOC is responsible for conducting investigations within 60 days after a complaint is received to determine whether a violation of SPP 5-305 occurred. Once the investigation is concluded, the Department of Budget and Management Secretary or designee (OSEEOC) will issue the complainant and the head of the principal unit a written decision that includes any remedial action taken. If it is determined that no violation has occurred, the Secretary or designee shall dismiss the complaint.

A complainant may appeal to the Office of Administrative Hearings within 10 days after receiving a decision under SPP 5-309 or when a decision is not issued within 60 days after the complaint is filed and the complainant requests a hearing.

Summary Highlights

- In FY 2025, 14 Maryland Whistleblower Law complaints were filed. Of this amount, 9 were investigated and concluded that there were no findings of violations. In addition, two were administratively closed and three were not in the OSEEOC's jurisdiction to investigate. This is a slight increase from FY 2024 when there were 13 complaints filed.
- In comparison, in FY 2020, 12 complaints were filed. Of this amount, 10 concluded that there were no violations. In addition, of the 2 remaining complaints, one was not in the OSEEOC's jurisdiction to investigate, and one was withdrawn.
- In FY 2025, the OSEEOC continued to host "Maryland Whistleblower Law in the Executive Branch of State Government" information sessions. The purpose of the 90-minute session is to educate employees on the purpose of the law, who it protects, what it protects against, how to file a complaint, the investigative process and how to file an appeal if the complainant is not satisfied with the outcome.
- In FY 2025, the OSEEOC continued to enforce its audit process which includes measures that evaluate whether principal units comply with providing written notice to employees regarding the protections and remedies provided by the Maryland Whistleblower Law proceedings.

STATEWIDE REQUESTS FOR REASONABLE ACCOMMODATIONS

This section summarizes statewide reasonable accommodation requests activity for FY 2025. This data was compiled from units within the Executive Branch of the State government, including units with independent personnel systems.

It is the policy of Maryland State Government to dedicate full compliance to the Americans with Disabilities Act and the reasonable accommodation process. Therefore, no job applicant or employee shall be retaliated against for seeking reasonable accommodation(s) for their disabilities. To ensure compliance with federal and state disability laws, each agency is required to appoint a designated ADA Coordinator who is responsible for the following:

- ensuring that meetings, conference rooms, lunchrooms, and employment tests are accessible;
- ensuring that all agency accessibility requirements are compliant;
- providing training to managers, supervisors and employees on disability laws and the reasonable accommodation process; and
- managing reasonable accommodation requests and administering the interactive process.

A job applicant or employee's request for reasonable accommodation can be made verbally or in writing. Once received, the ADA Coordinator is responsible for initiating the interactive process. The interactive process requires the ADA Coordinator to communicate directly with the job applicant and hiring manager or the employee and their supervisor to discuss the request in detail. The decision to approve or deny an accommodation must be provided to the job applicant or employee in writing. When an agency denies the requested accommodation but offers an alternative accommodation instead, the agency's notice must explain both the reason for the denial of the requested accommodation and the reason that it believes that the chosen accommodation will be effective. Also, all agency denial notifications must include the individual's right to file a complaint with their principal unit's EEO Officer and with the Maryland Commission on Civil Rights (MCCR) or the Equal Employment Opportunity Commission (EEOC).

Summary Highlights

- In FY 2025, there were a total of 1,863 requests for reasonable accommodations from State employees and job applicants for State employment. Of this amount, 1,591 or (85%) of the requests were granted. There was a total of 66 agencies that reported data on reasonable accommodation requests, with the Maryland Department of Transportation (315), Department of Public Safety and Correctional Services (245), Maryland Department of Health (238) and Maryland Department of Human Services (221), accounting for 55% of the total requests reported.
- In comparison, in FY 2020, there were 605 requests for reasonable accommodation from State employees and job applicants for State employment. Of this amount, 515 or 85% were granted. There was a total of 33 agencies that reported data on reasonable accommodation requests, with the Maryland Department of Human Services (73), Maryland Department of Transportation (111) and Maryland Department of Health (182) accounting for 366 or 60% of the total requests reported.
- In FY 2024 and FY 2025, the State government received a high volume of reasonable accommodation requests to telework full-time and work hybrid schedules.
- The increase in reasonable accommodation requests may be attributed to individuals being newly diagnosed with disabilities and pre-existing conditions being exacerbated, which warranted the need for accommodations to perform the essential functions of their job. In addition, the increase in requests could be a response to return-to-work policies post pandemic and employees' need for accommodations to return to the office.
