1.11 Revisions to the RFP

If it becomes necessary to revise this RFP before the due date for proposals, amendments will be posted on the DBM website and eMarylandMarketplace.com, and provided to all prospective Offerors who were sent this RFP or otherwise are known by the Procurement Officer to have obtained this RFP. 1.17 Multiple or Alternative Proposals

Neither multiple nor alternate proposals will be accepted.

1.18 Access to Public Information Act Notice

An Offeror should give specific attention to the clear identification of those portions of its proposal that it considers confidential, proprietary commercial information or trade secrets, and provide justification why such materials, upon request, should not be disclosed by the State under the Public Information Act, Title 10, Subtitle 6, Part III of the State Government Article of the Annotated Code of Maryland. (See Section 4.4.2.1)

Information, which is claimed to be confidential, is to be placed after the Title Page and before the Table of Contents in the Offeror’s Technical Proposal, and if applicable, also in its Financial Proposal. Offerors are advised that, upon request for this information from a third party, the State will make an independent determination whether the information must be disclosed (see COMAR 21.05.08.01).
1.19 Offeror Responsibilities

The selected Offeror shall be responsible for all products and services required by this RFP. Subcontractors must be identified, and a complete description of their roles relative to the proposals must be included in the Proposal. The selected Offeror retains the responsibility for all work performed by and any deliverable submitted by a subcontractor. Additional information regarding MBE subcontractors is provided in paragraph 1.23 below, Section 4.4.2.9, and ATTACHMENT D.

If applicable, the Offeror’s proposal must contain an explicit statement that the parent organization will guarantee the performance of the subsidiary.

By submitting an offer in response to this RFP, an Offeror, if selected for award, shall be deemed to have accepted the terms of this RFP and the Contract, attached as ATTACHMENT A. Any exceptions to this RFP or the Contract must be clearly identified in the Executive Summary of the technical proposal. A proposal that takes exception to these terms may be rejected (see Section 4.4.2.2).

A copy of this Affidavit is included for informational purposes as ATTACHMENT C of this RFP. This Affidavit must be completed and submitted within five business days of notification of contract award.

1.23 Minority Business Enterprises

A Minority Business Enterprise (MBE) subcontractor participation goal of 13 percent of the total Consulting fees paid to the Contractor has been established for this procurement. The Contractor shall structure its award(s) of subcontracts under the contract in a good faith effort to achieve the goal in such subcontract awards by businesses certified by the Maryland Department of Transportation as minority owned and controlled. MBE requirements are specified in
ATTACHMENT D of this RFP. The commitment to subcontractors used to meet the MBE goal of this RFP must be identified in the Offeror’s proposal.

Each Offeror shall complete, sign and submit Attachment D-1 (Certified MBE Utilization and Fair Solicitation Affidavit) at the time it submits its technical response to the RFP. Failure of an Offeror to complete and sign the Attachment D-1 (Certified MBE Utilization and Fair Solicitation Affidavit) at the time it submits its technical response to the RFP, will result in the State’s rejection of the Offeror’s Proposal to the RFP.

The selected Offeror, once notified of award will be responsible for timely submitting the following forms within 10 business days of receiving notice of award:

D-2 (Outreach Efforts Compliance Statement) provided with Attachment D.

An Offeror that does not commit to meeting the entire MBE participation goal proposed and outlined in this Section 1.23, must submit a good faith request for waiver with its proposal submission. See COMAR 21.11.03.11.

1.24 Arrearages

By submitting a response to this solicitation, each Offeror represents that it is not in arrears in the payment of any obligations due and owing the State of Maryland, including the payment of taxes and employee benefits, and that it shall not become so in arrears during the term of the contract if selected for contract award.

1.26 Verification of Registration and Tax Payment

Before a corporation can do business in the State of Maryland it must be registered with the Department of Assessments and Taxation, State Office Building, Room 803, 301 West Preston Street, Baltimore, Maryland 21201. It is strongly recommended that any potential Offeror complete registration prior to the due date for receipt of proposals. An Offeror’s failure to complete registration with the Department of Assessments and Taxation may disqualify an otherwise successful Offeror from final consideration and recommendation for contract award.

1.27 False Statements

Offerors are advised that section 11-205.1 of the State Finance and Procurement Article of the Annotated Code of Maryland provides as follows:

(a) In connection with a procurement contract a person may not willfully:
   (1) falsify, conceal, or suppress a material fact by any scheme or device;

The selected Offeror shall register using the COT/GADX-10, the Vendor Electronic Funds (EFT) Registration Request Form. Forms are available from the Comptroller’s Offices or website at http://compnet.comp.state.md.us/General_Accounting_Division/Static_Files/gadx-10.pdf. Any request for exemption must be submitted to the State Comptroller’s Office for approval at the
1.29 Utilization Data, Report Formats, and Confidentiality Agreement

Upon request, Offerors will be provided a utilization data file from our current data warehouse with utilization information for various plans in the Program on a CD and in MS Excel format. This information is provided for informational purposes so that Offerors may be aware of the format and extent of data provided on a monthly basis from TPAs and other State contractors in connection with plans offered through the Program. See RFP Section 3 for contractual requirements in connection with this information. Information on the CD may only be used to prepare a response to this RFP. The utilization data contains confidential information related to the Program and is disclosed only for purposes of this solicitation.

A confidentiality agreement (ATTACHMENT K) will need to be provided to the State to ensure that the information will only be used as set forth in this RFP. To receive the data file, each Offeror will need to present the completed confidentiality agreement and a picture ID such as a valid driver’s license. The data file will be available anytime after the release of the RFP, including at the Pre-Proposal Conference as outlined in Section 1.6 or upon arrangement with the Procurement Officer whose contact information is found in Section 1.5.

1.30 Conflict of Interest

1.30.1 Potential Offerors should be aware that the State Ethics Law, State Government Article, § 15-508, might limit the selected Contractor’s ability to participate in future related procurements or to provide advice or consultation services to organizations or companies that plan to do business with the State, depending upon specific circumstances.

1.30.2 The successful Offeror shall provide consulting and actuarial services to the State and must do so impartially and without any conflicts of interest. Subcontractors and any employees or other agents of the contractor shall also be without any conflict of interest in connection with services provided pursuant to the Contract. A conflict of interest means that, because of other activities or relationships with other persons, a person is unable or potentially unable to render impartial assistance or advice to the State, the person’s objectivity in performing the contract work is or might be otherwise impaired, or a person has an unfair competitive advantage.

1.30.3 The Offeror, and all subcontractors will be required to complete Conflict of Interest Affidavits to establish that the contractual requirement of impartiality would be met. A copy of this Affidavit is included as ATTACHMENT G of this RFP.

1.30.4 If the Procurement Officer makes a determination that facts or circumstances exist that give rise to or could in the future give rise to a conflict of interest within the meaning of COMAR 21.05.08.08A, the Procurement Officer may reject an Offeror under COMAR 21.06.02.03B, or may, during the term of the Contract, terminate the Contract in whole or
in part as necessary to avoid the actual or potential conflict of interest. See COMAR 21.05.08.08.

1.30.5 Throughout the Contract term, the Contractor must investigate and disclose any potential conflict of interest on the part of a subcontractor, consultant, sub-consultant, employee or agent who will perform or supervise work under this Contract. The Contractor shall notify the Procurement Officer and Contract Manager of any conflict of interest concerning a subcontractor, consultant, sub-consultant, employee or agent immediately upon discovery. The Contractor shall cooperate in connection with the investigation of any potential conflict of interest.

1.30.6 The Contractor shall immediately notify DBM and Procurement Officer in writing whenever the Contractor provides services to, contracts with, or receives any compensation or remuneration from an organization or company that provides services in connection with the Program.

1.31 Prompt Payment to Subcontractors

This procurement and the contract to be awarded pursuant to this solicitation are subject to the Prompt Payment Policy Directive issued by the Governor’s Office of Minority Affairs (GOMA) dated August 1, 2008. Promulgated pursuant to Sections 11-201, 13-205(a), and Title 14, Subtitle 3 of the State Finance and Procurement Article (SFP), and Code of Maryland Regulations (COMAR) 21.01.01.03 and 21.11.03.01 et seq., the Directive seeks to ensure the prompt payment of all subcontractors on non-construction procurement contracts. The successful Offeror who is awarded a contract must comply with the prompt payment requirements outlined in the Contract, §26 (see Attachment A). Additional information is available on the GOMA website at http://www.mdminoritybusiness.com/documents/PROMPTPAYMENTFAQs_000.pdf.

1.32 Non-exclusive Use

It is the State's intention to obtain consulting and actuarial services as specified in this RFP. However, this Contract will not be construed to require DBM to use this Contract exclusively. In addition, the State reserves the right to procure consulting and actuarial services of any nature from other sources when it is in the best interest of the State to do so and without notice to the Contractor.

1.33 Living Wage Requirements

A solicitation for services under a State contract valued at $100,000 or more may be subject to Title 18, State Finance and Procurement (SFP) Article, Annotated Code of Maryland. Additional information regarding the State’s Living Wage requirement is contained in this solicitation (see Attachment I, “Living Wage Requirements for Service Contracts”). If the Offeror fails to submit and complete the Living Wage Affidavit of Agreement (see Attachment I), the State may determine an Offeror to be not responsible.
Contractors and Subcontractors subject to the Living Wage Law shall pay each covered employee at least the minimum amount set by law for the applicable Tier Area. The specific Living Wage rate is determined by whether a majority of services take place in a Tier 1 Area or Tier 2 Area of the State. The Tier 1 Area includes Montgomery, Prince George’s, Howard, Anne Arundel, and Baltimore Counties, and Baltimore City. The Tier 2 Area includes any county in the State not included in the Tier 1 Area. In the event that the employees who perform the services are not located in the State, the head of the unit responsible for a State contract pursuant to §18-102 (d) shall assign the tier based upon where the recipients of the services are located.

The contract resulting from this solicitation will be deemed to be a Tier 1 contract or a Tier 2 contract depending on the location(s) from which the Contractor provides 50% or more of the services. If the Contractor provides 50% or more of the services from a location(s) in a Tier 1 jurisdiction(s) the contract will be a Tier 1 contract. If the Contractor provides 50% or more of the services from a location(s) in a Tier 2 jurisdiction(s), the contract will be a Tier 2 contract. If the Contractor provides more than 50% of the services from an out-of-State location, then the contract will be deemed to be a Tier 1 contract. The Offeror must identify in its Offer the location(s) from which services will be provided.

SECTION 2 – DESCRIPTION OF CURRENT BENEFITS PROGRAM

2.1 The Program

The DBM administers the Program for State employees, retirees, and eligible dependents. The Program includes a mix of self-funded medical and prescription, flexible spending accounts, fully insured dental, and group insurance plans for life, accidental death and dismemberment (AD&D), and long term care. See Attachment H for a listing of the current Health Benefits contracts. The State subsidizes the premiums for certain plans but the member pays the entire premium for other plans. Deductible and co-pay arrangements are also used for various plans. The State’s total benefit expenditures for FY 2011 are anticipated to be approximately $1 billion.

The State benefits plan year is based upon the State’s fiscal year. The fiscal year runs from July 1 of one year to June 30 of the following year. An annual Open Enrollment period is held prior to the beginning of each Plan Year, typically in April and May. Benefits elections for most plans are evergreen except for flexible spending accounts which must be elected coincident with each Open Enrollment period.

2.2 Eligibility and Payment for Coverage

Eligibility for Program participation is governed by regulation codified at COMAR 17.04.13.03. Program benefits are available to permanent employees who work at least 50 percent of the standard workweek, retirees and eligible dependents with a State subsidy for certain applicable premiums. COBRA participants, employees on leave of absence without pay, contractual and part-time employees also may enroll in the plans offered through the Program; however, these Direct Pay Enrollees premiums are not subsidized by the State and therefore pay the full premium cost. Satellite Account Employees participate in the State benefits program and may be subsidized by their employer, which in turn submits the full premium cost to the State.

The Program operates as an Internal Revenue Code Section 125 pre-tax benefits plan for active employee enrollees who are eligible for State subsidy. The State’s Section 125 cafeteria plan does not use benefit credits or a flat employer contribution to all employees; the employer contribution is a percentage of the premium for certain plans. All other members (Direct Pay Enrollees and Retirees) must pay premiums on a post-tax basis. However, all Program election and coverage benefits are otherwise administered as if Section 125 election and coverage provisions applied.

The active State Benefit Employee Enrollment Data by Plan and Coverage prepared for enrollment year of fiscal 2011 and enrollment month of February are found in Attachment J.

2.3 Program Benefits Plans

Detailed descriptions of PPO, POS, and EPO medical benefits, and behavioral health benefits are provided in the 2011-2012 Benefits Guide. The guide is issued annually to all eligible
participants during the annual Open Enrollment period. The Benefits Guide may be accessed through the DBM website at www.dbm.maryland.gov, using the link entitled “Health Benefits.”

The various benefits plans of the Program are described in limited detail below.

2.3.1 Medical Insurance Plans

Medical plans offered include PPOs, POS, and EPOs. Each of the three types of plans provides a standard set of benefits. The administrators for the self-insured plans were procured during a competitive process held in 2008. Copies of the RFPs, including the plan design and a significant portion of the performance requirements for those contracts, are available on DBM’s website (www.dbm.maryland.gov), using the “Procurement & Contracts” and “Contract Library” links. The contracts for these medical plans will expire on June 30, 2014.

Two PPO plans are offered to State employees and retirees. These PPO plans are administered by separate third party administrators (TPAs) and do not operate under managed care guidelines. Both PPO plans offer nationwide network access. The PPO plans are self-insured by the State.

Three POS plans are administered by separate TPAs, two of which utilize national networks while one is a regional network. All three of the POS plans are self-insured with no capitation. The three EPO plans are also self-insured by the State. The EPO networks are national and use the TPA’s PPO network. All three EPO plans allow for in-network benefits only.

The three EPO plans are also self-insured by the State. The EPO networks are national and use the TPA’s PPO network. All three EPO plans allow for in-network benefits only.

2.3.2 Prescription Drug Plan

The prescription drug plan is self-insured and is administered by a PBM. Enrollees attain maximum benefits through use of a pharmacy network, generic medications when available, a drug formulary, MAC pricing and preferred drugs. The current plan includes an extensive national retail network as well as access to a voluntary mail order program and specialty pharmacies.

The current State plan also includes a number of cost containment components, including $0 generics program for specified classes of drugs related to certain chronic conditions.

The Maryland Rx Program is a purchasing pool for pharmacy benefits for the State Employee and Retiree Health and Welfare Benefits Program, local governments and not-for-profit employers with employees in Maryland. These other entities are entitled to participate in the purchasing pool and to secure pharmacy benefit management services from the PBM on the same terms and conditions as the State through contracts with the PBM, with certain exceptions noted in the RFP. The Maryland Rx Program was implemented on July 1, 2009.

The PBM contract includes a pricing model that provides the following components:
A. **Pass - Through Pricing at Retail Pharmacies** – For the retail component, the PBM shall pass-through the actual price the PBM has negotiated with the dispensing retail pharmacy; spread pricing with participating retail pharmacies shall not be permitted;

B. **Pass - Through Pricing on Mail Order and Specialty Pharmacies** – For the mail and specialty pharmacy components, pass-through actual acquisition pricing from wholesalers or manufacturers is not required; however, the drug ingredient cost charged to the State must be consistent with the pricing guarantees for claims processed at mail and specialty pharmacies;

C. **Pass - Through Pricing on Other Items** – For the retail, mail and specialty components, the PBM shall not retain any revenue (attributable to the State’s business) from pharmaceutical manufacturers or wholesalers including, but not limited to data fees, access fees, market share fees, rebates, formulary access fees, administrative fees or marketing grants;

D. **Pricing Guarantees** – For the retail, mail and specialty components, the PBM shall also guarantee a maximum amount for dispensing and administration fees, minimum percentage discounts off AWP as published on or after 11/15/2011 by drug-type (brand and generic) and place of service (retail, mail and specialty pharmacies) and minimum guarantees per claim for rebates, including all revenue; and

E. **Transparency** - For the retail, mail and specialty components, the PBM shall provide full transparency reporting.

### 2.3.3 Dental Plans

Preventive and diagnostic dental benefits are available to employees and retirees through two stand-alone fully-insured dental plans, including one Dental HMO and one Dental PPO with in-network and out-of-network benefits. Premiums for the two stand-alone dental plans are paid 50% by the employee and 50% by the State. The period for the dental benefits plans contracts expires June 30, 2014.

### 2.3.4 Behavioral Health

EPO enrollees receive behavioral health services through their EPO plans, and the cost of these services is included in the EPO premiums through June 30, 2014.

For PPO and POS enrollees, behavioral health services are provided by a TPA under a managed care agreement. These services are self-insured by the State. The cost (fully insured equivalents anticipated to cover administrative fees plus claims to cover anticipated claims costs) for behavioral health services is added to the PPO and POS premiums, and is shared between the State and enrollees in the same proportion as medical plans. The contract for these behavioral health plan TPA services expires June 30, 2014. Members may choose to receive services through a participating TPA behavioral health provider, or receive reduced benefits by using non-participating behavioral health provider. This coverage is fully compliant with the Mental Health Parity regulations.
2.3.5 Accidental Death and Dismemberment Plan

Accidental death and dismemberment plan benefits are available to active employees through a group insurance policy sponsored by the State. Premiums are paid entirely by the enrollees. The State does not subsidize this plan. The contract for this plan expires June 30, 2013.

2.3.6 Group Term Life Insurance Plan

Term life insurance is available to employees through a group life insurance policy sponsored by the State. Premiums are entirely paid by the enrollees. The State does not subsidize this plan. The contract for this plan expires June 30, 2013.

2.3.7 Flexible Spending Accounts

The State offers active employees the opportunity to participate in a pre-tax Healthcare Spending Account and/or Dependent Care Spending Account, administered by a TPA. The two Flexible Spending Accounts are entirely funded by the active employee. The contract for the TPA services for these accounts expires June 30, 2015.

2.3.8 Long Term Care Insurance

The State offers a group Long Term Care (LTC) Insurance plan to active employees, retirees and family members, including parents, grandparents, and siblings, for coverage of nursing home care, assisted living, home care, and other types of LTC services. Certain employees are eligible for pay deductions for this coverage while other covered individuals must pay premiums directly to the insurer. All premiums are fully paid by the member. The contract expires June 30, 2012.
SECTION 3 - SCOPE OF WORK

There are two major components of work being requested: (1) actuarial services and (2) general consulting services. Some of the services may overlap into both actuarial and consulting services; the Contractor shall consult with DBM in such instances to clarify which billing category and task order will apply. Some of the services will be recurring and some will be non-recurring. Details of services are outlined below.

3.1 Actuarial Services

3.1.1 Rate Setting

The rate-setting process involves a number of phases annually over a period from September through March, in general. 3.1.3 Other Actuarial Services

The medical, prescription drug, behavioral health, and dental plan vendors submit monthly utilization and cost data to the State’s selected contractor. An example of this report is included as Attachment J.

The quarterly reports identified in sections 3.1.3 A and B below are detailed quarterly analysis reports which provide for a detailed analysis of utilization, trends and costs that will also be used by the State to determine the scope of discussions with any TPA contractor during quarterly vendor meetings. The reports required in Section A below are primarily for the purpose of tracking costs and State expenditures over the Plan Year for budget purposes.

A. The Contractor shall promptly provide analysis and summary of quarterly utilization reports provided by medical, behavioral health, and dental plan contractors:

1. Perform utilization, cost and trend analysis from quarterly vendor data submissions from TPAs of the identified plans;

2. Compare actual utilization and cost trends to projections prepared during the annual rate setting process; and

The Contractor will not be required to audit the PBM or review actual claims adjudications as part of this process; rather the Contractor will be required to compare the actual utilization and pricing experience of the State to the contracted pricing guarantees to determine whether contract guarantees appear to be met on a quarterly and annual basis. See the Pharmacy Directorship in section 3.2.12 for additional information.
3.2 Consulting Services

For on-going administration of the Program benefit plans, DBM requires prompt, responsive, comprehensive, clear and precise advice and input from its Actuarial and Consulting Services Contractor. Such advice shall cover the various topics and areas required to effectively and appropriately administer benefits plans of the type offered by the State, including legal requirements, plan design, cost management, data analysis, first-line audit services, and procurement support. Consulting services described in this Section 3.2 shall be provided at fixed rates per labor hour in specified labor categories. All services within this section shall be provided only upon request from DBM and pursuant to a signed task order (see Section 3.2.1) unless specifically authorized otherwise by this RFP or a written request from the Contract Manager.

3.2.1 Task Orders for Consulting Services

All invoiced work under the Contract for consulting services will be defined and initiated through a task order process, with the exception of time-sensitive actuarial notes (Section 3.2.4). The State will issue a task order (TO) request to the Contractor’s Account Manager outlining the desired work to be accomplished. The TO request will identify a deadline for completion of the work requested. In response to the TO request, the Contractor’s Account Manager shall develop a written scope of work, a projection of the necessary work effort (hours and staff), and an itemized project cost estimate. The cost estimate must include all related costs associated with the specified TO. In addition, the response must include the labor category of any staff or personnel who will work on the project as well as resumes for any staff or personnel not previously provided to DBM.

The Contractor shall receive a written notice to proceed from the Contract Manager prior to commencing work on each TO. The Contractor may not proceed with the TO until written notice from the Contract Manager to proceed. Written notice may take the form of the Contract Manager’s signature of approval on the submitted task order cost estimate.

3.2.1.1 Task Order Process

Services shall be provided via a task order process using the pre-approved fully-loaded labor rates applicable to their labor categories as follows:

A. The Contract Manager will e-mail a request to the Contractor to provide services. On occasion, the Contract Manager may contact the Contractor’s Account Manager by telephone to orally convey the contents of a task order request. The request shall include at a minimum:

1. The due date and time for submitting a response to the request;

2. Technical requirements and description of the services needed;

3. Specific information to be provided by the Contractors, such as:
a. A proposed work plan for the required services;

b. Any maximum timeframe to complete the services required;

c. Any required places(s) where work must be performed; and

d. State furnished information, work site, and/or access to equipment, facilities,
or personnel.

This description shall include a schedule of resources and related tasks, including an explanation of how these tasks will be completed;

3. Identification of those activities or phases that can be completed independently or simultaneously versus those that must be completed before another activity or phase can commence;

4. The personnel resources, including those of subcontractor(s), and estimated hours to complete the task;

5. A detailed written description of any work to be subcontracted, and the name and address of the subcontractor(s);

6. Proposed approach to satisfying the requirements of the task and development of task deliverables;

7. A description of the specific work and the percentage of the total Task Order which will be performed by the MBE(s); and

8. A detailed cost estimate, using projected hours for each labor category and applicable staff members, to complete the project.

C. The Contract Manager will review the response and will either approve the work and provide a notice to proceed or contact the Contractor to obtain additional information, clarification or revision to the work. If satisfied, the Contract Manager will then provide the NTP.
3.2.2 Plan Design

The Contractor shall provide advice on benefit plan design, plan modeling, analysis of proposed new benefits and modifications to existing benefits, including:

   2. Analysis of current plan design;
   3. Determining the costs and savings associated with any benefit changes; and
   4. Analyzing alternate funding arrangements.

3.2.3 Procurement

The Contractor shall assist DBM in the procurement of services related to the Program, including:

A. Assist in developing and drafting requests for proposals;

E. Assist in any required presentations and reports to legislative bodies concerning procurements; and

F. Assist in the transition of benefit plan contractors.

A list of current contracts and anticipated procurements is contained in ATTACHMENT H. The State will determine, in its own discretion, whether and the extent to which, if any, the services of the Contractor will be used in these procurements.
3.2.4 Analysis of Proposed and Passed Legislation

A. The Contractor shall provide actuarial notes on bills and joint resolutions introduced by the General Assembly during the legislative sessions (generally early January through mid-April each year) that propose a change that may affect the benefits program. Notes shall include a brief explanatory statement of what the bill does and a reliable estimate of the financial and actuarial effect of the proposed changes on the benefits program, along with a brief explanation of the methodology of developing the estimate.

These actuarial notes require a very rapid response turnaround time of less than 8 hours from the time the request for an actuarial note is presented to the Contractor. A Task Order for each actuarial note will not be issued by DBM due to the severe time constraints for the turnaround of the fiscal notes. A general Task Order for these notes for the Contractor shall be prepared to respond to such requests beginning with each legislative session. The Contractor shall submit a general Task Order by January 1 of each year noting which personnel will be available to address potential requests for actuarial notes on pending legislation for invoicing purposes. Requests for actuarial notes of this type may be made by telephone call or e-mail from the Contract Manager or any high-level staff member of DBM or EBD.

B. The Contractor may be called upon to testify before legislative committees upon request of DBM.

3.2.5 Legal and Regulatory Compliance

The Contractor shall provide advice on general legislative and regulatory compliance. A number of federal and state legal requirements, such as the HIPAA, Governmental Accounting Standards Board Statement 45, COBRA, federal tax provisions, FMLA, USERRA and PPACA, impact the administration of the Program benefits plans. The Contractor is required to proactively inform the State of any federal legislative or regulatory changes or judicial decisions that affect the Program, e.g. Medicare changes, COBRA and/or HIPAA regulatory changes, ADEA requirements, etc. Regular and periodic information dissemination shall be performed without the issuance of a task order and without additional compensation to the Contractor from the State. For example, the Contractor shall provide a general description of legislative or regulatory compliance issues to DBM on a regular and periodic basis but actual implementation advice, guidance, consultation or responses to requests for detailed advice shall be pursuant to a Task Order.

Any projects to implement or meet the needs of the legislative/regulatory/judicial changes will be considered and required on an as needed basis. If the State desires additional information or guidance on compliance, the State will issue a Task Order to the Contractor and billing for such service shall be in accordance with Section 3.6.1 regarding fully loaded labor rates.
3.2.6 Assist in the Preparation of Communication Materials

The Contractor may be asked to provide expert assistance in the writing of technical brochures, benefit booklets or other communication materials. Such communications could involve topic driven notification to Program enrollees (e.g. Medicare Part D newsletters, Notices of Creditable Coverage) or general benefits information (e.g. annual Open Enrollment materials).

3.2.7 Market Research and Investigation

The Contractor may be asked to conduct surveys using quantitative and qualitative methods such as telephone, mail and focus groups. In addition to the annual employee satisfaction survey, the Contractor may periodically be asked to perform surveys, including but not limited to: benefit assessment surveys; communication strategy development; disenrolled member surveys; exit surveys; survey of benefit programs of other employers including states and municipalities. All such market research and investigation services shall be provided in a manner calculated to provide accurate and reliable information to the State. The Contractor shall prepare a summary report of the results of any requested surveys.

3.2.8 Trend and Innovation Disclosure

The Contractor shall maintain current information on national and regional trends in benefits. At no additional cost to DBM, the Contractor shall routinely advise DBM and EBD of innovations in the health and employee benefits industry; a short list of those State personnel to whom such routine notifications should be issued will be provided to the Contractor upon request after Contract award. If the State desires additional information or guidance, the State will issue a Task Order to the Contractor.

3.2.9 CMS Retiree Drug Subsidy Program

The Contractor shall provide support services and consulting services in connection with the State’s coverage of retirees who are eligible for the CMS RDS Program.

A. At this time, the State participates in the CMS RDS program and intends to continue to do so. The PBM submits eligibility and cost data to CMS in support of the State’s application.

1. The Contractor shall provide support to DBM in connection with the State’s annual application for the federal retiree drug subsidy administered by the Centers for Medicare and Medicaid Services in connection with the CMS RDS Program.

2. The Contractor shall annually perform the following in support of the State’s Retiree Drug Subsidy (RDS) application:

   a. Gather claims and utilization data from PBM for the most recent 12-month period for the RDS eligible population as indicated by the most recent CMS response files that reside at the PBM (February –March);
b. Review the State’s RDS eligible data and premium percentages to validate the actuarial equivalence of the plan relative to the standard CMS RDS Program (February);

c. Prepare a formal report on the actuarial equivalence of the plan for purposes of the RDS for each plan year beginning July 1 (March);

d. Act as the designated Account Manager for the State’s RDS application, initiate and complete a new application for submission as the State’s Authorized Representative by the March 30 due date for the application (if the application due date is extended, by the last week of April) for the plan year beginning July 1st. As part of the services in setting up the application, confirm application designee and other application functionality information with the State and the State’s PBM for the plan year beginning July 1 (March-April);

e. Coordinate with PBM on eligibility downloads to CMS, as necessary;

f. Other coordination issues with the State and State’s selected PBM, as necessary; and

g. Provide advice to the State regarding changes in retiree drug subsidy application procedures, cost reporting and payment request procedures.

3. A Task Order for these annual services shall be prepared by the Contractor and submitted to the DBM Contract Manager by January of each calendar year, outlining a comprehensive schedule of the necessary services to be performed along with a budget for those services. In light of the recurring nature of this activity, the State requests that the Contractor submit the Task Order response without waiting for the Contract Manager to initiate the Task Order Process.

B. (a) The Contractor shall promptly notify DBM of a Breach of Unsecured PHI following the first day on which Contractor (or Contractor’s employee, officer, agent or subcontractor) knows of such Breach or following the first day on which Contractor (or Contractor’s employee, officer, agent or subcontractor) reasonably should have known of such Breach. Such notice shall occur without unreasonable delay and in no event more than 60 days following discovery of the Breach.

(b) In the event that Contractor determines that there is no risk that an unauthorized access, acquisition, use, or disclosure compromises the integrity, security or privacy of the PHI of an individual, Contractor shall promptly notify DBM of the event and the basis for that...
determination. Such notice shall occur as soon as is reasonable but in no event more than 60 days following discovery of the unauthorized access, acquisition, use or disclosure of PHI of an individual. Such determination shall be in writing and signed by an appropriate officer or employee of Contractor and maintained until the expiration of any audit rights or record retention requirements of the RFP and the Contract, HIPAA, and the HITECH Act.

(b) The notice(s) required by section RFP §3.3.3.3(a) may not be issued until DBM has reviewed and approved the notice(s). Such approval may not be unreasonably delayed or withheld.

(c) If §§13400-13402 of the HITECH Act and 45 CFR §§164.404 – 164.406 do not require that notice be provided to individuals, this subsection 3.3.3.3 does not apply.

3.3.3.4 Contractor may delay the notice(s) required pursuant to sections 3.3.3.2 and 3.3.3.3 only if permitted pursuant to 45 CFR §164.412. In such event, Contractor shall provide the notice(s) as soon as permissible pursuant to 45 CFR §164.412.

(a) In the event of a Breach of Unsecured PHI described in 45 CFR §164.408(b) (i.e. a Breach of the PHI related to 500 or more individuals), Contractor shall provide to DBM all information required by that section to be submitted to the Secretary of DHHS.

(b) Contractor shall maintain a log of Breaches of Unsecured PHI, regardless of the number of individuals whose PHI is involved, that includes at least the information described in section 3.3.3.2(c). Destruction must be by means or method that renders the PHI unreadable, undecipherable, and unusable.

(d) In the event that Contractor and DBM agree that returning or destroying the PHI is infeasible or the Contract requires the Contractor to retain PHI for a period of time, Contractor shall provide to Department written notification of the conditions that make return or destruction infeasible and/or the provisions that require retention of PHI. PHI retained by the Contractor for such reasons shall be protected as provided in these Business Associate Agreement provisions of the RFP.

3.3.3.9 DBM will provide the Contractor with the notice of privacy practices that DBM produces in accordance with 45 C.F.R. § 164.520, as well as any changes to that notice. DBM may not request the Contractor to use or disclose PHI in any manner that would not be
permissible under HIPAA or the HITECH Act if done by DBM. The Contractor shall notify
DBM if the Contractor believes that any request or direction from DBM creates a violation of
HIPAA or the HITECH Act.

3.3.3.10 Upon DBM’s knowledge of a material breach by the Contractor in connection
with this Section 3.3, DBM shall:

(a) Provide a reasonable opportunity for the Contractor to cure the breach or end the
violation and, if the Contractor does not cure the breach or end the violation within the time
specified by DBM, terminate the Contract;

(b) Immediately terminate the Contract if the Contractor has breached a material term and
cure is not possible; or

(c) If neither termination nor cure is feasible, report the violation to the Secretary of
DHHS.

3.3.3.18 The Contractor may use and disclose PHI for the proper management and
administration of the Contract or to carry out its legal responsibilities as permitted by 45 CFR
§164.504(e)(4), provided that: (a) such uses and disclosures would be permitted by the HIPAA
Privacy Regulation if the Contractor were a Covered Entity regulated by the HIPAA Privacy
Regulation and (b) the Contractor obtains reasonable assurances from the person, agency, or entity to which such disclosures are made that all PHI will remain confidential and used or disclosed further only as required by law, for the purposes of the disclosure by the Contractor, and the person, agent or entity notifies the Contractor of any instances in which the confidentiality of the PHI has been breached.

3.3.3.19 In addition to the termination rights provided in the Contract, DBM may terminate the Contract, in accordance with the termination provisions of the Contract, for any breach of the HIPAA related privacy, security and administrative simplification provisions articulated in this Section 3.3.

3.4 Invoices

3.4.1 Invoice Format

A. All invoices must include the following information:

1. name, address and federal tax identification number of the Contractor;

4. invoice date and invoice number;
5. amount due;
6. the Task Order Number(s) being billed;
7. an expenditures report or detailed billing report that provides a description of the work performed and the date and hours worked on the State account by each of the Contractor’s personnel, including but not limited to subcontractors, during the invoice period;
8. an identification of the labor category under which each person was working; and
9. total expenditures under the Contract, identifying at least the following:

   c. Projected work effort/budget requirements remaining un-invoiced for open task orders;
   d. Contract inception to date invoiced amounts; and
   e. Contract inception to date State payments.

The Contractor shall submit invoices on a monthly basis by the 15th of each month.

A. In connection with fixed-fee Actuarial Services (see Section 3.1), the Contractor shall bill on a fixed-rate hourly basis (see Section 3.7.1) all services provided in connection with Actuarial Services during the invoiced period. In no event may payments for Actuarial Services for any given contract year exceed the total fixed fee for Actuarial Services for that year. All payments for fixed-fee Actuarial Services are progress payments only. The Contractor shall not be entitled to retain any payments unless the State accepts the final deliverable associated with the Actuarial Services. Progress payments shall be tied to tangible work which has been performed that is at least as valuable to the State as the requested payment amount. The accomplishment of tangible work is not the same as merely accruing hours of effort expended and amounts paid for materials. Rather, it means the completion of work that can be reasonably quantified, and that would not have to be redone by the State or another contractor if, for any reason, the Contract would terminate as of the end of the period for which the bill has been submitted. Examples of such tangible work include records/data/information entered into a deliverable database, and document sections completed. In the event the State does not accept the completed Actuarial Services and requests Contractor repay all or a portion of the progress payments made hereunder, upon receipt by the State of such payments, the State will return all deliverables associated with such payments to Contractor.

B. In connection with Consulting Services that are billed on a fixed-rate hourly basis (See Section 3.7.1), the Contractor shall bill for the hours completed in the prior month.

3.5 Excluded services

Reimbursement for travel, parking and mileage will not be paid by the State under the terms of the Contract. The State will not pay for administrative or clerical services; such services must be accounted for in the Contractor’s fully-loaded labor rates.

3.6 Labor Categories

3.6.1 Consulting Services

A. All labor rates provided by the Offeror for the three consulting services labor categories outlined in the price proposal (ATTACHMENT F), shall be fully loaded labor rates including direct and indirect charges. Reimbursement for travel, parking and mileage will not be paid under the terms of the contract.

(i) have a minimum of five (5) years experience providing actuarial services; and

3.7 Staffing

The Contractor shall adequately staff this Contract such that the State’s actuarial and consulting needs are met, including, as appropriate, an account team. The Contractor shall designate an Account Manager to serve as the primary contact for this Contract. Additional personnel may be designated as support for these functions. For each Task Order, the Contractor may designate a lead staff person other than the Account Manager. All of the team members and designated Account Manager must have prior written approval of the State Contract manager.

3.8 Substitution of Personnel
A. Continuous Performance of Key Personnel

Unless substitution is approved per sections B-D of this section 3.8, key personnel shall be the same personnel proposed in the Contractor’s technical proposal, which will be incorporated into the Contract by reference. Such identified key personnel shall perform continuously for the duration of the Contract, or such lesser duration as specified in the technical proposal. Key personnel may not be removed by the Contractor from working under this Contract as described in the RFP or the Contractor’s technical proposal without the prior written concurrence of the Contract Manager.

If the Contract is task order based, the following provisions apply to key personnel identified in each task order proposal and agreement.

B. Definitions

1. The Contractor shall demonstrate to the Contract Manager’s satisfaction that the proposed substitute personnel have qualifications at least equal to those of the personnel for whom the replacement is requested.

2. The Contractor shall provide the Contract Manager with a substitution request that shall include:
   a. A detailed explanation of the reason(s) for the substitution request;
   b. The resume of the proposed substitute personnel, signed by the substituting individual and his/her formal supervisor;
   c. The official resume of the current employee for comparison purposes; and
   d. Any required credentials.

3. The Contract Manager may request additional information concerning the proposed substitution. In addition, the Contract Manager, and/or other appropriate State personnel involved with the Contract may interview the proposed substitute personnel prior to deciding whether to approve the substitution request.

4. The Contract Manager will notify the Contractor in writing of: (i) the acceptance or denial, or (ii) contingent or temporary approval for a specified time limit, of the requested substitution. The Contract Manager will not unreasonably withhold approval of a requested key personnel replacement.

D. Replacement Circumstances

1. Voluntary Staff Replacement

To voluntarily replace any key staff, the Contractor shall submit a substitution request as described in section C of this section to the Contract Manager at least 15 days prior to the intended date of change. Except in a circumstance described in section D.2 of this clause, a substitution may not occur unless and until the Contract Manager approves the substitution in writing.

2. Staff Replacement Due to Vacancy

The Contractor shall replace key staff whenever a vacancy occurs due to the Sudden termination, resignation or leave of absence due to an Extraordinary Personal Circumstance of such staff, Incapacitating injury, illness or physical condition, or death. (A termination or resignation with 30 days or more advance notice shall be treated as a Voluntary Staff Replacement as per section D.1 of this clause.)

Under any of the above D.2 circumstances, the Contractor shall identify a suitable replacement and provide the same information or items required under Section C of this section within 15 days of the sooner of the actual vacancy occurrence or from when it was first learned by the Contractor that the vacancy would be occurring.

3. Staff Replacement Due to an Indeterminate Absence
If any key staff has been absent from his/her job for a period of 10 days due to injury, illness, or other physical condition, leave of absence under a family medical leave or Extraordinary Personal Circumstance and it is not known or reasonably anticipated that the individual will be returning to work within the next 20 days to fully resume his/her job duties, before the 25th day of continuous absence the Contractor shall identify a suitable replacement and provide the same information or items required under section C of this section.

However, if this person is available to return to work and fully perform all job duties before a replacement has been authorized by the Contract Manager, at the option of the Contract Manager the original staff may continue to work under the Contract, or the replacement staff will be authorized to replace the original staff, notwithstanding the original staff’s ability to return.

4. Directed Staff Replacement

a. The Contract Manager may direct the Contractor to replace any staff that is perceived as being unqualified, non-productive, unable to fully perform his/her job duties due to full or partial Incapacity or Extraordinary Personal Circumstance, disruptive, or that has committed a major infraction(s) of law or agency or Contract requirements. Normally a directed replacement would only occur after prior notification of problems with requested remediation, as described in 4.b, below. If after such remediation the Contract Manager determines that the staff performance has not improved to the level necessary to continue under the Contract, if at all possible at least 15 days’ replacement notification will be provided. However, if the Contract Manager deems it necessary to remove the offending individual with less than 15 days’ notice, the Contract Manager can direct the removal in a timeframe of less than 15 days, to include immediate removal.

In circumstances of directed removal, the Contractor shall, in accordance with section C of this section, provide a suitable replacement for approval within 15 days of the notification of the need for removal, or the actual removal, if that occurs first.

b. If deemed appropriate in the discretion of the Contract Manager, the Contract Manager shall give written notice of any personnel performance issues to the Contractor, describing the problem and delineating the remediation requirement(s). The Contractor shall provide a written Remediation Plan within 10 days of the date of notice and implement the Remediation Plan immediately upon written acceptance by the Contract Manager, or revise and resubmit the plan to the Contract Manager within 5 days, as directed in writing by the Contract Manager.

Should performance issues persist despite the previously agreed to Remediation Plan, the Contract Manager will give written notice of the continuing performance issues and either request a new Remediation Plan within a specified time limit, or direct the substitution of personnel whose performance is at issue with a qualified substitute, including requiring the immediate removal of the key staff at issue.

Replacement or substitution of personnel under this section shall be in addition to and not in lieu of the State’s remedies under the Contract.
3.10 Insurance Requirements

3.10.1 The Contractor shall maintain general liability (see 3.10.3), property and casualty insurance with minimum limits sufficient to cover losses resulting from or arising out of Contractor action or inaction in the performance of the Contract by the Contractor, its agents, employees or subcontractors.

3.10.2 The Contractor shall provide a copy of the Contractor's current certificate of insurance that, at a minimum, shall contain the following:

- Worker's Compensation - The Contractor shall maintain such insurance as necessary and/or as required under Worker's Compensation Acts, the Longshore and Harbor Workers' Compensation Act, and the Federal Employers’ Liability Act.

- General Liability - The Contractor shall purchase and maintain the following insurance protection for liability claims arising as a result of the Contractor’s operations under this agreement.

3.10.3 Upon execution of a Contract with the State, Contractor shall provide the State with current certificates of insurance, and shall maintain and report such insurance annually to the procurement officer.

3.11 Problem Escalation Procedure

3.11.1 The Contractor must provide and maintain a Problem Escalation Procedure for both routine and emergency situations. This Procedure must state how the Contractor will address problem situations as they occur during the performance of the Contract, especially problems that are not resolved to the satisfaction of the State within appropriate timeframes.

The Contractor shall provide contact information, as described in 3.11.2, to the Contract Manager as well as other personnel should the Contract Manager not be available.
3.11.2 The Contractor must provide the Contract Manager with a Problem Escalation Procedure no less than 10 days prior to the beginning of the Contract, and within 10 days after the start of each Contract year (and within 10 days after any change in circumstance which changes the Procedure). The Problem Escalation Procedure shall detail how problems with work under the Contract will be escalated in order to resolve any issues in a timely manner. Details shall include:

- The process for establishing the existence of a problem;
- The maximum duration that a problem may remain unresolved at each level before automatically escalating to a higher level for resolution;
- Circumstances in which the escalation will occur in less than the normal timeframe;
- The nature of feedback on resolution progress, including the frequency of feedback;
- Identification of and contact information for progressively higher levels that would become involved in resolving a problem;
- Contact information for persons responsible for resolving issues after normal business hours (i.e., evenings, weekends, holidays, etc.) and on an emergency basis; and

SECTION 4 – PROPOSAL FORMAT

4.1 Two Part Submission

Offerors must submit proposals in two separate volumes:

• Volume I – (TECHNICAL PROPOSAL)
• Volume II – (FINANCIAL PROPOSAL)

4.2 Proposals

Volume I-Technical Proposal must be sealed separately from Volume II-Financial Proposal but submitted simultaneously to the Procurement Officer (address listed on Key Information Summary and in Section 1.5). **This is the only address to which proposals may be submitted.** An unbound original, so identified, and five (5) bound copies of each volume are to be submitted. Hard copies must be a complete proposal containing all information contained on the CDs unless otherwise directed in Section 4.

Offerors must attach to the original Technical Proposal two (2) separate CDs containing an electronic version of Volume I- Technical Proposal (in MS Excel format and WORD, as appropriate). Offerors must also attach to the original Financial Proposal one (1) separate CD containing an electronic version of the Volume II- Financial Proposal (in MS Excel format).

Please note that the Offeror must provide separate CDs for the Technical Proposal and the Financial Proposal, resulting in three (3) CDs attached to the proposal. The CDs containing the electronic responses should be placed in separate envelopes labeled “Offeror Response CDs – Volume “X” (“X” is Volume I or Volume II, as appropriate).

4.3 Submission

Each Offeror is required to submit a separate sealed package for each Volume, to be labeled “Volume I-Technical Proposal” and “Volume II-Financial Proposal” respectively. Each sealed package must bear the RFP title and number, name and address of the Offeror, the volume number (I or II), and the closing date and time for receipt of the proposals on the outside of the package. Please label the electronic media with Volume I-Technical Proposal and Volume II-Financial Proposal, as appropriate.

All pages of both proposal volumes must be consecutively numbered from beginning (Page 1) to end (Page “x”).

47
4.4 Volume I – Technical Proposal

4.4.1 Transmittal Letter

A transmittal letter must accompany the Technical Proposal. The purpose of this letter is to transmit the proposal and acknowledge the receipt of any addenda/amendments. The transmittal letter should be brief and signed by an individual who is authorized to commit the Offeror to the services and requirements as stated in this RFP.

4.4.2 Format of Technical Proposal; Required Submissions

Technical proposals must be submitted in a separate sealed package labeled "Volume I - Technical Proposal" and must bear the name and address of the Offeror, the name and number of the RFP and the closing date for proposals on the outside of the package. Inside this package an unbound original, to be so labeled, five (5) hard copies, and one (2) electronic copies (in MS Excel format and WORD, as appropriate) on 2 separate CD’s in a separate envelope labeled as described in Section 4.2, shall be provided. The technical proposal shall include:

4.4.2.1 Title and Table of Contents

The technical proposal should begin with a title page bearing the name and address of the Offeror and the name and number of this RFP. This should be followed by a table of contents for the technical proposal. Information, which is claimed to be confidential, is to be identified after the Title Page and before the Table of Contents.

4.4.2.2 Executive Summary

The Offeror shall condense and highlight the contents of the Technical Proposal in a separate section titled “Executive Summary”. The summary shall also identify any exceptions the Offeror has taken to the requirements of this RFP, the contract (ATTACHMENT A), or any other attachments. Offeror shall include a signed Bid/Proposal Affidavit (ATTACHMENT B).

WARNING: Exceptions to terms and conditions of the RFP, the contract, or any other attachment may result in having the proposal deemed unacceptable or classified as not reasonably susceptible of being selected for award.

4.4.2.3 Response to Scope of Work

In an orderly concise manner, the Offeror shall address each requirement in Section 3 “Scope of Work” of this RFP and describe how the Offeror’s proposed services will meet those requirements, in the same order in which the sections are described in the RFP. The Offeror
should use the sub-headings provided by this RFP to organize the response (e.g. describe actuarial capabilities in the Technical Proposal section noted as a response to Section 3.1; provide a description of consulting provided by the Contractor in the Technical Proposal section noted as a response to Section 3.2).

If the State is seeking Offeror agreement to a requirement, the Offeror shall state agreement or disagreement. However, the Offeror should not merely rely on a stated agreement to perform the requested work; rather the Offeror should outline how the Offeror can fulfill the requested tasks in a manner that best meets the State’s needs.

4.4.2.4 Conflict of Interest

Each Offeror must complete and submit a Conflict of Interest Affidavit with the Technical Proposal. A copy of this Affidavit is included as ATTACHMENT G of this RFP. If the Procurement Officer makes a determination that facts or circumstances exist that give rise to or could in the future give rise to a conflict of interest within the meaning of COMAR 21.05.08.08A, the Procurement Officer may reject an Offeror under COMAR 21.06.02.03B. In completing this affidavit, each Offeror should give special consideration to the existing contractual relationships DBM has (see ATTACHMENT G).

4.4.2.5 Offeror Experience and Team Capability

A. The Offeror shall describe its proposed team’s overall experience and past performance of its proposed team in providing services similar to those solicited.

B. As part of its offer, each Offeror is to provide a list of all contracts with any entity of the State of Maryland that it is currently performing or which has been completed within the last 5 years. For each identified contract the Offeror is to provide in its Technical Proposal:

- The State contracting entity;
- A brief description of the services/goods provided;
- The dollar value of the contract;
- The term of the contract;
- The State employee contact person (name, title, telephone number and if possible e-mail address); and
- Whether the contract was terminated before the end of the term specified in the original contract, including whether any available renewal option was not exercised.

The Procurement Officer or a designee will contact the identified State agencies, or the most appropriate ones if many contracts are involved, to ascertain the Offeror’s level of performance of State contracts.
Information obtained regarding the Offeror’s level of performance on State contracts will be considered as part of the experience and past performance evaluation criteria of the RFP.

C. As part of its offer, each Offeror is to provide a list of references for which similar actuarial and consulting services have been provided, in the following categories:

- At least 3 references from similar active governmental accounts/clients other than DBM;
- At least 3 references from prior similar accounts/clients which terminated within the past two years;
- At least 1 reference for each subcontractor shall be provided; and
- Provide updated name, address, and contact information for each reference provided.

4.4.2.6 Financial Capability and Statements

The Offeror shall provide evidence that the Offeror has the financial capacity to provide the services by providing copies of the last two (2) year end financial statements (independently audited preferred). The financial statements must be for the entity proposing to provide services under this RFP and not for any prospective owners or parent companies not directly involved in the provision of services.

The Offeror shall provide a list of applicable insurance the Offeror carries for liability purposes. (see Section 3.10, Insurance Requirements.)

4.4.2.7 Staffing Plan, Personnel, Qualification and Professional Experience

The Offeror shall provide a staffing plan, identifying its proposed Account Manager and describing how the Offeror intends to staff this Contract to meet the State’s needs. As part of the staffing plan, the Offeror shall submit the resumes of the proposed staff to complete the work required by the Contract. The resumes and staffing plan may also include a description of whether the proposed staff worked on the accounts submitted as references by the Contractor.

The Offeror shall provide a short summary of the professional experience, achievements and capabilities of those staff and personnel proposed to serve as the core account team for the State's contract. For example, if the actuary proposed to lead the rate annual setting process for the State has performed similar services for other similarly sized clients, please provide a description of that actuary's experience and role. To the extent that the resume(s) provided for such proposed staff address this level of detail and capability, the Offeror need not repeat the requested information.

4.4.2.8 Subcontractors

A. Offerors must identify subcontractors and the role these subcontractors will have in the performance of the contract. MBE subcontractors must also be identified in the Proposal.
and each Subcontractor question must be answered with regard to each MBE.

B. A summary of the experience and expertise of the proposed subcontractors shall be provided as part of the Offeror’s Technical Proposal.

C. Offerors must submit completed and fully executed ATTACHMENTS D-1 with their technical proposals.

4.4.2.9 Problem Escalation Clause

The Offeror must explain, as per the requirements in Section 3.11, how problems with work under the Contract will be escalated in order to resolve all issues in a timely manner.

4.4.2.10 Economic Benefit Factors

Offerors shall submit with their proposals a narrative describing benefits that will accrue to the Maryland economy as a direct or indirect result of their performance of this contract. Proposals will be evaluated to assess the benefit to Maryland’s economy specifically offered.

Proposals that identify specific benefits as being contractually enforceable commitments will be rated more favorably than proposals that do not identify specific benefits as contractual commitments, all other factors being equal.

Offerors shall identify any performance guarantees that will be enforceable by the State if the full level of promised benefit is not achieved during the contract term.

As applicable, for the full duration of the contract, including any renewal period, or until the commitment is satisfied, the contractor shall provide to the procurement officer or other designated agency personnel reports of the actual attainment of each benefit listed in response to this section. These benefit attainment reports shall be provided quarterly, unless elsewhere in these specifications a different reporting frequency is stated.

Please note that in responding to this section, the following do not generally constitute economic benefits to be derived from this contract:

1. generic statements that the State will benefit from the offeror’s superior performance under the contract;
2. descriptions of the number of offeror employees located in Maryland other than those that will be performing work under this contract; or
3. tax revenues from Maryland based employees or locations, other than those that will be performing, or used to perform, work under this contract.

Discussion of Maryland based employees or locations may be appropriate if the offeror makes some projection or guarantee of increased or retained presence based upon being awarded this contract.
Examples of economic benefits to be derived from a contract may include any of the following. For each factor identified below, identify the specific benefit and contractual commitments and provide a breakdown of expenditures in that category:

- The contract dollars to be recycled into Maryland’s economy in support of the contract, through the use of Maryland subcontractors, suppliers and joint venture partners;
- The number and types of jobs for Maryland residents resulting from the contract. Indicate job classifications, number of employees in each classification and the aggregate payroll to which the contractor has committed, including contractual commitments at both prime and, if applicable, subcontract levels;
- Tax revenues to be generated for Maryland and its political subdivisions as a result of the contract. Indicate tax category (sales taxes, payroll taxes, inventory taxes and estimated personal income taxes for new employees). Provide a forecast of the total tax revenues resulting from the contract;
- Subcontract dollars committed to Maryland small businesses and MBEs; and
- Other benefits to the Maryland economy which the offeror promises will result from awarding the contract to the offeror, including contractual commitments. Describe the benefit, its value to the Maryland economy, and how it will result from, or because of the contract award. Offerors may commit to benefits that are not directly attributable to the contract, but for which the contract award may serve as a catalyst or impetus.

4.4.2.11 Summary of Required Technical Proposal Attachments

Transmittal Letter;
Technical Proposal, Volume I;
Conflict of Interest Affidavits – Attachment G from Offeror and all subcontractors
Bid/Proposal Affidavit (Attachment B);
MBE Forms (Attachment D-1);

4.5 Volume II - Financial Proposal

Under separate sealed cover from the Technical Proposal and clearly identified with the same information noted on the Technical Proposal, the Offeror must submit an original unbound copy, five (5) bound copies, and one (1) electronic copy (in MS Excel or Word format) in a separate envelope labeled as described in Section 4.2, of the Financial Proposal. The Financial Proposal must contain all price information in the format specified in ATTACHMENT F.
SECTION 5 – EVALUATION CRITERIA AND SELECTION PROCEDURE

5.1 Evaluation Criteria

Evaluation of the proposals will be performed by a committee organized for that purpose. Evaluations will be based on the criteria set forth below.

5.2 Technical Criteria

The criteria to be applied to each technical proposal are as follows, listed in descending order of importance:

1. Response to Scope of Work (RFP Section 4.4.2.3);
2. Offeror Experience, Team Capability, and Subcontractors (RFP Sections 4.4.2.5; 4.4.2.6; & 4.4.2.8)
3. Staffing Plan, Personnel, Qualification and Professional Experience (RFP Section 4.4.2.7)
4. Economic Benefit Factors (RFP Section 4.4.2.10)

5.3 Financial Criteria

All qualified Offerors will be ranked from the lowest to the highest price based on the total price proposed as shown in Attachment F.

5.4 Reciprocal Preference

Although Maryland law does not authorize procuring agencies to favor resident Offerors in awarding procurement contracts, many other states do grant their resident businesses preferences over Maryland contractors. Therefore, as described in COMAR 21.05.01.04, a resident business preference will be given if: a responsible Offeror whose headquarters, principal base of operations, or principal site that will primarily provide the services required under this RFP is in another state submits the most advantageous offer; the other state gives a preference to its residents through law, policy, or practice; and, the preference does not conflict with a Federal law or grant affecting the procurement contract. The preference given shall be identical to the preference that the other state, through law, policy or practice gives to its residents.
5.5 Selection Procedures

5.5.1 General Selection Process

The contract will be awarded in accordance with the competitive sealed proposals process under Code of Maryland Regulations 21.05.03. The competitive sealed proposals method is based on discussions and revision of proposals during these discussions.

Accordingly, the State may hold discussions with all Offerors judged reasonably susceptible of being selected for award, or potentially so. However, the State also reserves the right to make an award without holding discussions. In either case of holding discussions or not doing so, the State may determine an Offeror to be not responsible and/or an Offeror’s proposal to be not reasonably susceptible of being selected for award, at any time after the initial closing date for receipt of proposals and the review of those proposals.

5.5.2 Selection Process Sequence

1. The first level of review will be an evaluation for technical merit. During this review oral presentations and discussions may be held. The purpose of such discussions will be to assure a full understanding of the State’s requirements and the Offeror’s ability to perform to the standards described, and to facilitate arrival at a contract that will be most advantageous to the State. For scheduling purposes, Offerors should be prepared to make an oral presentation and participate in discussions within two to four weeks of the delivery of proposals to the State. The Procurement Officer will contact Offerors when the schedule is set by the State.

2. Offerors must confirm in writing any substantive oral clarification of, or change in, their proposals made in the course of discussions. Any such written clarification or change then becomes part of the Offeror’s proposal.

3. The financial proposal of each Offeror will be evaluated separately from the technical evaluation. After a review of the financial proposals of Offerors, the Procurement Officer may again conduct discussions.

4. When in the best interest of the State, the Procurement Officer may permit Offerors who have submitted acceptable proposals to revise their initial proposals and submit, in writing, best and final offers (BAFOs).
5.6. Award Determination

Upon completion of all discussions and negotiations, reference checks, and site visits, if any, the Procurement Officer will recommend award of the contract to the responsible Offeror whose proposal is determined to be the most advantageous to the State considering technical evaluation factors and price factors as set forth in this RFP. In making the most advantageous Offeror determination, technical factors and financial factors will be given equal consideration.

This Contract shall be subject to the provisions of Title 15, Subtitle 2, of the State Finance and Procurement Article of the Annotated Code of Maryland, and COMAR 21.10 (Administrative and Civil Remedies). Pending resolution of a claim, the Contractor shall proceed diligently with the performance of the Contract in accordance with the Procurement Officer’s decision. Unless a lesser period is provided by applicable statute, regulation, or the Contract, the Contractor must file a written notice of claim with the Procurement Officer within 30 days after the basis for the claim is known or should have been known, whichever is earlier. Contemporaneously with or within 30 days of the filing of a notice of claim, but no later than the date of final payment under the Contract, the Contractor must submit to the Procurement Officer its written claim containing the information specified in COMAR 21.10.04.02.

10. **Maryland Law**

This Contract shall be construed, interpreted, and enforced according to the laws of the State of Maryland. Any and all references to the Annotated Code of Maryland contained in this Contract shall be construed to refer to such Code sections as from time to time amended.

11. **Nondiscrimination in Employment**

The Contractor agrees: (a) not to discriminate in any manner against an employee or applicant for employment because of race, color, religion, creed, age, sex, marital status, national origin, ancestry, or disability of a qualified individual with a disability; (b) to include a provision similar to that contained in subsection (a), above, in any subcontract except a subcontract for standard commercial supplies or raw materials; and (c) to post and to cause subcontractors to post in conspicuous places available to employees and applicants for employment, notices setting forth the substance of this clause.

12. **Contingent Fee Prohibition**

The Contractor warrants that it has not employed or retained any person, partnership, corporation, or other entity, other than a bona fide employee, bona fide agent, bona fide salesperson, or commercial selling agency working for the Contractor to solicit or secure this Contract, and that it has not paid or agreed to pay any person, partnership, corporation or other entity, other than a bona fide employee, bona fide salesperson or commercial selling agency, any fee or other consideration contingent on the making of this Contract.
13. **Nonavailability of Funding**

If the General Assembly fails to appropriate funds or if funds are not otherwise made available for continued performance for any fiscal period of this Contract succeeding the first fiscal period, this Contract shall be canceled automatically as of the beginning of the fiscal year for which funds were not appropriated or otherwise made available; provided, however, that this will not affect either the State’s rights or the Contractor’s rights under any termination clause in this Contract. The effect of termination of the Contract hereunder will be to discharge both the Contractor and the State from future performance of the Contract, but not from their rights and obligations existing at the time of termination. The Contractor shall be reimbursed for the reasonable value of any nonrecurring costs incurred but not amortized in the price of the Contract. The State shall notify the Contractor as soon as it has knowledge that funds may not be available for the continuation of this Contract for each succeeding fiscal period beyond the first.

14. **Termination for Cause**

If the Contractor fails to fulfill its obligations under this Contract properly and on time, or otherwise violates any provision of the Contract, the State may terminate the Contract by written notice to the Contractor. The notice shall specify the acts or omissions relied upon as cause for termination. All finished or unfinished work provided by the Contractor shall, at the State’s option, become the State’s property. The State of Maryland shall pay the Contractor fair and equitable compensation for satisfactory performance prior to receipt of notice of termination, less the amount of damages caused by the Contractor’s breach. If the damages are more than the compensation payable to the Contractor, the Contractor will remain liable after termination and the State can affirmatively collect damages. Termination hereunder, including the termination of the rights and obligations of the parties, shall be governed by the provisions of COMAR 21.07.01.11B.

15. **Termination for Convenience**

The performance of work under this Contract may be terminated by the State in accordance with this clause in whole, or from time to time in part, whenever the State shall determine that such termination is in the best interest of the State. The State will pay all reasonable costs associated with this Contract that the Contractor has incurred up to the date of termination, and all reasonable costs associated with termination of the Contract; provided, however, the Contractor shall not be reimbursed for any anticipatory profits that have not been earned up to the date of termination. Termination hereunder, including the determination of the rights and obligations of the parties, shall be governed by the provisions of COMAR 21.07.01.12 (A) (2).

16. **Delays and Extensions of Time**

The Contractor agrees to perform the work under this Contract continuously and diligently. No charges or claims for damages shall be made by the Contractor for any delays or hindrances from any cause whatsoever during the progress of any portion of the work specified in this Contract. Time extensions will be granted only for excusable delays that arise from unforeseeable causes.
beyond the control and without the fault or negligence of the Contractor, including but not restricted to acts of God, acts of the public enemy, acts of the State in either its sovereign or contractual capacity, acts of another contractor in the performance of a contract with the State, fires, floods, epidemics, quarantine restrictions, strikes, freight embargoes, or delays of subcontractors or suppliers arising from unforeseeable causes beyond the control and without the fault or negligence of either the Contractor or the subcontractors or suppliers.

17. Suspension of Work

The State unilaterally may order the Contractor in writing to suspend, delay, or interrupt all or any part of its performance for such period of time as the Procurement Officer or Contract Manager may determine to be appropriate for the convenience of the State.

18. Pre-Existing Regulations

In accordance with the provisions of Section 11-206 of the State Finance and Procurement Article, Annotated Code of Maryland, the regulations set forth in Title 21 of the Code of Maryland Regulations (COMAR 21) in effect on the date of execution of this Contract are applicable to this Contract.

19. Financial Disclosure

The Contractor shall comply with the provisions of Section 13-221 of the State Finance and Procurement Article of the Annotated Code of Maryland, which requires that every business that enters into contracts, leases, or other agreement with the State of Maryland or its agencies during a calendar year under which the business is to receive in the aggregate $100,000 or more, shall within 30 days of the time when the aggregate value of these contracts, leases or other agreements reaches $100,000, file with the Secretary of the State of Maryland certain specified information to include disclosure of beneficial ownership of the business.

20. Political Contribution Disclosure

The Contractor shall comply with the Election Law Article, Sections 14-101 through 14-108, of the Annotated Code of Maryland, which requires that every person that enters into contracts, leases, or other agreements with the State, a county or an incorporated municipality or their agencies, during a calendar year under which the person receives in the aggregate $100,000 or more, shall file with the State Board of Elections a statement disclosing contributions in excess of $500 made during the reporting period to a candidate for elective office in any primary or general election. The statement shall be filed with the State Board of Elections: (1) before a purchase or execution of a lease or contract by the State, a county, an incorporated municipality, or their agencies, and shall cover the preceding two calendar years; and (2) if the contribution is made after the execution of a lease or contract, then twice a year, throughout the contract term, on: (a) February 5, to cover the 6-month period ending January 31; and (b) August 5, to cover the 6-month period ending July 31.
21. **Retention of Records**

The Contractor shall retain and maintain all records and documents in any way relating to this Contract for six years after final payment by the State of Maryland under this Contract or any applicable statute of limitations, whichever is longer, and shall make them available for inspection and audit by authorized representatives of the State, including the Procurement Officer or the Procurement Officer’s designee, at all reasonable times. All records related in any way to the Contract are to be retained for the entire time provided under this section. This section shall survive expiration of this Contract.

22. **Compliance with Laws**

The Contractor hereby represents and warrants that:

A. It is qualified to do business in the State of Maryland and that it will take such action as, from time to time hereafter, may be necessary to remain so qualified;

B. It is not in arrears with respect to the payment of any monies due and owing the State of Maryland, or any department or unit thereof, including but not limited to the payment of taxes and employee benefits, and that it shall not become so in arrears during the term of this Contract;

C. It shall comply with all federal, State and local laws, regulations, and ordinances applicable to its activities and obligations under this Contract; and

D. It shall obtain, at its expense, all licenses, permits, insurance, and governmental approvals, if any, necessary to the performance of its obligations under this Contract.

23. **Cost and Price Certification**

By submitting cost or price information, the Contractor certifies to the best of its knowledge that the information submitted is accurate, complete, and current as of a mutually determined specified date prior to the conclusion of any price discussions or negotiations.

The price under this Contract and any change order or modification hereunder, including profit or fee, shall be adjusted to exclude any significant price increases occurring because the Contractor furnished cost or price information which, as of the date agreed upon by the parties, was inaccurate, incomplete, or not current.

24. **Subcontracting; Assignment**

The Contractor may not subcontract any portion of the services provided under this Contract without obtaining the prior written approval of the State of Maryland, nor may the Contractor assign this Contract or any of its rights or obligations hereunder, without the prior written approval of the State. Any such subcontract or assignment shall include the terms of sections 8, and 10 through 23 of this Contract and any other terms and conditions that the State deems
necessary to protect its interests. The State shall not be responsible for the fulfillment of the Contractor’s obligations to the subcontractors.

25. **Indemnification**

25.1 The Contractor shall indemnify the State against liability for any costs, expenses, loss, suits, actions, or claims of any character arising from or relating to the performance of the Contractor or its subcontractors under this Contract.

25.2 The State of Maryland has no obligation to provide legal counsel or defense to the Contractor or its subcontractors in the event that a suit, claim or action of any character is brought by any person not party to this Contract against the Contractor or its subcontractors as a result of or relating to the Contractor’s obligations under this Contract.

25.3 The State has no obligation for the payment of any judgments or the settlement of any claims against the Contractor or its subcontractors as a result of or relating to the Contractor’s obligations under this Contract.

25.4 The Contractor shall immediately notify the Procurement Officer of any claim or suit made or filed against the Contractor or its subcontractors regarding any matter resulting from or relating to the Contractor’s obligations under the Contract, and will cooperate, assist, and consult with the State in the defense or investigation of any claim, suit, or action made or filed against the State as a result of or relating to the Contractor’s performance under this Contract.

25.5 This Section 25 survives the termination of this Contract.

26. **Prompt Pay Requirements**

26.1 If the Contractor withholds payment of an undisputed amount to its subcontractor, the Department, at its option and in its sole discretion, may take one or more of the following actions:

(a) Not process further payments to the contractor until payment to the subcontractor is verified;
(b) Suspend all or some of the contract work without affecting the completion date(s) for the contract work;
(c) Pay or cause payment of the undisputed amount to the subcontractor from monies otherwise due or that may become due;
(d) Place a payment for an undisputed amount in an interest-bearing escrow account; or
(e) Take other or further actions as appropriate to resolve the withheld payment.

26.2 An “undisputed amount” means an amount owed by the Contractor to a subcontractor for which there is no good faith dispute. Such “undisputed amounts” include, without limitation:
(a) Retainage which had been withheld and is, by the terms of the agreement between the Contractor and subcontractor, due to be distributed to the subcontractor; and 
(b) An amount withheld because of issues arising out of an agreement or occurrence unrelated to the agreement under which the amount is withheld.

26.3. An act, failure to act, or decision of a Procurement Officer or a representative of the Department, concerning a withheld payment between the Contractor and a subcontractor under this provision, may not:
   (a) Affect the rights of the contracting parties under any other provision of law; 
   (b) Be used as evidence on the merits of a dispute between the Department and the contractor in any other proceeding; or 
   (c) Result in liability against or prejudice the rights of the Department.

26.4. The remedies enumerated above are in addition to those provided under COMAR 21.11.03.13 with respect to subcontractors that have contracted pursuant to the Minority Business Enterprise program.

26.5. To ensure compliance with certified MBE subcontract participation goals, the Department may, consistent with COMAR 21.11.03.13, take the following measures:
   (a) Verify that the certified MBEs listed in the MBE participation schedule actually are performing work and receiving compensation as set forth in the MBE participation schedule. 
   (b) This verification may include, as appropriate:
      i. Inspecting any relevant records of the Contractor; 
      ii. Inspecting the jobsite; and 
      iii. Interviewing subcontractors and workers. 
   iv. Verification shall include a review of:
      a. The Contractor’s monthly report listing unpaid invoices over 30 days old from certified MBE subcontractors and the reason for nonpayment; and 
      b. The monthly report of each certified MBE subcontractor, which lists payments received from the Contractor in the preceding 30 days and invoices for which the subcontractor has not been paid.
   (c) If the Department determines that the Contractor is in noncompliance with certified MBE participation goals, then the Department will notify the Contractor in writing of its findings, and will require the Contractor to take appropriate corrective action. Corrective action may include, but is not limited to, requiring the Contractor to compensate the MBE for work performed as set forth in the MBE participation schedule.
   (d) If the Department determines that the Contractor is in material noncompliance with MBE contract provisions and refuses or fails to take the corrective action that the Department requires, then the Department may:
      i. Terminate the contract; 
      ii. Refer the matter to the Office of the Attorney General for appropriate action; or
iii. Initiate any other specific remedy identified by the contract, including the contractual remedies required by this Directive regarding the payment of undisputed amounts.

(e) Upon completion of the Contract, but before final payment or release of retainage or both, the Contractor shall submit a final report, in affidavit form under the penalty of perjury, of all payments made to, or withheld from MBE subcontractors.

27. Living Wage

Contractors and Subcontractors subject to the Living Wage Law shall pay each covered employee at least the minimum amount set by law for the applicable Tier. If a Contractor is an out of state contractor, this contract is deemed to be a Tier 1 Contract.

28. Commercial Non-Discrimination

28.1 As a condition of entering into this Contract, Contractor represents and warrants that it will comply with the State’s Commercial Nondiscrimination Policy, as described under Title 19 of the State Finance and Procurement Article of the Annotated Code of Maryland. As part of such compliance, Contractor may not discriminate on the basis of race, color, religion, ancestry or national origin, sex, age, marital status, sexual orientation, or on the basis of disability or other unlawful forms of discrimination in the solicitation, selection, hiring, or commercial treatment of subcontractors, vendors, suppliers, or commercial customers, nor shall Contractor retaliate against any person for reporting instances of such discrimination. Contractor shall provide equal opportunity for subcontractors, vendors, and suppliers to participate in all of its public sector and private sector subcontracting and supply opportunities, provided that this clause does not prohibit or limit lawful efforts to remedy the effects of marketplace discrimination that have occurred or are occurring in the marketplace. Contractor understands that a material violation of this clause shall be considered a material breach of this Contract and may result in termination of this Contract, disqualification of Contractor from participating in State contracts, or other sanctions. This clause is not enforceable by or for the benefit of, and creates no obligation to, any third party.

28.2 The Contractor shall include the above Commercial Nondiscrimination clause, or similar clause approved by the Department, in all subcontracts.

28.3 As a condition of entering into this Contract, upon the Maryland Human Relations Commission’s request, and only after the filing of a complaint against Contractor under Title 19 of the State Finance and Procurement Article Contractor agrees to provide within 60 days after the request a complete list of the names of all subcontractors, vendors, and suppliers that Contractor has used in the past 4 years on any of its contracts that were undertaken within the state of Maryland, including the total dollar amount paid by Contractor on each subcontract or supply contract. Contractor further agrees to cooperate in any investigation conducted by the State pursuant to the State’s Commercial Nondiscrimination Policy as set forth under Title 19 of the State Finance and Procurement Article of the Annotated Code of Maryland, and to provide any documents relevant to any investigation that are requested by the State. Contractor understands that violation of this clause is a material breach of this Contract and may result in
contract termination, disqualification by the State from participating in State contracts, and other sanctions.

29. **Loss of Data**
In the event of loss of any State data or records where such loss is due to the intentional act or omission or negligence of the Contractor or any of its subcontractors or agents, the Contractor shall be responsible for recreating such lost data in the manner and on the schedule set by the Contract Manager. The Contractor shall ensure that all data is backed up and recoverable by the Contractor. Contractor shall use its best efforts to assure that at no time shall any actions undertaken by the Contractor under this Contract (or any failures to act when Contractor has a duty to act) damage or create any vulnerabilities in data bases, systems, platforms and/or applications with which the Contractor is working hereunder.

ATTACHMENT B - BID/PROPOSAL AFFIDAVIT

(Authorized Representative and Affiant)

A. Each solicitation shall provide notice that the affidavit in §B of this regulation shall be completed and submitted to the procurement agency with the vendor's bid or offer.

B. Mandatory Solicitation Addendum. The solicitation addendum shall be in substantially the same form as follows:

BID/PROPOSAL AFFIDAVIT

A. AUTHORIZED REPRESENTATIVE

I HEREBY AFFIRM THAT:

I am the (title) ________ and the duly authorized representative of (business) ________ and that I possess the legal authority to make this Affidavit on behalf of myself and the business for which I am acting.

B. CERTIFICATION REGARDING COMMERCIAL NONDISCRIMINATION

The undersigned bidder hereby certifies and agrees that the following information is correct: In preparing its bid on this project, the bidder has considered all proposals submitted from qualified, potential subcontractors and suppliers, and has not engaged in "discrimination" as defined in §19-103 of the State Finance and Procurement Article of the Annotated Code of Maryland. "Discrimination" means any disadvantage, difference, distinction, or preference in the solicitation, selection, hiring, or commercial treatment of a vendor, subcontractor, or commercial customer on the basis of race, color, religion, ancestry, or national origin, sex, age, marital status, sexual orientation, or on the basis of disability or any otherwise unlawful use of characteristics regarding the vendor's, supplier's, or commercial customer's employees or owners. "Discrimination" also includes retaliating against any person or other entity for reporting any incident of "discrimination". Without limiting any other provision of the solicitation on this project, it is understood that, if the certification is false, such false certification constitutes grounds for the State to reject the bid submitted by the bidder on this project, and terminate any contract awarded based on the bid. As part of its bid or proposal, the bidder herewith submits a list of all instances within the past 4 years where there has been a final adjudicated determination in a legal or administrative proceeding in the State of Maryland that the bidder discriminated against subcontractors, vendors, suppliers, or commercial customers, and a description of the status or resolution of that determination, including any remedial action taken. Bidder agrees to comply in all respects with the State's Commercial Nondiscrimination Policy as described under Title 19 of the State Finance and Procurement Article of the Annotated Code of Maryland.

The undersigned bidder hereby certifies and agrees that it has fully complied with the State Minority Business Enterprise Law, State Finance and Procurement Article, §14-308(a)(2), Annotated Code of Maryland, which provides that, except as otherwise provided by law, a contractor may not identify a certified minority business enterprise in a bid or proposal and:
(1) Fail to request, receive, or otherwise obtain authorization from the certified minority business enterprise to identify the certified minority proposal;

(2) Fail to notify the certified minority business enterprise before execution of the contract of its inclusion in the bid or proposal;

(3) Fail to use the certified minority business enterprise in the performance of the contract; or

(4) Pay the certified minority business enterprise solely for the use of its name in the bid or proposal.

Without limiting any other provision of the solicitation on this project, it is understood that if the certification is false, such false certification constitutes grounds for the State to reject the bid submitted by the bidder on this project, and terminate any contract awarded based on the bid.

PURPOSE

Contractor shall structure its procedures for the performance of the work required in this contract to attempt to achieve the minority business enterprise (MBE) goal stated in the Request for Proposals. MBE performance must be in accordance with this Exhibit, as authorized by Code of Maryland Regulations (COMAR) 21.11.03. Contractor agrees to exercise all good faith efforts to carry out the requirements set forth in this Exhibit.

MBE GOALS

An MBE subcontract participation percent goal of 13 percent of the total Consulting fees paid to the Contractor has been established for this procurement. By submitting a response to this solicitation, the Offeror agrees that this percentage of the total consulting dollar amount of the Contract will be performed by certified minority business enterprises.

By submitting a response to this solicitation, the offeror agrees that this percentage of the total consulting dollar amount of the contract will be performed by certified minority business enterprises as specified.

- A prime contractor – including an MBE prime contractor – must accomplish an amount of work not less that the MBE subcontract goal with certified MBE subcontractors.
- A prime contractor comprising a joint venture that includes MBE partner(s) must accomplish the MBE subcontract goal with certified MBE subcontractors.

SOLICITATION AND CONTRACT FORMATION

An offeror must include with its offer a completed Certified MBE Utilization and Fair Solicitation Affidavit (Attachment D-1) whereby:

(1) the offeror acknowledges the certified MBE participation goal or requests a waiver, (in whole or in part), commits to making a good faith effort to achieve the goal, and affirms that MBE subcontractors were treated fairly in the solicitation process; and

(2) the offeror responds to the expected degree of Minority Business Enterprise participation as stated in the solicitation, by identifying the specific commitment of certified MBEs at the time of submission. The Offeror shall specify the
percentage of contract value associated with each MBE subcontractor identified on the Certified MBE Utilization and Fair Solicitation Affidavit.

If an Offeror fails to submit a completed Attachment D-1 with the offer, the Procurement Officer shall deem the Offer not reasonably susceptible of being selected for award.

Within 10 working days from notification that it is the apparent awardee or from the date of the actual award, whichever is earlier, the apparent awardee must provide the following documentation to the Procurement Officer:

1. **Outreach Efforts Compliance Statement** (Attachment D-2)
2. **Subcontractor Project Participation Schedule** (Attachment D-3)
3. If the apparent awardee believes a waiver (in whole or in part) of the overall MBE goal is necessary, it must submit a fully documented waiver request that complies with COMAR 21.11.03.11.
4. Any other documentation required by the Procurement Officer to ascertain offeror responsibility in connection with the certified MBE participation goal.

If the apparent awardee fails to return each completed document within the required time, the Procurement Officer may determine that the apparent awardee is not responsible and therefore not eligible for contract award. If the contract has already been awarded, the award is voidable.

**CONTRACT ADMINISTRATION REQUIREMENTS**

Contractor shall:

1. Submit monthly to the Department a report listing any unpaid invoices, over 30 days old, received from any certified MBE subcontractor, the amount of each invoice and the reason payment has not been made.

2. Include in its agreements with its certified MBE subcontractors a requirement that those subcontractors submit monthly to the Department a report that identifies the prime contract and lists all payments received from Contractor in the preceding 30 days, as well as any outstanding invoices, and the amount of those invoices.

3. Maintain such records as are necessary to confirm compliance with its MBE participation obligations. These records must indicate the identity of certified minority and non-minority subcontractors employed on the contract, the type of work performed by each, and the actual dollar value of work performed. Subcontract agreements documenting the work performed by all MBE participants must be retained by the Contractor and furnished to the Procurement Officer on request.

4. Consent to provide such documentation as reasonably requested and to provide right-of-entry at reasonable times for purposes of the State’s representatives verifying compliance with the MBE participation obligations. Contractor must
retain all records concerning MBE participation and make them available for State inspection for three years after final completion of the contract.

5. At the option of the procurement agency, upon completion of the contract and before final payment and/or release of retainage, submit a final report in affidavit form and under penalty of perjury, of all payments made to, or withheld from MBE subcontractors.

   (c) Any other documentation, including waiver documentation, if applicable, required by the Procurement Officer to ascertain Offeror responsibility in connection with the certified MBE participation goal.

I understand that if I fail to return each completed document within the required time, the Procurement Officer may determine that I am not responsible and therefore not eligible for contract award. If the contract has already been awarded, the award is voidable.

3. In the solicitation of subcontract quotations or offers, MBE subcontractors were provided not less than the same information and amount of time to respond as were non-MBE subcontractors.
4. Set forth below are the (i) certified MBEs I intend to use and (ii) the percentage of the total contract amount allocated to each MBE for this project and the work activity (ies) each MBE will provide under the contract. I hereby affirm that the MBE firms are only providing those work activities for which they are MDOT certified.

The Commissioner shall publish any adjustments to the wage rates on the Division of Labor and Industry’s Website. An employer subject to the Living Wage Law must comply with the rate requirements during the initial term of the contract and all subsequent renewal periods, including any increases in the wage rate, required by the Commissioner, automatically upon the effective date of the revised wage rate.
