

***Guidelines for Submitting Economic-Benefits for  
CSMC Task Order Proposals***

A Master Contractor shall submit with its Task Order Proposal (TOP) a narrative describing the benefits that will accrue to the Maryland economy as a direct or indirect result of its performance of the Task Order Agreement (TOA). Its TOP will be evaluated to assess the benefit to Maryland's economy specifically offered.

A Master Contractor's TOP that identifies specific benefits as being contractually enforceable commitments will be rated more favorably under the evaluation criteria for Economic Benefits than a TOP that does not identify specific benefits as contractual commitments, all other factors being equal.

The Master Contractor's TOP shall identify any performance guarantees that will be enforceable by the State if the full level of promised benefit is not achieved during the task order term.

As applicable, for the full duration of the TOA, or until the commitment is satisfied, the Master Contractor shall provide to the procurement officer or other designated agency personnel reports of the actual attainment of each benefit listed in response to this section. If the Master Contractor is awarded the TOA, these benefit attainment reports shall be provided quarterly or other time period designated by Agency.

Please note that in responding to this section, the following *do not* generally constitute economic benefits to be derived from this TOA:

1. Generic statements that the State will benefit from the Master Contractor's superior performance under the contract;
2. Descriptions of the number of Master Contractor employees located in Maryland other than those that will be performing work under the TOA; or
3. Tax revenues from Maryland based employees or locations, other than those that will be performing, or used to perform, work under the TOA.

Discussion of Maryland based employees or locations may be appropriate if the Master Contractor makes some projection or guarantee of increased or retained presence based upon being awarded the TOA.

**Examples of economic benefits to be derived from a TOA may include any of the following. For each factor identified below, identify the specific benefit and contractual commitments and provide a breakdown of expenditures in that category:**

- A. The TOA dollars to be recycled into Maryland's economy in support of the TOA, through the use of Maryland subcontractors, suppliers and joint venture partners.
- B. The number and types of jobs for Maryland residents resulting from the TOA. Indicate the approved Labor Category classifications, number of employees in each classification and the aggregate payroll to which the Master Contractor has committed, including contractual commitments at both prime and, if applicable, subcontract levels.

*Guidelines for Submitting Economic-Benefits for  
CSMC Task Order Proposals*

- C. Tax revenues to be generated for Maryland and its political subdivisions as a result of the TOA. Indicate tax category (sales taxes, payroll taxes, inventory taxes and estimated personal income taxes for new employees). Provide a forecast of the total tax revenues resulting from the TOA.
- D. Subcontract dollars committed to current Maryland small businesses and MDOT certified MBEs.
- E. Other benefits to the Maryland economy which the Master Contractor promises will result from awarding the TOA to the Master Contractor, including contractual commitments. Describe the benefit, its value to the Maryland economy, and how it will result from, or because of the Task Order award. The Master Contractor may commit to benefits that are not directly attributable to the TOA, but for which the TOA award may serve as a catalyst or impetus.
