Tips for Time Entry:

- Each hour in the work day must be accounted for when entering time.
- Full-time and Part-time employees who work less than their normal scheduled hours must enter leave for any scheduled hours not worked.
- Use the plus  sign to account for each block of time worked or for intermittent leave taken in a day.

For example, John arrived at work at 8:00am and went to lunch at 12:00pm. He returned at 12:30pm and left work at 4:30pm for the day. To enter time for this day, John would add a row for 8:00am to 12:00pm and another row for 12:30pm to 4:30pm.

- Meals should not be included in your work hours unless your agency allows paid meal periods.
- The start time (e.g., **In**) and end time (e.g., **Out**) must be entered and the appropriate time code selected.

Valid entries when entering **In** and **Out** times:

Examples:

- To enter **8:00am**:
Valid entries: "8a", "8:00a", "0800", "8 am", "8:00 am"
- To enter **8:30am**:
Valid entries: "830a", "8:30a", "0830", "8:30 am"
- To enter 4:00pm:
Valid entries: "4p", "4:00p", "400p", "1600", "4 pm", "4:00pm"
- To enter 4:30pm:
Valid entries: "430p", "4:30p", "1630", "4:30 pm"
- Differentials and special payments require the entry of the total quantity of hours worked in that shift or activity (e.g., asbestos pay, on-call pay).
- Comp Time and Overtime:
 - **For Compressed Schedule Exempt Employees (Part-Time and Full-Time):** You must manually enter any additional time worked outside the normal compressed schedule for a day as "Comp Time Earned" on a second time block or row, including the start (in) time and end (out) time).
 - **For Compressed Schedule Non-Exempt Employees:** The system automatically calculates overtime after forty (40) hours have been worked in the week. If you choose to earn Comp Time in lieu of cash overtime or to "bank" your overtime instead of receiving cash, enter hours that you want to bank on the time sheet.
- You must account for your scheduled hours per day on your timesheet.
- You may have to enter several different time codes in the same day depending on the situation, one per row is allowed. You can click the **Add Row**  icon each time you want to add another row.
- The system automatically calculates the total work and leave hours for the week based on the in and out times or quantity entered.
- The system automatically calculates holidays (except for 24/7 employees). 24/7 employees must enter pre-scheduled holidays on the timesheet.
