

Special SPS Alert 125d:

Update on SPS Access

Release date: 11/18/2019

Good news! SPS is available to all employees!

As anticipated, SPS is available for the extension of the Open Enrollment period. The extended Open Enrollment will end on Tuesday, November 19th, at 5pm. Employees will get the SPS notifications based on their Open Enrollment event status (Not Started, In Progress, etc.) with the new extended Open Enrollment end date information.

Employees who completed and submitted events on or before Thursday, November 14th, do not have to do anything.

Employees who could not complete or make changes to their Open Enrollment event on Thursday, November 14th, can now complete their event by Tuesday, November 19th at 5:00pm.

Additionally, employees who still need to attach new or re-enrolled dependent documentation can do so prior to Tuesday, November 19th at 5:00pm. ABCs should continue to run the agency New Dependent report and reach out to employees with missing documentation.

We will have our usual Open Enrollment Support calls on Tuesday.

Thank you, again, for your assistance in this process.
