Edit Position Restrictions Business Process

Business Process Overview
The Edit Position Restrictions business process allows you to edit position(s). This business process gives you the ability to reclassify or change the positions using various reasons. See the Events and Reasons section below for details.

If you make a change to a position that is filled, you must also update the associated worker’s job information using Change Job business process (discussed in the previous lesson). The steps in the Edit Position Restrictions business process are listed in the table below.

5. Click the Done button.

Information: Your request has been routed for review and approval.

Tip: After completing a task in the business process you can view the next step.

- Click the drop-down arrow next to Details and Process to expand the section.
- Click the Process tab to see the path that the process will take.
- See the Check the Status of a Business Process section of this guide for details on how to view, access, or complete other tasks in the process.

6. The System Task is complete.
Change Organization Assignments  
(for Split / Reconsolidated Positions)

When a new position has been created or if a position is split or reconsolidated, you must assign organizations to the position. For positions that have been split or reconsolidated, you need to update the Authorized Percent for the position.

**Procedure:**

**Information:** If you did not assign organizations directly after submitting the edit position restriction request, then you can access this task from your inbox. Look for a task that begins with “Assign Organizations”. The position name will be in the task description.

1. Locate Authorized % in the Other section and click on the Edit icon.

2. Type or use the Prompt icon to select the Authorized %. For example, enter or select a percentage to designate the FTE % for the position such as "100" or "050".

3. Click the Save button.
4. Click the **Submit** button.

**Tip:** If you do not want to submit a task at this point, then you can also click one of the following buttons:

- Click **Save for Later** to save your changes but not submit.
- Click **Cancel** to cancel the process and start at another time.
Next Step: HR Partner Approval

5. Click the Done button.

💡 Tip: After completing a task in the business process you can view the next step.

- Click the drop-down arrow next to Details and Process to expand the section.
- Click the Process tab to see the path that the process will take.
- See the Check the Status of a Business Process section of this guide for details on how to view, access, or complete other tasks in the process.

6. The System Task is complete.
Change Job for Edit Position Restrictions

When the position change was performed on a filled position, you will need to update the associated worker's job information.

Procedure:

1. Click the Inbox icon.
2. Click the Inbox hyperlink.

Inbox

3. Click on the "Process Job Change on Worker: Edit Position Restrictions" task in your Actions list. The name of the position updated in the Edit Position Restrictions process displays in the task name.

4. Click on the arrows to expand the view.

5. Click on Change Job button to launch this process.
6. Type or use the Prompt to enter the employee's name in the Worker's field.

7. Click the OK button.

9. The System Task is complete.
Assign Roles to Worker

The Assign to Worker task is a “To Do” that displays when a worker leaves a position. When a worker leaves a job, there may be a need to assign that worker’s roles to another worker.

If the worker’s role is assigned to more than one person, it may not be necessary to assign roles to another worker.

The procedure to assign roles to another worker follows.

**Procedure:**

1. Click the **Inbox** icon.

2. Click the **Inbox** hyperlink.

**Inbox**

3. Click the Related Actions and Preview icon next to the worker's name.
View Worker

4. In the menu, hover over the Security Profile and click Assign Roles.
Assign Organization Roles

5. Click the OK button.
Assign Organization Roles

Determining if roles need to be reassigned to another worker:

- When there are no rows, the worker does not have any roles assigned. In this scenario, you would not need to assign roles to another worker. You can click **Cancel**.

- When a worker is assigned roles, there will be a row for each role that the worker is assigned listed by supervisory organization. In this scenario you should review the **Default Worker** column to review any other workers that would carry out the role in the departing worker’s absence. If you determine that a role assignment is necessary, then follow the steps below.

6. Click in the Assigned to column and type the name of the worker for whom you want to assign the role.

7. Click the **Submit** button once the appropriate names are populated in the Assigned To column.

8. Click the **Done** button.

9. The System Task is complete.
Assign Pay Group

The Assign Pay Group task requires you to view the default pay group (i.e., Biweekly, Biweekly – Contractual, or Monthly) and change it, if necessary.

**Procedure:**

1. Click the **Inbox** icon.

2. Click on the **Inbox** hyperlink to view the action items in the inbox.

3. Click the appropriate task in your inbox. HINT: The task name includes "Assign Pay Group for...." and includes the worker's name and employee ID.

4. Click on the arrows icon to expand the inbox.

5. Verify the default pay group. If needed, use the prompt to enter the Proposed Pay Group.

**Information:** The Proposed Pay Group is the defaulted pay group that is associated with the previous position. Review the pay group and modify it if necessary.
6. Click the **Approve** button.

7. Click the **Done** button.

**Tip:** After completing a task in the business process, you can view the next steps.

- Click the arrow next to **Details and Process** to expand the section.
- Click the **Process** tab to see the path that the process will take.
- See the *Check the Status of a Business Process* section of this guide for details on how to view, access or complete other tasks in the process.

8. The System Task is complete.
Check the Status of a Business Process

The status of a business process event can be checked at any time by going to the Archive tab within the inbox of the person who initiated the event.

The procedure to check the status of a business process event follows.

**Procedure:**

1. Click the Inbox icon.

2. Click the Inbox hyperlink.

3. Click the Archive tab.

   **Information:** The Archive tab shows all items by you. You can select an item and view the status on the right hand side of the screen.

4. Select the item for which you want to view the status.

5. Review the transaction details on the Details tab, if desired.
6. Review the Overall Status field at the top-left side of the transaction page.

**Information:** The overall status of a business displays:
- “Successfully Completed” when required steps in the process have been completed.
- “In Progress” when there are some tasks awaiting action by someone in the business process routing.

7. To view the status of individual tasks in a business process, click the Process tab.
8. Review the status, which steps have been completed/not completed, and who has the step for the action.

9. The System Task is complete.
