FMIS provides secure, current, complete, and consistent information to assist policy makers, program executives, and financial managers in decision-making and accurate assessment of the financial position and results of operation of their respective agencies.

MISSION

The mission of the ASM Division is to develop, implement, maintain and operate the secure automated FMIS supporting statewide administrative processes. The FMIS and adjunct applications and operations facilitate entry and access to management, financial and human resource data at statewide and agency levels.

VISION

The ASM Division envisions statewide administrative systems meeting the needs of system users, who are partners in determining system design and business requirements. Decision-makers will have ready access to current, complete, and consistent information. Systems will process administrative transactions in a timely and efficient manner to meet business needs, statutory and other requirements. Through professionalism and technical competence, the ASM Division will promote open communication and "user friendly" operations.
