#### D30N00.42 Maryland Wholesale Produce Market

#### **Program Description**

The Maryland Wholesale Produce Market opened in 1976 and operates as an integral component of the Maryland Food Center Complex. The Produce Market consists of two buildings with approximately 330,000 square feet of space. The 101 individual units in the buildings continue to be leased by privately owned firms engaged in the wholesale distribution of fresh produce. Many of the companies are second and third generations of the same family-owned business. The produce dealers own and operate highly specialized companies and lease their offices, storage and dock facilities from the Maryland Food Center Authority (MFCA). Receiving/shipping terminals, handling, storage, refrigeration, and processing functions for produce are centralized in a single location. These units have had to broaden their business; several companies include value added services that necessitated changes in their facility design.

#### D30N00.47 Maryland Market Center

#### **Program Description**

The Maryland Food Center Authority commenced a comprehensive redevelopment project to divide the Maryland Wholesale Seafood Market into two distinct sections – the seafood section and the non-seafood section. The consolidation of existing seafood companies to one section of the market allowed food companies other than seafood to occupy the non-seafood section of the market. The building was rebranded the Maryland Market Center to better describe the tenant mix following the consolidation of the existing seafood companies. The Maryland Market Center operates in a similar method to the Maryland Wholesale Produce Market, consolidating all of the specialized storage, refrigeration, shipping/receiving, and processing functions into one main facility expressly designed for the food industry. The 36 individual units in the building are intended to be leased by privately owned firms engaged in the wholesale distribution of fresh, frozen, and dry food products.
