***Requesting Agency Remarks:*** The Backup to this Item, for BPW approval, is the Governor's list of reductions for fiscal year 2021, by Department and Independent Agency. Consistent with the provisions of §7-213(b) of the State Finance and Procurement Article, no appropriations have been reduced for the payment of the principal and interest on State Debt, public schools mandated funding (including the School for the Deaf and the School for the Blind), or the salary of a public officer during the term of office. No reduction exceeds 25% of the appropriation.

The Backup sets out the total amount of the reductions for each Agency as well as a detailed summary of each reduction, including the name of the program as well as the amount, fund source, and brief description of the impact of the reduction. Reductions will result in the elimination of 91.8 vacant State employee positions. The backup provided includes the agency, position identification number, classification code and title, and salary grade for each eliminated position. See Appendix I for a plain language summary of General Fund reductions.

Pursuant to §7-213(a) of the State Finance and Procurement Article, notice of the proposed reductions was originally published on the Department of Budget and Management's website on June 26, 2020.
