Auditor's Evaluation Of Maintenance Of Operational Records:

Acceptable

Unacceptable

Auditor: Tracy Ross

Date Audit Scheduled: _____ Reaudit: _____

The Following Standard Observations and Findings Apply

- _____ 1. Unauditable - Records Provided/ Incomplete
- _____ 2. Records not legible or incomplete and, therefore, unauditable.
- _____ 3. Records maintained at another location in Maryland or out-of-state
- _____ 4. Source documentation supporting mileage summaries not available, incomplete, or not properly summarized.
- _____ 5. Carrier did not keep appointment.
- 6. Source documents do not support mileage originally reported within specific jurisdiction.

Audit Report

Purpose, Scope and Methodology

We have completed the audit of the distances reported by the IRP participant, Motor Carrier Services, for the 12 month period starting July 1, 2008 and ending June 30, 2009. Our audit was conducted in accordance with generally accepted accounting and auditing standards, the IRP Audit Procedures Manual and included a review of related policies and procedures, laws, rules, regulations, and tests of records we deemed necessary in the circumstances.

We reconciled the odometer miles with the jurisdiction miles for the 3rd and 4th quarter 2008, verified the continuity of the odometer readings and tested 10 trips using Promiles Software to test the accuracy of the in-state and out-of-state distances traveled by the vehicle.

Registrant Responsibilities

Section 400 of the IRP Manual titled Registrant Responsibilities require that the registrant must maintain operational records that support the total distance traveled in each jurisdiction and total distance traveled everywhere. It requires that the Individual Vehicle Distance Records (IVDRs) shall contain the following information:

- 1. Date of trip;
- 2. Trip origin and destination;
- 3. Route of travel;
- 4. Beginning and ending odometer or hubodometer reading of the trip;
- 5. Total trip distance traveled;
- 6. Distance traveled by jurisdiction;
- 7. Unit number or vehicle identification number.

It further states that from the information on the IVDRs, the registrant must prepare and maintain:

1. A monthly summary that recaps jurisdictional and total distance traveled by each vehicle operated during the calendar month;
2. A quarterly summary that recaps jurisdictional and total distance traveled by the fleet during each calendar quarter; and
3. A summary of the quarterly recaps used in preparing the application for apportionment.

Our review disclosed that the driver's trip reports contained information needed to verify the distances reported by the registrant. The registrant did prepare and maintain a monthly/quarterly summary that recaps jurisdictional and total distance traveled by each vehicle operated during the calendar month. However, the registrant did not prepare and maintain a summary of the quarterly recaps used in preparing the application of apportionment.

Internal Control

To ensure accuracy, good internal controls dictate that reports must be reviewed independently. It also requires that duties and responsibilities must be adequately segregated.

Our review of the registrant's internal controls disclosed that the mileage sheets and quarterly jurisdiction mileage summaries were completed by the driver. There was no indication that the mileage sheets and the quarterly summaries were reviewed for accuracy. Consequently, there is no assurance that the distances reported by the registrant to the MVA were accurate.

Jurisdiction Miles

The distances traveled on this report were obtained from the driver's trip reports and summary reports. To test the accuracy of the miles reported, we reconciled odometer miles for the 3rd and 4th quarter 2008 with the jurisdiction miles reported.

Our reconciliation showed that the reported actual total jurisdiction miles were understated by 216 miles. Arkansas was understated by 281 miles; Delaware was understated by 26 miles; Illinois was overstated by 155 miles; Indiana was understated by 344 miles; Maryland was overstated by 42 miles; Missouri was overstated by 249 miles; Ohio was overstated by 227 miles; Pennsylvania was overstated by 89 miles; Tennessee was understated by 1 mile; Texas was understated by 308 miles; Virginia was overstated by 168 miles; and West Virginia was understated by 186 miles.

The registrant indicated on the application for apportionment actual mileage traveled in Kansas. However, we did not find any evidence that the vehicle traveled into this jurisdiction. Accordingly, the actual miles reported were converted to estimates. The resulting credits were denied, due to non compliance with IRP recordkeeping requirements.

Our test of 10 trips using Promiles software disclosed instances when the out-of-state mileages were either understated or overstated. Overstatements ranged from .2 to 376.4 miles and understatements ranged from .3 to 17.1. We did not adjust understated mileage due to the insignificance of the discrepancies. Overstatements were not adjusted under the assumption that the vehicle may have traveled somewhere in those States other than the destination. We concluded that the trip distances recorded were reasonably accurate and properly allocated among all jurisdictions.

The following are the audited miles for the period ended June 30, 2009.

Alabama	243	Pennsylvania	3929
Arkansas	1124	North Carolina	1189
Maryland	3371	New Jersey	1006
Michigan	1073	New York	583
Missouri	309	Ontario	50
Mississippi	171	Ohio	2570
Delaware	246	Oklahoma	533
Georgia	508	South Carolina	330
Illinois	297	Tennessee	1710
Indiana	547	Texas	3373
Kentucky	306	Virginia	3699
Louisiana	318	West Virginia	685
			<u>28170</u>

Recommendations

1. Maintain records as outlined in Section 400 IRP Audit Procedures Manual titled Registrants Responsibilities.
2. Review mileage reports independently for accuracy.

Exit Conference

We conducted a phone conference with Motor Carrier Services on December 6, 2011, and discussed our findings and recommendations. Mr. Motor Carrier concurred with our findings and recommendations. He was advised to provide all records required and have an independent reviewer verify mileage reports for accuracy.
