In the event of a change in Applicable Law that, in the written opinion of legal counsel, makes it probable that the continued performance under this Contract could subject a party to penalties, sanctions, or other adverse government or administrative legal action the parties will revisit the terms of the Contract to determine whether the Contract can be performed, must be modified, or must be terminated. In the event that the Contractor's Administrative Fee is less than \$750,000 per year, the parties will revisit the terms of the Contract to determine whether the Contract can be performed, must be modified, or must be terminated. The State's termination rights under Section 17.2 (Termination for Convenience) of the Contract are not affected by this section.
- 17.4 Due to Loss of 340B Program Eligibility. The Pharmacy Services contemplated in this Contract are dependent upon Contractor's continued eligibility to participate in the 340B program. The State's termination rights under Section 17.2 (Termination for Convenience) of the Contract are not affected by this section.

By submitting cost or price information, the Contractor certifies to the best of its knowledge that the information submitted is accurate, complete, and current as of the date of submission..

The price under this Contract and any change order or modification hereunder, including profit or fee, shall be adjusted to exclude any significant price increases occurring because the Contractor furnished cost or price information which, as of the date it was provided, was inaccurate, incomplete, or not current.

26. Subcontracting; Assignment

The Contractor may not subcontract any portion of the services provided under this Contract without obtaining the prior written approval of the Procurement Officer, nor may the Contractor assign this Contract or any of its rights or obligations hereunder, without the prior written approval of the Procurement Officer, provided, however, that a contractor may assign monies receivable under a contract after due notice to the State. Any subcontracts shall include such language as may be required in various clauses contained within this Contract, exhibits, and attachments. The Contract shall not be assigned until all approvals, documents, and affidavits are completed and properly registered. The State shall not be responsible for fulfillment of the Contractor's obligations to its subcontractors.

28. Commercial Nondiscrimination

- 28.1 As a condition of entering into this Contract, Contractor represents and warrants that it will comply with the State's Commercial Nondiscrimination Policy, as described at Md. Code Ann., State Finance and Procurement Article, Title 19. As part of such compliance, Contractor may not discriminate on the basis of race, color, religion, ancestry or national origin, sex, age, marital status, sexual orientation, gender identity, or on the basis of disability or other unlawful forms of discrimination in the solicitation, selection, hiring, or commercial treatment of subcontractors, vendors, suppliers, or commercial customers, nor shall Contractor retaliate against any person for reporting instances of such discrimination. Contractor shall provide equal opportunity for subcontractors, vendors, and suppliers to participate in all of its public sector and private sector subcontracting and supply opportunities, provided that this clause does not prohibit or limit lawful efforts to remedy the effects of marketplace discrimination that have occurred or are occurring in the marketplace. Contractor understands that a material violation of this clause shall be considered a material breach of this Contract and may result in termination of this Contract, disqualification of Contractor from participating in State contracts, or other sanctions. This clause is not enforceable by or for the benefit of, and creates no obligation to, any third party.
- 28.2 The Contractor shall include the above Commercial Nondiscrimination clause, or similar clause approved by the Department, in all subcontracts.
- 28.3 As a condition of entering into this Contract, upon the request of the Commission on Civil Rights, and only after the filing of a complaint against Contractor under Md. 29.6 The certificate of insurance shall acknowledge a requirement for the insurer to provide 45 days' notice to the Department in the event the Contractor's insurance will lapse due to non-payment of premiums, or will not be renewed by the insurer. In this event the Contractor must provide the Department Contract Monitor with evidence of replacement insurance within 30 days. At no time may the Contractor provide services under this contract without appropriate insurance coverage.

30. Security

30.1 Any person who is an employee or agent of the Contractor or subcontractor and who enters the Contractor's secure locked wards is subject to search of his or her person and/or property, and in addition may be fingerprinted (for the purpose of a criminal history background check), photographed and required to wear an identification card issued by the Department. Further, the Contractor, its employees and agents and subcontractor's employees and agents shall not violate any provisions of Title 9, Subtitle 4 of the Criminal Law Article of the Annotated Code of Maryland and such other security regulations, directives and policies of the Department about which they may be informed from time to time. The failure of any of the Contractor's or subcontractor's employees or agents to comply with any provision of this Section 30 of this contract is sufficient grounds for this Department to immediately terminate this contract for default.

34. Living Wage

If a Contractor subject to the Living Wage law fails to submit all records required under COMAR 21.11.10.05 to the Commissioner of Labor and Industry at the Department of Labor, Licensing and Regulation, the Department may withhold payment of any invoice or retainage. The Department may require certification from the Commissioner on a quarterly basis that such records were properly submitted.

35. Information Technology

- 35.1 "Sensitive Data" means information that is protected against unwarranted disclosure, to include Personally Identifiable Information (PII), Protected Health Information (PHI) or other private/confidential data, as specifically determined by the State. Sensitive Data includes information about an individual that (1) can be used to distinguish or trace an individual's identity, such as name, social security number, date and place of birth, mother's maiden name, or biometric records; (2) is linked or linkable to an individual, such as medical, educational, financial, and employment information; (3) falls within the definition of "personal information" under Md. Code Ann., State Govt. § 14-3501(d); or (4) falls within the definition of "personal information" under Md. Code Ann., St. Fin. & Proc. § 10-1301(c).
- 35.2 "Relevant subcontractor" includes any subcontractor that assists the Contractor in the critical functions of the Contract, handles Sensitive Data, and/or assists with any related implemented system, excluding subcontractors that provide secondary services that are not pertinent to assisting the Contractor in the critical functions of the Contract, handling Sensitive Data, and/or assisting with any related implemented system.
- 35.3 The Contractor, including any relevant subcontractor(s), shall implement administrative, physical, and technical safeguards to protect State data that are no less rigorous than accepted industry standards for information security such as those listed below, and shall ensure that all such safeguards, including the manner in which State data is collected, accessed, used, stored, processed, disposed of and disclosed, comply with applicable data protection and privacy laws as well as the terms and conditions of these Specifications and resulting Contract.
- 35.4 The Contractor, including any and all subcontractor(s), agrees to abide by all applicable federal, State and local laws concerning information security and comply with current State of Maryland Department of Information Technology Security Policy: <http://doit.maryland.gov/support/Pages/SecurityPolicies.aspx>. The State IT Security Policy may be revised from time to time. The Contractor and all subcontractors shall comply with all such revisions. Updated and revised versions of the State IT Policy and Standards are available online at: www.doit.maryland.gov – keyword: Security Policy.

35.5 Information Security Requirements

To ensure appropriate data protection safeguards are in place, the Contractor and any relevant subcontractor(s) shall at a minimum implement and maintain the following information technology controls at all times throughout the life of the Contract. The Contractor and any relevant subcontractor(s) may augment this list with additional information technology controls.

- (a) Establish separate production, test, and training environments for systems supporting the services provided under this Contract and ensure that production data is not replicated in the test and/or training environment unless it has been previously anonymized or otherwise modified to protect the confidentiality of Sensitive Data elements.
- (b) Apply hardware and software hardening procedures as recommended by the manufacturer to reduce the Contractor/subcontractor's systems' surface of vulnerability. The purpose of system hardening procedures is to eliminate as many security risks as possible. These procedures may include but are not limited to removal of unnecessary software, disabling or removing of unnecessary services, the removal of unnecessary usernames or logins, and the deactivation of unneeded features in the Contractor/subcontractor's system configuration files.

- (c) Establish policies and procedures to implement and maintain mechanisms for regular internal vulnerability testing of operating system, application, and network devices supporting the services provided under this Contract. Such testing is intended to identify outdated software versions; missing software patches; device or software misconfigurations; and to validate compliance with or deviations from the Contractor's and/or subcontractor's security policy. The Contractor and any relevant subcontractor(s) shall evaluate all identified vulnerabilities for potential adverse effect on the system's security and/or integrity and remediate the vulnerability promptly or document why remediation action is unnecessary or unsuitable. The Department shall have the right to inspect these policies and procedures and the performance of vulnerability testing to confirm the effectiveness of these measures for the services being provided under this Contract.
- (d) Where website hosting or Internet access is the service provided or part of the service provided, the Contractor and any relevant subcontractor(s) shall conduct regular external vulnerability testing. External vulnerability testing is an assessment designed to examine the Contractor's and subcontractor's security profile from the Internet without benefit of access to internal systems and networks behind the external security perimeter. The Contractor and any relevant subcontractor(s) shall evaluate all identified vulnerabilities on Internet-facing devices for potential adverse effect on the system's security and/or integrity and remediate the vulnerability promptly or document why remediation action is unnecessary or unsuitable. The Department shall have the right to inspect these policies and procedures and the performance of vulnerability testing to confirm the effectiveness of these measures for the services being provided under this Contract.
- (e) Ensure that anti-virus and anti-malware software is installed and maintained on all systems supporting the services provided under this Contract; that the anti-virus and anti-malware software is automatically updated; and that the software is configured to actively scan and detect threats to the system for remediation.
- (f) Enforce strong user authentication and password control measures over the Contractor/subcontractor's systems supporting the services provided under this Contract to minimize the opportunity for unauthorized system access through compromise of the user access controls. At a minimum, the implemented measures should be consistent with the most current State of Maryland Department of Information Technology's Information Security Policy (<http://doit.maryland.gov/support/Pages/SecurityPolicies.aspx>), including specific requirements for password length, complexity, history, and account lockout.
- (g) Ensure State data under this service is not processed, transferred, or stored outside of the United States.
- (h) Ensure that State data is not comingled with the Contractor's and subcontractor's other clients' data through the proper application of data compartmentalization security measures. This includes but is not limited to classifying data elements and controlling access to those elements based on the classification and the user's access or security level.
- (i) Apply data encryption to protect State data, especially Sensitive Data, from improper disclosure or alteration. Data encryption should be applied to State data in transit over networks and, where possible, State data at rest within the system, as well as to State data

when archived for backup purposes. Encryption algorithms which are utilized for this purpose must comply with current Federal Information Processing Standards (FIPS), "Security Requirements for Cryptographic Modules", FIPS PUB 140-2.

<http://csrc.nist.gov/groups/STM/cmvp/documents/140-1/1401vend.htm>

- (j) Enable appropriate logging parameters on systems supporting services provided under this Contract to monitor user access activities, authorized and failed access attempts, system exceptions, and critical information security events as recommended by the operating system and application manufacturers as well as information security standards including the current State of Maryland Department of Information Security Policy: <http://doit.maryland.gov/support/Pages/SecurityPolicies.aspx>
- (k) Retain the aforementioned logs and review them at least daily to identify suspicious or questionable activity for investigation and documentation as to their cause and perform remediation, if required. The Department shall have the right to inspect these policies and procedures and the Contractor or subcontractor's performance to confirm the effectiveness of these measures for the services being provided under this Contract.
- (l) Ensure system and network environments are separated by properly configured and updated firewalls to preserve the protection and isolation of Sensitive Data from unauthorized access as well as the separation of production and non-production environments.
- (m) Restrict network connections between trusted and untrusted networks by physically and/or logically isolating systems supporting the services being provided under the Contract from unsolicited and unauthenticated network traffic.
- (n) Review at regular intervals the aforementioned network connections, documenting and confirming the business justification for the use of all service, protocols, and ports allowed, including the rationale or compensating controls implemented for those protocols considered insecure but necessary.
- (o) Ensure that the Contractor's and any subcontractor's personnel shall not connect any of their own equipment to a State LAN/WAN without prior written approval by the State. The Contractor/subcontractor shall complete any necessary paperwork as directed and coordinated with the Contract Monitor to obtain approval by the State to connect Contractor/subcontractor-owned equipment to a State LAN/WAN.

35.6 Contingency / Disaster Recovery Plans

- (a) The Contractor and any relevant subcontractor(s) shall have robust contingency and disaster recovery plans in place to ensure that the services provided under this Contract will be maintained in the event of disruption to the Contractor/subcontractor's operations (including, but not limited to, disruption to information technology systems), however caused.
- (b) The contingency and disaster recovery plans must be designed to ensure that services under this Contract are restored after a disruption within (specify the time duration in hours or days in which services must be restored) in order to avoid unacceptable consequences due to the unavailability of services.

- (c) The Contractor and any relevant subcontractor(s) shall test the contingency/disaster recovery plans at least twice annually to identify any changes that need to be made to the plan(s) to ensure a minimum interruption of service. Coordination shall be made with the State to ensure limited system downtime when testing is conducted. At least one annual test shall include backup media restoration and failover / fallback operations.
- (d) Such contingency and disaster recovery plans shall be available for the Department to inspect and to practically test at any reasonable time, and shall be subject to regular updating, revision, and testing throughout the term of the Contract.

35.7 Incident Response Requirement

- (a) The Contractor shall notify the Contract Monitor when any Contractor and/or subcontractor system that may access, process, or store State data or work product is subject to unintended access or attack. Unintended access or attack includes compromise by computer malware, malicious search engine, credential compromise or access by an individual or automated program due to a failure to secure a system or adhere to established security procedures.
- (b) The Contractor shall notify the Contract Monitor within one (1) Business Day of the discovery of the unintended access or attack by providing notice via written or electronic correspondence to the Contract Monitor and Procurement Officer.
- (c) The Contractor shall notify the Contract Monitor within two (2) hours if there is a threat to the Contractor and/or subcontractor's systems as it pertains to the use, disclosure, and security of the Department's Sensitive Data.
- (d) If an unauthorized use or disclosure of any Sensitive Data occurs, the Contractor must provide written notice to the Contract Monitor within one (1) Business Day after the Contractor's discovery of such use or disclosure and, thereafter, all information the State requests concerning such unauthorized use or disclosure.
- (e) The Contractor, within one (1) Business Day of discovery, shall report to the Contract Monitor any improper or non-authorized use or disclosure of Sensitive Data. The Contractor's report shall identify:
 - (1) the nature of the unauthorized use or disclosure;
 - (2) the Sensitive Data used or disclosed;
 - (3) who made the unauthorized use or received the unauthorized disclosure;
 - (4) what the Contractor has done or shall do to mitigate any deleterious effect of the unauthorized use or disclosure; and:
 - (5) what corrective action the Contractor has taken or shall take to prevent future similar unauthorized use or disclosure.
 - (6) the Contractor shall provide such other information, including a written report, as reasonably requested by the State.
- (f) The Contractor shall comply with all applicable laws that require the notification of individuals in the event of unauthorized release of PII or other event requiring notification. In the event of a breach of any of the Contractor's security obligations or other event requiring notification under applicable law, the Contractor agrees to assume responsibility for informing all such individuals in accordance with applicable law and to

indemnify, hold harmless and defend the State and its officials and employees from and against any claims, damages, or other harm related to such security obligation breach or other event requiring the notification.

- (g) This Section 35.7 shall survive expiration or termination of the Contract.

36. SOC 2 Type 2 Audit Report

This section applies to the Contractor and any relevant subcontractor who provides services for the Department's identified critical functions, handles Sensitive Data [see Section 35] and/or hosts any related implemented system for the State under the Contract. For purposes of this section, "relevant subcontractor" includes any subcontractor that assists the Contractor in the critical functions of the Contract, handles Sensitive Data, and/or assists with any related implemented system, excluding subcontractors that provide secondary services that are not pertinent to assisting the Contractor in the critical functions of the Contract, handling Sensitive Data, and/or assisting with any related implemented system.

The Contractor shall have an annual audit performed, at its own expense, by an independent audit firm of the Contractor's choosing, of the Contractor's and any relevant subcontractor's handling of Sensitive Data and the Department's critical functions, which are identified as Medical or Insurance Claims Processing Services and shall address all areas relating to Information Technology security and operational processes (see Section 356.). These services provided by the Contractor and any relevant subcontractor that shall be covered by the audit will collectively be referred to as the "Information Functions and/or Processes." Such audits shall be performed in accordance with audit guidance: *Reporting on Controls at a Service Organization Relevant to Security, Availability, Processing Integrity, Confidentiality, or Privacy (SOC 2)* as published by the American Institute of Certified Public Accountants (AICPA) and as updated from time to time, or according to the most current audit guidance promulgated by the AICPA or similarly-recognized professional organization, as agreed to by the Department, to assess the security of outsourced client functions or data (collectively, the "Guidance") as follows:

- 37.1 The type of audit to be performed in accordance with the Guidance is a SOC 2 Type 2 Audit (referred to as the "SOC 2 Audit" or "SOC 2 Report"). The initial SOC 2 Audit shall be scheduled and completed within a timeframe to be specified by the Contract Monitor. All subsequent SOC 2 Audits that are arranged after this initial audit shall be performed on an annual basis and submitted to the Contract Monitor by **March 31st** for the preceding calendar year.
- 37.2 The SOC 2 Audit shall report on the Contractor's and any relevant subcontractor's system(s) and the suitability of the design and operating effectiveness of controls of the Information Functions and/or Processes to meet the requirements of the Contract, including the Security Requirements in Section 36.1 relevant to the following trust principles: **Security, Confidentiality, and Privacy.**
- 37.3 The audit scope of each year's SOC 2 Report may need to be adjusted (including the inclusion or omission of the relevant trust services principles of Security, Availability, Confidentiality, Processing Integrity, and/or Privacy) to accommodate any changes to the Contractor's and any relevant subcontractor's environment since the previous SOC 2 Report. Such changes may include but are not limited to the addition of Information Functions and/or Processes through modifications to the Contract, or due to changes in information technology or operational infrastructure implemented by the Contractor and/or subcontractor. The Contractor and any relevant subcontractor shall ensure that the audit scope of each year's SOC 2 Report engagement shall accommodate these changes by including in the SOC 2 Report all appropriate controls

related to the current environment supporting the Information Functions and/or Processes, including those controls required by the Contract.

- 37.4 The scope of the SOC 2 Report shall include work performed by any subcontractors that provide essential support to the Contractor for the Information Functions and/or Processes for the services provided to the Department under the Contract. The Contractor shall ensure the audit includes all subcontractors operating in performance of the Contract.
- 37.5 All SOC 2 Audits, including those of the Contractor and any relevant subcontractor, shall be performed at no additional expense to the Department.
- 37.6 The Contractor and all relevant subcontractors shall promptly provide a complete copy of the final SOC 2 Report(s) to the Contract Monitor upon completion of each SOC 2 Audit engagement.
- 37.7 The Contractor shall provide to the Contract Monitor, within 30 calendar days of the issuance of each SOC 2 Report, a documented corrective action plan which addresses each audit finding or exception contained in a SOC 2 Report. The corrective action plan shall identify in detail the remedial action to be taken by the Contractor and/or subcontractor(s) along with the date(s) when each remedial action is to be implemented.
- 37.8 If the Contractor, including any relevant subcontractor, currently has an annual information security assessment performed that includes the operations, systems, and repositories of the Information Functions and/or Processes being provided to the Department under the Contract, and if that assessment generally conforms to the content and objective of the Guidance, the Department will determine in consultation with appropriate State government technology and audit authorities whether the Contractor's and any relevant subcontractor's current information security assessments are acceptable in lieu of the SOC 2 Report(s).
- 37.9 If the Contractor and any relevant subcontractor fails during the Contract term to obtain an annual SOC 2 Report by the date specified in Section 37.1 above, the Department shall have the right to retain an independent audit firm to perform an audit engagement of a SOC 2 Report of the Information Functions and/or Processes utilized or provided by the Contractor and any relevant subcontractor under the Contract. The Contractor and any relevant subcontractor agrees to allow the independent audit firm to access its facility/ies for purposes of conducting this audit engagement(s), and will provide the necessary support and cooperation to the independent audit firm that is required to perform the audit engagement of the SOC 2 Report. The Department will invoice the Contractor for the expense of the SOC 2 Report(s), or deduct the cost from future payments to the Contractor.

37. Federal Department of Health and Human Services (DHHS) Exclusion Requirements

The Contractor agrees that it will comply with federal provisions (pursuant to §§ 1128 and 1156 of the Social Security Act and 42 C.F.R. 1001) that prohibit payments under certain federal health care programs to any individual or entity that is on the List of Excluded Individuals/Entities maintained by DHHS. By executing this contract, the Contractor affirmatively declares that neither it nor any employee is, to the best of its knowledge, subject to exclusion. The Contractor agrees, further, during the term of this contract, to check the List of Excluded Individuals/Entities prior to hiring or assigning individuals to work on this Contract, and to notify the Department immediately of any identification of the Contractor or an individual employee as excluded, and of any DHHS action or proposed action to exclude the Contractor or any Contractor employee.

38. End of Contract Transition

The Contractor shall cooperate in the orderly transition of services from this Contract to any subsequent contract for similar services. The transition period shall begin ninety (90) days before the Contract end, or the end date of any contract extension. The Contractor shall work toward a prompt and timely transition, proceeding in accordance with the directions of the Contract Monitor. The Contract Monitor may provide the Contractor with additional instructions to meet specific transition requirements prior to the end of the Contract.

39. Litigation

39.1 When litigation involving any activity under this Contract is filed directly with the Contractor, the Contractor shall promptly notify the Contract Monitor. The notification shall include:

- (a) Name of Court;
- (b) Case number;
- (c) Whether counsel filed or pro se; and
- (d) Amount of claim.

39.2 Whenever there is any progress or activity involving the case, the Contractor shall notify the Contract Monitor to delineate:

- (a) Whether dispositive motions are pending;
- (b) Discovery proceeding;
- (c) Trial set (date);
- (d) Trial held;
- (e) Judgment rendered;
- (f) Any appeal noted.

All rulings on dispositive motions, judgments and settlements, and the terms of any judgment or settlement shall also be reported, regardless of whether the named defendant is the corporate defendant, a corporate subcontractor, or an individual employed by the Contractor or a subcontractor if the suit arises from performance of the services under this Contract. For any claim filed with the Contractor, the Contractor shall cooperate with the Department with the defense of such claim. For any claim filed with the Department, the Department will notify the Contractor and will coordinate with the Contractor for any necessary information needed in the suit.

39.3 The Contractor shall participate in providing expert testimony for any litigation filed during the Contract period stemming from a Medical Health claim.

40. Miscellaneous

40.1 Any provision of this Contract which contemplates performance or observance subsequent to any termination or expiration of this Contract shall survive termination or expiration of this Contract and continue in full force and effect.

40.2 If any term contained in this Contract is held or finally determined to be invalid, illegal, or unenforceable in any respect, in whole or in part, such term shall be severed from this Contract, and the remaining terms contained herein shall continue in full force and effect, and shall in no way be affected, prejudiced, or disturbed thereby.

IN WITNESS THEREOF, the parties have executed this Contract as of the date hereinabove set forth.

A. Overview:

The Department is responsible for the health care of the Inmates in its custody, and housed throughout the State at Department operated correctional facilities. The Inmate population has a significant number of individuals needing treatment and ongoing management of Infectious Diseases. To address this need, and to manage the costs associated with treatment of those diseases, the Department has agreed to contract with BSH to provide medical treatment, prescription of medications and drug purchasing for Inmates with Infectious Diseases. The scope of this Contract is limited to treatment of Inmate Patients for HIV and Hepatitis C by the infectious disease medical professionals employed by BSH pursuant this Contract, and infectious disease consultation services as directed by the Department's Medical Director.
